

DODDRIDGE COUNTY EMERGENCY OPERATIONS PLAN PROMULGATION STATEMENT

WHEREAS preparedness to cope with disasters requires many diverse but interrelated elements which must be woven into an integrated emergency management system involving all departments of local government and private support agencies as well as the individual citizen, planning is necessary to coordinate all of these elements.

WHEREAS disasters necessitate a sudden escalation in the material needs of a community and a reorganization of resources and personnel to address the emergency response, a lack of planning results in disorganized, "salvage-type" activities instead of a coordinated response.

WHEREAS planning for population protection must be a cooperative effort to avert or minimize the effects of an emergency, a standard set of incident management guidelines should be followed to allow for seamless interoperability and cooperation to restore the stricken area to its pre-disaster condition with as little social or economic disruption possible.

WHEREAS the National Incident Management System (mandated by Homeland Security Presidential Directive-5) requires all jurisdictions to follow a standardized operational framework for managing emergency incidents that includes the Incident Command System, multi-agency coordination systems (e.g. local EOC), and a joint public information system, a plan outlining this framework must be developed.

THEREFORE BE IT RESOLVED THAT this plan is a statement of policy regarding emergency management and assigns tasks and responsibilities to county officials and department heads, specifying their roles during an emergency or disaster situation. It is developed pursuant to Homeland Security Presidential Directive (HSPD)-5, Presidential Policy Directive (PPD)-8, and Chapter 15, Article 5 of the West Virginia Code.

Signed this 2nd day of November, 2021.
