DODDRIDGE COUNTY, WV

Dear Sir or Madam:

Subject: Revised Floodplain Development Permit Application  
Sherwood Sales NGL Pipelines  
Doddridge County, West Virginia  
CEC Project 132-828

Civil & Environmental Consultants, Inc. (CEC) was hired as a consultant to provide professional engineering services to MarkWest Liberty Midstream & Resources, LLC (MarkWest). MarkWest is planning to construct the Sherwood Sales NGL Pipelines, which consist of two parallel natural gas pipelines, each approximately 5-miles in length in Doddridge County, West Virginia. The proposed Sherwood Sales NGL Pipelines will serve as connections from MarkWest's Sherwood Gas Plant to MarkWest's Schumacher Meter Site.

The Sherwood Sales NGL Pipelines project is located within the Middle Ohio North Watershed, a tributary of the Ohio River. The pipelines and associated access roads will enter and/or cross FEMA Flood Zones A and AE of Buckeye Creek twice located on FEMA FIRM panel number 54017C0145C. The pipelines and associated access roads will enter and/or cross FEMA Flood Zone AE of Long Run twice located on FEMA FIRM panel numbers 54017C0165C and 54017C0145C. No impacts to the base flood elevations in any of the four locations are anticipated because the access roads are to approximately follow existing grade and the stream crossings are proposed to be open cut for the pipelines with temporary timber mat bridges for equipment crossings.

The Sherwood Sales NGL Pipelines Doddridge County Floodplain Development Permit Application was previously submitted in January 2014 to Dan Wellings. The submission of this new floodplain permit application is to provide additional information requested by Dan. It is our understanding that the floodplain permit application fee has been forwarded to you by Dan. Please advise if this is not the case.

Should you have any questions or require additional information, do not hesitate to contact us at 412-429-2324.

Very truly yours,

COUNTY CLERK  
DODDRIDGE COUNTY, WV

Dear Mr. Wriston:

Subject: Floodplain Development Permit Time Extension  
Sherwood Sales NGL Pipelines  
MarkWest Liberty Midstream and Resources, LLC  
Doddridge County, West Virginia  
CEC Project 132-828

Civil & Environmental Consultants, Inc. (CEC) has been retained as a consultant to provide professional engineering services to MarkWest Liberty Midstream & Resources, LLC (MarkWest). Specifically, CEC is requesting a Time Extension for the Sherwood Sales NGL Pipelines Floodplain Development Permit #14-130, issued on March 11, 2014.

The Sherwood Sales NGL Pipelines project is located within the Middle Ohio North Watershed, a tributary of the Ohio River. The pipelines and associated access roads enter and/or cross FEMA Flood Zones A and AE of Buckeye Creek twice on FEMA FIRM panel number 54017C0145C. The pipelines and associated access roads enter and/or cross FEMA Flood Zone AE of Long Run twice located on FEMA FIRM panel numbers 54017C0165C and 54017C0145C.

The Sherwood Sales NGL Pipelines have been installed, but minor landslides have occurred along the right-of-way. MarkWest is repairing and stabilizing the landslide areas and is requesting this Time Extension to the Floodplain Development Permit to perform these repairs. No impacts to the base flood elevations are anticipated because the access roads approximately follow existing grade, the minor landslide areas are being returned to approximate existing grade, and the stream equipment crossings are temporary timber mat bridges.

Because no impacts to the base flood elevations are anticipated, the time extension for the Floodplain Development Permit would not be detrimental to public safety, health, or welfare or injurious to other property.

Should you have any questions or require additional information, do not hesitate to contact us at 412-429-2324.

Very truly yours,

CIVIL & ENVIRONMENTAL CONSULTANTS, INC.

COUNTY CLERK  
DODDRIDGE COUNTY, WV

On behalf of MarkWest Liberty Midstream & Resources, LLC, Civil & Environmental Consultants, Inc. (CEC) is submitting a request to extend the Commercial/Industrial Floodplain Development Permit (#14-130) associated with the Sherwood Sales NGL Pipeline, located in Doddridge County, West Virginia. The current permit was recently extended for an additional 90 days and expires on June, 6, 2016. Based on our conversation on February 18, 2016, CEC understands that this enclosed Floodplain Permit Application and Application Fee is required to extend the permit for one (1) additional year, presumably to June 6, 2017. Please find enclosed the following:

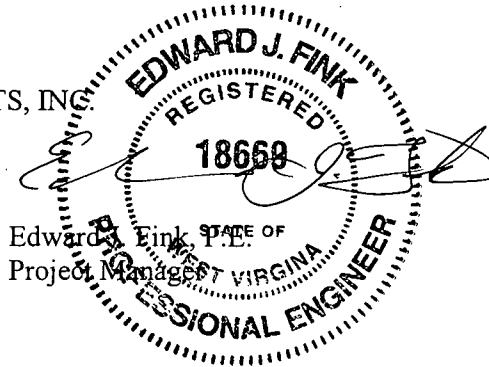

- Permit Application Fee in the amount of \$2,260 (Check No. 119678); and
- A copy of the Doddridge County Floodplain Development Permit Application (Sherwood Sales)

Should you have any questions or require additional information, do not hesitate to contact us at 412-429-2324.

 DODDRIDGE COUNTY, WA

Ed,

We need some more info on CEC project 132-828 Doddridge County floodplain application.

1. All floodplain permit applications should start with a cover letter signed and sealed by the licensed engineer in charge of the project. Cover letter should briefly and concisely state the nature of the project (pipeline, what methods will be used (even a bore under the floodplain requires a permit), etc), where it is located (watershed), if the project (including access roads and temporary bridges) is located partly within the designated floodplain, FIRM panel # & zone, etc. If located in the floodplain, what is the pre construction BFE to two decimal places (as determined from HEC-RAS, FEMA Flood study profiles, etc.), what impact if any will the project have on the BFE even if temporary for construction, and post construction BFE. Something like you and Rick submitted with CEC project 110-811.5001.
2. For pipelines crossing floodplains, enter the total cost of construction for that part of the project located within the floodplain on the bottom of page 3 of DC floodplain application. An attachment showing an itemized total cost of construction within the floodplain **MUST** be attached (show us how you got that figure on said page 3 of application.) For structures located partly within the floodplain, the total cost of construction of the entire structure, regardless of what percentage is within the floodplain, applies (FEMA mandate). It appears the submitted application has 3 or 4 floodplain crossings. You may want to submit a separate floodplain application for each crossing. Start of construction for each floodplain permit is 180 days & permit good for 1 year.
3. Surface Owners (top of page 4 of floodplain application):  
**DO NOT SUBMIT THE NAMES & ADDRESS OF EVERY SURFACE OWNER THE PIPELINE CROSSES, ONLY THOSE LOCATED WITHIN THE FLOODPLAIN WHICH WILL BE IMPACTED AND ADJOINERS IN SAID FLOODPLAIN WHICH MAY BE AFFECTED BY PROJECT (This is a court ruling on subject).**
4. Maps submitted are good, but we like to see the project located from beginning to end on the WV Flood Tool found on the state FEMA website.

This is my last day officially as the Doddridge County Floodplain Manager.

WV State Ethics Commission says I have a conflict of interest since family has many gas royalties.

They are still in the process of finding a replacement.

As of tomorrow the president of the DC commission automatically becomes the floodplain manager under the ordinance.

Does CEC need an old licensed WV surveyor that knows floodplain?

Dan,

Can you let me know why we may want to break out each floodplain crossing? Would it be easier for the new reviewer to review and approve?

Also, will you be forwarding the application fee onto County, and should we respond to your email below as a "Response to Comments" letter, or submit a totally new application and application fee.

Any help is much appreciated.

Thanks.

Ed,

Some pipeline developers have discovered that floodplain crossings on long lines may need to be submitted independently, because it is sometimes difficult to have all crossings started within 180 days and completed within a year. In your case, if you believe your contractors can achieve this time line, go ahead and submit all at once, but be sure to include the cover letter and studies for each crossing separately with the floodplain application. Make it easy for the floodplain manager. I wont be helping DC on the sidelines when they get a new floodplain manager hired.

County has check.

All correspondence should continue to go to the 118 East Court Street address.

I believe CEC should submit a new floodplain application/applications, but you may treat as a "Response to Comments" and we will try to sort it out. Like I said, I don't know how long before a new floodplain manager may be hired and he/she may want things done differently.

Thanks,

Dan Wellings, PS
