SECTION 4: ADDITIONAL INFORMATION REQUIRED FOR DEVELOPMENT IN SPECIAL FLOOD HAZARD AREA (To be completed by Floodplain Administrator/Manager or his/her representative)

The applicant must submit the documents checked below before the application can be processed.

- A plan showing the location of all existing structures, water bodies, adjacent roads and proposed development.

- Development plans, drawn to scale, and specifications, including where applicable: details for anchoring structures, storage tanks, proposed elevation of lowest floor, (including basement or crawl space), types of water resistant materials used below the first floor, details of flood proofing of utilities located below the first floor and details of enclosures below the first floor. Also _____

- Subdivision or other development plans (If the subdivision or development exceeds 10 lots or 2 acres, whichever is the lesser, the applicant must provide 100-year flood elevations if they are not otherwise available).

- Plans showing the extent of watercourse relocation and/or landform alterations.

- Top of new fill elevation _____ Ft. NGVD.
For floodproofing structures applicant must attach certification from registered engineer or architect.

- Certification from a registered engineer that the proposed activity in a regulatory floodway will not result in any increase in the height of the 100-year flood. A copy of all data and calculations supporting this finding must also be submitted.

- Manufactured homes located in a Flood Hazard Area must have a West Virginia Contractor's License and a Manufactured Home Installation License as required by the Federal Emergency Management Agency (FEMA).

- Other: _____

SECTION 5: PERMIT DETERMINATION (To be completed by Floodplain Administrator/Manager or his/her representative)

I have determined that the proposed activity **(type is or is not)** in conformance with provisions of the Floodplain Ordinance adopted by the County Commission of Doddridge County on May 21, 2013. The permit is issued subject to the conditions attached to and made part of this permit.

SIGNED _____ DATE _____

If the Floodplain Administrator/Manager found that the above was not in conformance with the provisions of the Doddridge County Floodplain Ordinance and/or denied that application, the applicant may appeal.

APPEALS: Appealed to the County Commission of Doddridge County? Yes No

**Doddridge County Floodplain Development Permit Application
Trans-Allegheny Interstate Line Company, a FirstEnergy Company
Oak Mound to Waldo Run 138 kV Transmission Line Project
Harrison and Doddridge Counties, West Virginia**

FILED

SOUTH AUSTIN
COUNTY CLERK
DODDRIDGE COUNTY, VA

Dear Mr. Wriston:

GAI Consultants, Inc. (GAI) is assisting Trans-Allegheny Interstate Line Company (TrAILCo), a FirstEnergy Company (FE), with acquiring permits for the proposed Oak Mound - Waldo Run 138 kilovolt Transmission Line Project (Project). The Project is located in Doddridge and Harrison Counties, West Virginia and includes the proposed construction of approximately 18 miles of electric transmission line right-of-way. The new line will parallel an existing line to the south for 3.7 miles in Doddridge County. The Doddridge County portion of the line has 23 structures, all located in upland areas, with 10 access roads to these structures for construction purposes. No floodplains are impacted in Doddridge County by the structures or access roads.

We are requesting your review of the enclosed Doddridge County Floodplain Development Permit Application (Attachment 1) regarding the Doddridge County Floodplain Ordinance requiring a permit for the development and construction, substantial improvement, or relocation of any building or structure in a floodplain area. A listing of relevant property owners is shown in Attachment 2. The 100-year Federal Emergency Management Agency Floodplains have been overlaid along the Project, as shown on the Doddridge County Floodplains Map in Attachment 3. Stream locations are shown on the Parcels Crossed Map in Attachment 4. This map displays the limit of disturbance (LOD) for the Project; where stream impacts have been minimized by excluding them from the LOD.
