This email is to notify you that your project, **138V Phase 2 Aerial Transmission Lines**, designated as **Doddridge County FP Permit # 14-224**, has been approved. This project shows no impact to the Doddridge County Floodplain as proposed, and therefore no Floodplain Permit is required. We have however included an electronic copy of an approved permit for your records in word document format. (Note: A PDF version can be provided upon request.)

A hard copy of this permit has been printed and laminated for you to post at your construction site if desired. While this is not required, it may help alleviate citizen inquiries or concerns that work is being done without approval. This hard copy may be picked up from the Doddridge County Clerk's office during normal business hours at your leisure. Should you require additional laminated copies, those can be provided at no charge.

Should you have any further questions regarding this permit approval, please feel free to contact my office at your convenience.

Respectfully,

--
