RE: Floodplain Permit Application
EQT Gathering, LLC
EQT Saturn Station Phase V Expansion
Doddridge County, West Virginia
POTESTA Project No. 0101-13-0432

Dear Mr. Wellings:

Potesta & Associates, Inc. (POTESTA) is pleased to submit this cover letter with the associated Floodplain Development Permit Application for the Saturn Compressor Station Phase V Expansion Project. The proposed project will be located within the existing compressor station and will consist of installing a short run of underground piping for a needed system bypass. Based on information presented on the site FIRM, a portion of the project is located within FEMA Flood Zone A. Flood Zone A is the regulatory floodplain associated with the Base Flood (1 percent annual chance flood event), commonly referred to as the 100-year floodplain and indicates that the limits of the floodplain are approximate; as such, Base Flood Elevations (BFEs) have not been previously established by FEMA. Work within the floodplain associated with this project shall include the installation of a buried line. All work associated with the project within the limits of the floodplain will be in accordance with the following. No permanent aboveground structures are to be constructed within the floodplain. Backfill being installed over the buried pipe will be compacted back to original grade. Any excess material associated with this activity shall be placed outside of the floodplain limits. No fill shall be placed within the floodplain limits above original elevations.

Included with this permit application is a floodplain map showing the location of the project.
