COUNTY CLERK
DODDRIDGE COUNTY, WV

Dear Mr. Wriston:

Subject: Floodplain Development Permit Time Extension
Sherwood to Mobley NGL Pipelines
MarkWest Liberty Midstream and Resources, LLC
Doddridge County, West Virginia
CEC Project 132-782

Civil & Environmental Consultants, Inc. (CEC) has been retained as a consultant to provide professional engineering services to MarkWest Liberty Midstream & Resources, LLC (MarkWest). Specifically, CEC is requesting a Time Extension for the Sherwood to Mobley NGL Pipelines Floodplain Development Permit #14-175, issued on March 31, 2014.

The Sherwood to Mobley NGL Pipelines project is located within the Middle Ohio North Watershed, a tributary of the Ohio River. The pipelines and associated access roads enter and/or cross FEMA Flood Zone AE of Buckeye Creek once located on FEMA FIRM panel number 54017C0145C. The pipelines and associated access roads enter and/or cross FEMA Flood Zone AE of Big Battle Run once located on FEMA FIRM panel number 54017C0045C. The pipelines and associated access roads enter and/or cross FEMA Flood Zone AE of Robinson Run once located on FEMA FIRM panel number 54017C0065C.

The Sherwood to Mobley NGL Pipelines have been installed, but minor landslides have occurred along the right-of-way. MarkWest is repairing and stabilizing the landslide areas and is requesting this Time Extension to the Floodplain Development Permit to perform these repairs. No impacts to the base flood elevations are anticipated because the access roads approximately follow existing grade, the minor landslide areas are being returned to approximate existing grade, and the stream equipment crossings are temporary timber mat bridges.

Because no impacts to the base flood elevations are anticipated, the time extension for the Floodplain Development Permit would not be detrimental to public safety, health, or welfare or injurious to other property.

COUNTY CLERK

Dear Sir or Madam:

Subject: Floodplain Development Permit Application
Sherwood to Mobley NGL Pipelines
Doddridge and Wetzel Counties, West Virginia
CEC Project 132-782

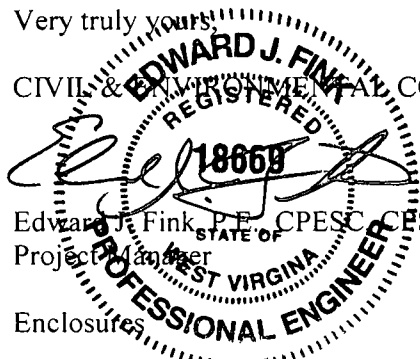

Civil & Environmental Consultants, Inc. (CEC) was hired as a consultant to provide professional engineering services to MarkWest Liberty Midstream & Resources, LLC (MarkWest). MarkWest is planning to construct the Sherwood to Mobley NGL Pipelines, which consist of two parallel natural gas pipelines, each approximately 17 miles in length in Doddridge County, West Virginia. The proposed Sherwood to Mobley NGL Pipelines will connect MarkWest's Sherwood Gas Plant to MarkWest's Mobley Gas Plant.

The Sherwood to Mobley NGL Pipelines project is located within the Middle Ohio North Watershed, a tributary of the Ohio River. The pipelines and associated access roads will enter and/or cross FEMA Flood Zone AE of Buckeye Creek once located on FEMA FIRM panel number 54017C0145C, FEMA Flood Zone AE of Big Battle Run once located on FEMA FIRM panel number 54017C0045C, and FEMA Flood Zone AE of Robinson Run once located on FEMA FIRM panel number 54017C0065C. No impacts to the base flood elevations in any of the three locations are anticipated as the access roads approximately follow the existing grade. All stream crossings are proposed to be open cut, except for the pipeline crossing below SR 50, which will be bored. The open cut pipelines will utilize temporary timber mat bridges for equipment crossings.

Should you have any questions or require additional information, do not hesitate to contact us at 412-429-2324.
