RE: EQT Production Company
OXF 149 Well Pad Project

Mr. Wellings,

On behalf of EQT, SLS is submitting this letter pursuant to the requirements of the Doddridge County Floodplain Ordinance to request concurrence to complete a project in Doddridge County, West Virginia. EQT has proposed to expand and reoccupy a Marcellus Shale well pad, access road, and other pertinent facilities along a ridge top near Left Fork of Arnolds Creek. The approximate location is 39.221220, -80.801030 off of County Route 11/4. Please see the attached project location map.

EQT intends to use the existing public road from US Route 50 to gain access to the project site. The well pad and ancillary facilities will be expanded and reoccupied, wells drilled, and reclaimed per West Virginia Department of Environmental Protection requirements outlined in the drilling permit expected in mid-September 2013. During the course of this project, no fill material will be added to or removed from the floodplain area.

On behalf of EQT, SLS is requesting your concurrence to begin construction on the OXF 149 Well Pad once the WVDEP drilling permits are received. Please feel to contact Thomas Meeks with SLS at 304-462-5634 or tmeeks@sissurveys.com, or Megan Landfried with EQT at 304-848-0061 or mlandfried@eqt.com should you have any questions or comments.

Respectfully submitted,

Gregory A. Smith, P.S.
