**RE: Flint Run Low Water Crossing Replacement and Bank Stabilization Floodplain Coordination**

Dear Mr. Wriston,

MarkWest Liberty Midstream & Resources, LLC intends to replace a current low water crossing with an articulated concrete block low water crossing structure and also perform natural stream restoration of eroded stream banks using a series of rock cross vanes on behalf of a landowner in the Grant District, Doddridge County, WV. The restoration will help rehabilitate approximately 350 linear feet of eroded stream banks of Flint Run off of WV State Route 3 (Big Flint Road).

The banks of Flint Run within the project area have been severely eroded due to the use of the existing low water crossing. Rock cross vanes will be used to naturally restore the stream banks.

The approximate coordinates to the center of the site are 39.319771° N, -80.640186° W on the USGS 7.5' Smithburg Quadrangle. Based on the FEMA issued Flood Map 54017C0135C with an effective date of October 4, 2011, the project area is not within an identified Flood Hazard Area.

Attachments to this letter include a vicinity map, floodplain permit application, and site designs.

Please contact me with any questions or concerns.

Thank you,

Ryan Ward
