100-Year flood elevation is: _____ NGVD (MSL)

Unavailable

The proposed development is located in a floodway.
FBFM Panel No. _____ Dated _____

See section 4 for additional instructions.

SIGNED _____

DATE _____

SECTION 4: ADDITIONAL INFORMATION REQUIRED (To be completed by Floodplain Administrator/Manager or his/her representative)

The applicant must submit the documents checked below before the application can be processed.

- A plan showing the location of all existing structures, water bodies, adjacent roads, lot dimensions and proposed development.

- Development plans, drawn to scale, and specifications, including where applicable: details for anchoring structures, storage tanks, proposed elevation of lowest floor, (including basement or crawl space), types of water resistant materials used below the first floor, details of flood proffing of utilities located below the first floor and details of enclosures below the first floor. Also _____

- Subdivision or other development plans (If the subdivision or development exceeds 50 lots or 5 acres, whichever is the lesser, the applicant must provide 100-year flood elevations if they are not otherwise available).

- Plans showing the extent of watercourse relocation and/or landform alterations.

- Top of new fill elevation _____ Ft. NGVD (MSL).
For floodproofing structures applicant must attach certification from registered engineer or architect.

- Certification from a registered engineer that the proposed activity in a regulatory floodway will not result in any increase in the height of the 100-year flood. A copy of all data and calculations supporting this finding must also be submitted.

- Manufactured homes located in a floodplain area must have a West Virginia Contractor's License and a Manufactured Home Installation License as required by the Federal Emergency Management Agency (FEMA).

Other:

SECTION 5: PERMIT DETERMINATION (To be completed by Floodplain Administrator/Manager or his/her representative)

I have determined that the proposed activity (**type is or is not**) in conformance with provisions of the Floodplain Ordinance adopted by the County Commission of Doddridge County on May 21, 2013. The permit is issued subject to the conditions attached to and made part of this permit.

SIGNED _____ DATE _____

If the Floodplain Administrator/Manager found that the above was not in conformance with the provisions of the Doddridge County Floodplain Ordinance and/or denied that application, the applicant may complete an appealing process below.

APPEALS: Appealed to the County Commission of Doddridge County? Yes No
Hearing Date: _____
County Commission Decision - Approved Yes No

CONDITIONS: _____

SECTION 6: AS-BUILT ELEVATIONS (To be submitted by APPLICANT before Certificate of Compliance is issued).

The following information must be provided for project structures. This section must be completed by a registered professional engineer or a licensed land surveyor (or attach a certification to this application).

COMPLETE 1 OR 2 BELOW:

- 1 Actual (As-Built) Elevation of the top of the lowest floor (including basement or crawl space is _____ FT. NGVD (MSL)
- 2 Actual (As Built) elevation of floodproofing is _____ FT. NGVD (MSL)

Note: Any work performed prior to submittal of the above information is at risk of the applicant.

SECTION 7: COMPLIANCE ACTION (To be completed by the Floodplain Administrator/Manager or his/her representative).

The Floodplain Administrator/Manager or his/her representative will complete this section as applicable based on inspection of the project to ensure compliance with the Doddridge County Floodplain Ordinance.

INSPECTIONS:

THRASHER

October 1, 2014

Mr. Bo Wristen, Floodplain Supervisor
Doddridge County Commission
118 East Court Street
West Union, WV 26456

**RE: *Doddridge County Floodplain Development Permit
Antero Resources Corporation
Martin Slip Repair Access Road
Doddridge County, West Virginia
Thrasher Group Project # 101-010-0748***

Mr. Wristen:

On behalf of Antero Resources Corporation (Antero), The Thrasher Group, Inc. (Thrasher) is submitting to your office a project review request and Stream Activity Application for a proposed access road project in the USGS Big Isaac 7.5 minute quadrangle of Doddridge County, West Virginia. The proposed Martin Slip Repair Access Road Project will consist of constructing an access road to the proposed equipment staging area in order to repair an earthen landslide (slip). The proposed Martin Slip Repair Access Road entrance will be located at approximate coordinates 39.245183°N and 80.612597°W. From there, it extends approximately 2,814 linear feet (LF) south to the proposed equipment staging area located at approximate coordinates 39.238441°N and 80.613440°W.

A timbermat bridge is proposed to be installed across Greenbrier Creek in order to allow equipment access to the site and to monitor the slip following completion of repair activities. The stream flows alongside Greenbrier Road (County Route 17), at approximate coordinates 39.244095°N and 80.612824°W.

No grading activities are associated with the proposed Martin Slip Repair Access Road Project; and, no impact to the 100-year flood elevations, floodway elevations, or floodway widths on Greenbrier Creek are proposed due to the size and nature of the project. Additionally, impact to backwaters would be negligible. Please see attached documentation, as well as PE signature and stamp below.

Division of Natural Resources
RIGHT OF ENTRY

Re: LS-14-VI/09-1431

Antero Resources Corporation
Amanda Fernley
c/o AllStar Ecology, LLC
Attention: Terry Burhans
1582 Meadowdale Road
Fairmont, WV 26554-

Dear Ms. Fernley:

The Division of Natural Resources hereby grants to you for a period of ten (10) years from the date hereof, a Right of Entry to install, use and maintain a timber mat crossing (Martin Slip Access Road) at two (2) separate locations along Greenbrier Creek and an unnamed tributary of Greenbrier Creek of Buckeye Creek of Middle Island Creek of the Ohio River near Nina in Doddridge County, West Virginia.

This Right of Entry is subject to the following terms and conditions:

1. No in stream work during the fish-spawning season (April 1-June 30).
2. Work should be completed as quickly as possible during low flows in designated work areas only.
3. Any streambed disturbance should be restricted to the immediate area. In stream use of equipment should be kept to a minimum.
4. All shore areas disturbed by this operation must be reshaped, seeded and mulched immediately upon completion of work. The prompt establishment of vegetative cover will reduce future damage from high water levels.
5. Green concrete must not be put in the stream (highly toxic to aquatic life).
6. Guidance should be obtained from NRCS (formerly SCS) and a registered engineer for the design and construction. Must allow for passage of at least ten-year year flood flow.
7. Best management practices should be followed; measures such as hay bales must be used to reduce downstream siltation.

Antero Resources Corporation
LS-14-VI/09-1431
Page 2
September 25, 2014

8. Applicant is responsible for removing debris from in and around the installation periodically to prevent stream flow obstruction.
9. Durable head walls of logs, crossties, rock, or concrete shall be constructed at both the upstream and downstream ends of crossing to prevent erosion of fill material into the stream.
10. The State's issuance of this Right-of-Entry does not provide for the applicant to work outside the requested boundaries nor does the State assume any liability for the applicant's/landowner's construction activities. By accepting this Right-of-Entry, the applicant/landowner assumes liability for any/all damages caused by this activity to both upstream and downstream landowners.

Guidelines of Best Management Practices for Sediment and Erosion Control as outlined by the Section of Water Resources, Division of Environmental Protection must be followed. Copies of those guidelines are available from the Section of Water Resources, Telephone No. (304) 926-0440.

The issuance of this Right of Entry by the Division of Natural Resources does not preclude the necessity for you to obtain a permit from the U.S. Corps of Engineers District Office, Permit Section, or any other state or federal permits which may be required by law, nor does this Right of Entry negate the need to comply with the West Virginia Water Pollution Control Act and/or the State Environmental Quality Board's administrative regulations, applicant is also responsible for determining if the proposed activity is located within an identified flood plain and it is the applicant's responsibility for contacting the local governmental agency in charge of that program and obtaining a flood plain development permit for it. This Right of Entry does not grant any rights or privileges, or permission to enter upon or to cross the property of any other person, nor is permission granted to remove any material that lies upon the property of any other persons. Work should be completed in as brief a period as possible and within one year from the date of this letter. In the event you fail or refuse to comply with any of the terms or conditions herein, this Right of Entry will be canceled and considered null and void and the Division will reject further applications.

Your payment is now due and payable in the amount of \$200.00 to the Division of Natural Resources covering the first year's annual fee of this agreement. Your agreement will be effective upon receipt of your payment in full. You must notify this office in writing when this installation has been removed.

Sincerely,

Joe T. Scarberry, Supervisor
Office of Land and Streams

Hi Bo,

Per our phone conversation, I have attached a picture of the route changes for the Martin Slip Access Road (#14-297). The red line is what was previously approved, and the green line is the route that was built.

Let me know what you think!

Thanks,

Rachel Grzybek

**RE: *Doddridge County Floodplain Development Permit
Antero Resources Corporation
Martin Slip Repair Access Road Staging Area
Doddridge County, West Virginia
Thrasher Group Project # 101-010-0748***

Mr. Wristen:

On behalf of Antero Resources Corporation (Antero), The Thrasher Group, Inc. (Thrasher) is submitting to your office a project review request for a proposed access road staging area project in the USGS Big Isaac 7.5 minute quadrangle of Doddridge County, West Virginia.

The proposed Martin Slip Repair Access Road Staging Area Project is located at approximate center coordinates 39.242123°N and 80.616277°W; and, is approximately 8,750 square feet (0.2 acres) in size. The proposed project will consist of minimal disturbance (equipment traffic, surface gravel) within an existing field for the purposes of temporarily storing materials and equipment needed to repair an earthen slip.

The entirety of the staging area will be located within the floodplain; however, no impacts to the 100-year flood elevations, floodway elevations, or floodway widths on Greenbrier Creek are proposed due to the size and nature of the project. Please see attached documentation, as well as PE signature and stamp below.

Should you have any questions or require any additional information, please do not hesitate to contact me at (304) 326-6366 or ddrennen@thrashereng.com.

Sincerely,

THE THRASHER GROUP, INC.

Mr. Wriston:

Antero Resources Corporation (Antero) would like to request a revision be made to our Martin Slip Access Road Floodplain Permit #14-297. Our project is located in Doddridge County, New Milton District where the entrance will begin at coordinates 39.242296 N, 80.616608 W and will continue south to coordinates 39.241149 N, 80.613559W where it will split into two separate locations at coordinates 39.238611 N, 80.613149 W and 39.239484 N, 80.611632 W. Per the FIRM Maps #54017C0255C, this location is within the floodplain.

Attached you will find the following:

- WV Flood Tool Map

If you have any questions please feel free to contact me at (304) 842-4008.

Thank you in advance for your consideration.

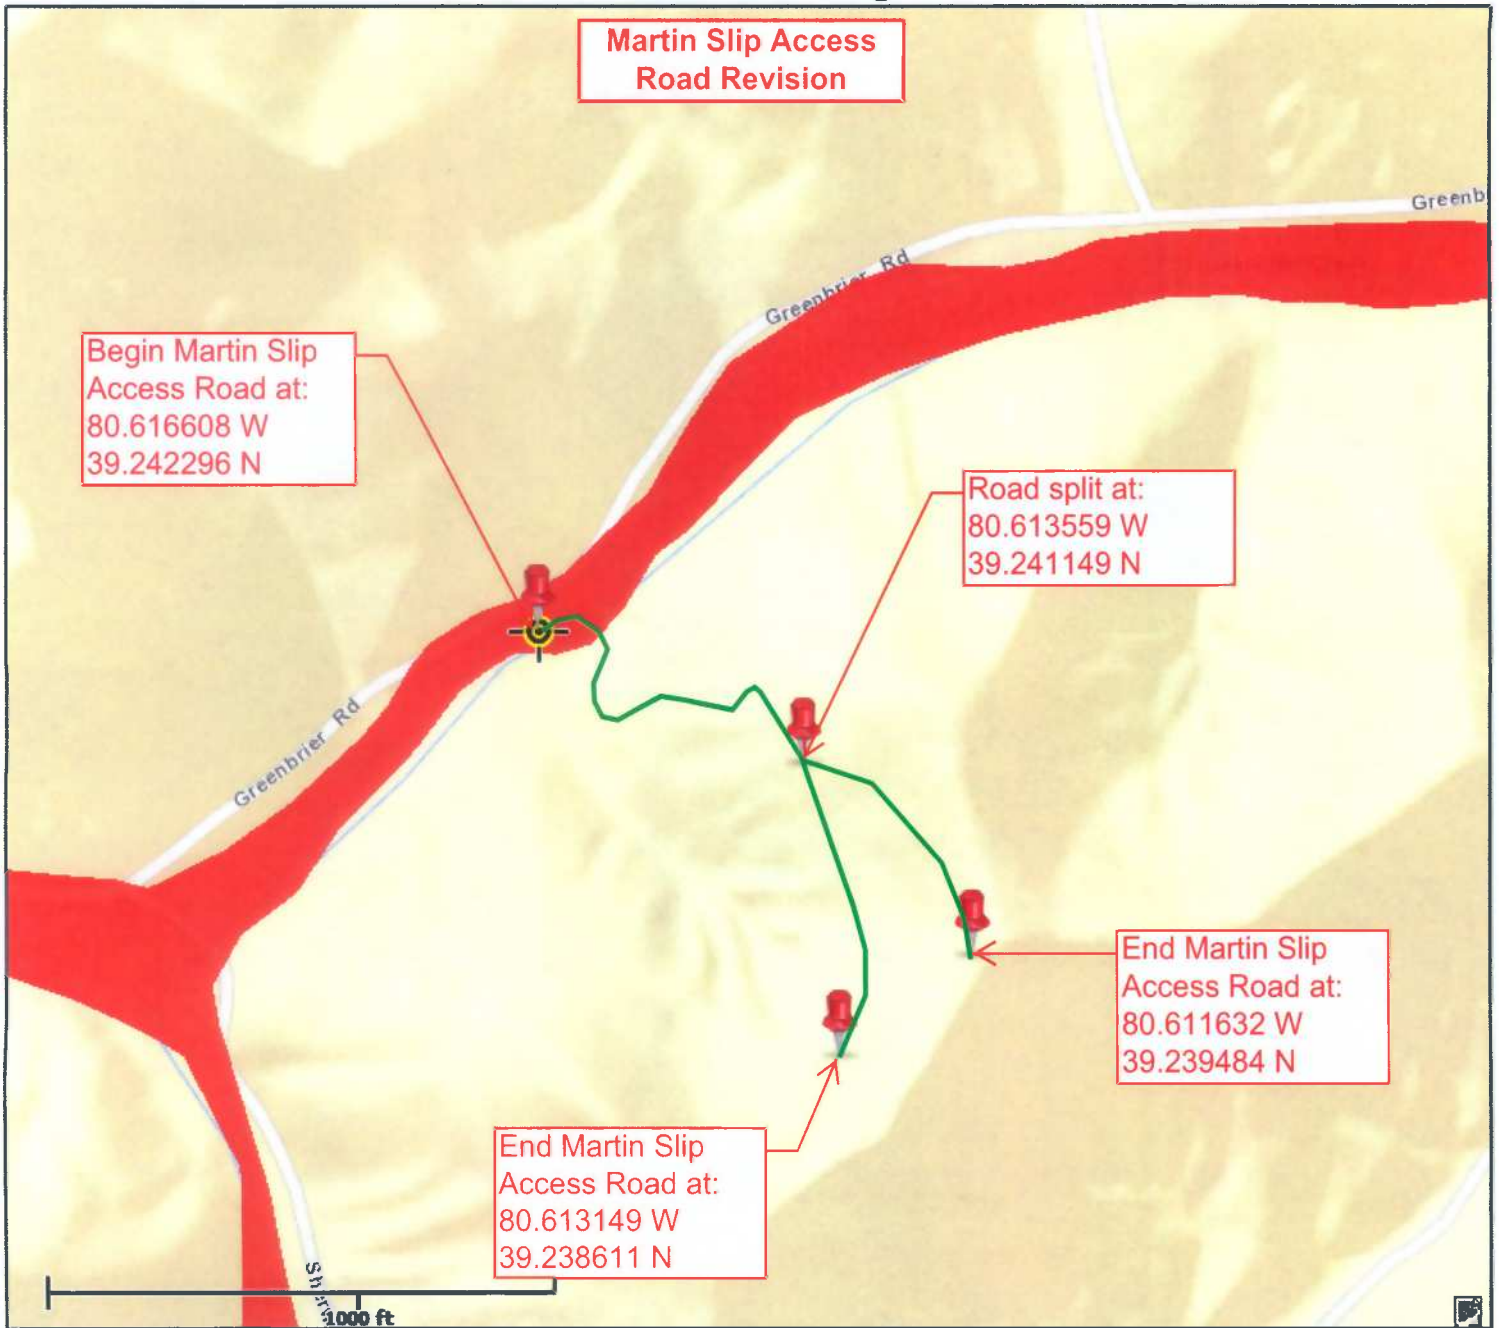

Sincerely,
