**RE: *Doddridge County Location Improvement Permit
Crestwood Marcellus Midstream LLC
Banner to Hyre Pipeline, Doddridge County, West Virginia
Thrasher Group Project # 101-015-0219***

To whom it may concern:

On behalf of Crestwood Marcellus Midstream LLC (Crestwood), The Thrasher Group Inc., is submitting to your office for review and approval an application package for a Doddridge County Location Improvement Permit for a proposed pipeline project in the USGS New Milton 7.5 minute quadrangle of Doddridge County, WV.

The proposed Banner to Hyre pipeline project will involve the installation of three (3) buried steel natural gas pipelines across approximately 4573.63 linear feet (LF). The proposed project will involve the installation of a twenty (20) inch, sixteen (16) inch, and eight (8) inch pipeline within a seventy-five (75) foot construction right-of-way (ROW). The proposed ROW contains approximately 10.16 acres. The proposed pipelines originate at the Banner Compressor Station, located at 39.208046°N and 80.658752°W. Termination of the proposed pipelines will occur within the existing ROW associated with the Tichnel to Midpoint gathering line, located at 39.201064°N and 80.650074°W.

The proposed pipelines will enter the floodplain in two (2) separate locations. The proposed pipelines will first cross the floodplain for approximately 326 LF using HDD construction methods. The proposed pipelines will then cross the floodplain for approximately 1,153 LF using open-cut construction methods. Please see attached WV Flood Tool map and FIRM maps (Doddridge County Panel 235) with the pipeline overlaid. Access to the proposed project will be obtained through existing previously constructed and permitted access roads.

The USGS topographical map and aerial imagery map contained herein depict the proposed limits of disturbance associated with construction. No above-ground or underground structures are proposed to be constructed within the 100 year flood plain. In addition, after construction, all material will be replaced to restore original elevation, slope and contour. Note that all required federal and state permit applications have been submitted for the project and are attached.
