Concurrence Form for Freshwater Mussel Survey Report

Contact Name: Sarah Veselka

Email Address or Fax Number: sarah@allstarecology.com

Project: McElroy Creek Homer Moore Crossing Removal Project – Phase 1 Mussel Survey Report, Doddridge County, West Virginia

This responds to your letter dated August 5, 2015 regarding the results of a mussel survey on McElroy Creek in conjunction with the above referenced project. These comments are provided pursuant to the Endangered Species Act (87 Stat. 884, as amended; 16 U.S.C. 1531 et seq.)

A mussel survey within the project area was conducted on July 20, 2015. A total of 0 individuals of 0 species were located. Although McElroy Creek is known to support the federally endangered snuffbox mussel (*Epioblasma triquetra*), no live freshwater mussels of this species were observed during the survey effort. Therefore, no federally listed endangered and threatened species are expected to be impacted by the project, and no biological assessment or further section 7 consultation under the Endangered Species Act is required with the U.S. Fish and Wildlife Service. Should project plans change, or if additional information on listed and proposed species becomes available, or new species are listed or critical habitat designated, this determination may be reconsidered. These survey results are considered valid for five years from the date of completion. If the project is not completed before that time, additional survey efforts may be required. Please note that if any federally listed species are found during any future survey or relocation efforts for native freshwater mussels, this determination will no longer be considered valid. You should immediately contact the Service and reinitiate consultation before to proceeding with any further project efforts.

If you have any questions regarding this letter, please contact Tiernan Lennon of my staff, at (304) 636-6586, or at the letterhead address.

Mr. Robinson,

Attached is the approval from US Fish and Wildlife giving us authorization to have the floodplain permit authorization be emailed to me? I will have one of the permits, but I need to send the electronic version to the Army corps for filing.

Thank you for your assistance!

Site Plan

A Site Plan is an accurate and detailed map of the proposed development for this project. It shows the size, shape, location and special features of the project property, and the size and location of any development planned to the property, especially as that development will impact the floodplain and/or floodway. Site plans show what currently exists on the project property, and any changes or improvements you are proposing to make. **Two complete sets of plans and specifications are required** when applying for a Floodplain Permit. The Floodplain Manager will retain one set, and one set will be dated and returned to the applicant when the permit is issued. **A certified and licensed engineering firm should complete site plans. (SEE ATTACHED PHOTOGRAPHS)**

A SITE PLAN MUST CONTAIN THE FOLLOWING INFORMATION:

1. Legal description of the parcel, north arrow and scale
2. All property lines and their dimensions
3. Names of adjacent roads, location of driveways
4. Location of sloughs, tributaries, streams, rivers, wetlands, ponds, and lakes, with setbacks indicated, and including FEMA floodplain data based on most updated FIRM.
5. Location, size, shape of all buildings, existing and proposed, with elevation of lowest floor indicated.
6. Location and dimensions of existing or proposed on-site sewage systems.
7. Location of all propane tanks, fuel tanks or other liquid storage tanks whether above ground or below ground level.
8. Location and dimensions of any proposed pipeline placement(s) into floodplain/floodway.
9. Location and dimensions of any roadway development into floodplain/floodway. *(Includes initial development access roads)*
10. Location and dimensions of any bridge and/or culvert development into floodplain/floodway.
11. Location and dimensions of any storage yard or facility into the floodplain/floodway.
12. Location of any existing utilities and/or proposed utility placement and/or displacement.
13. Location, dimensions and depth of any existing or proposed fill on site.
14. A survey showing the **existing ground elevations** of at least location on the building site. **ELEVATION NOTE:** All vertical datum will reference either NGVD 29 or NAVD 88. Assumed datum will not be acceptable unless the property is located in an area where vertical datum has not been published. For those areas where vertical datum has not been established, a site plan with contours, elevations using assumed datum, high water marks and existing water levels of sloughs, rivers, lakes or streams and proposed lowest floor elevations is required.

Doddridge County Commercial/Industrial
Floodplain Development Permit Application

Permit # _____

Applicant

Please initial beside each bullet point, print name, sign and date.

- I certify that I am authorized to submit this application for the primary project developer.
- I certify that the information included in this application is to the best of my knowledge true and complete.
- I certify that all required Federal, State, and local permits required by law and/or ordinance for the above described development of this project have been properly attained, are current and valid, and must be presented with this application before a Doddridge County Floodplain Permit may be issued.
- I understand that if in the course of the development project additional permits become required that were not needed during the initial proposal, the primary developer must notify the Doddridge County Floodplain Manager within 48 hours of such need, and that a "Stop Work" order may be issued for all project work directly impacting the floodplain or floodway, until such time the required additional permits are acquired.
- I understand that once the floodplain permit is submitted, the application will be entered into official public record at the next regularly scheduled Doddridge County Commission meeting after the date of submittal.
- I understand that from the date of submittal of the fully completed permit application, the Doddridge County Floodplain Manager has ninety (90) days to make a determination to either grant or deny said permit application. During this approval period, the Doddridge County Floodplain Manager may, at his or her discretion, conduct a review and/or additional study of provided documentation by means of an independent engineering firm. All costs associated with said review and/or study must be reimbursed to the County before issuance of approved permit.
- I understand that during the approval period, the Doddridge County Floodplain Manager or designee may at his or her discretion conduct site visits and document conditions of proposed development pursuant to the permit application.
- I understand that once the Floodplain Permit is granted, the permit will be entered into official public record at the next scheduled Doddridge County Commission meeting after the date of issuance. Appeals to the permit may be made no later than twenty (20) days after said issuance. If a valid appeal is submitted, as determined by the Doddridge County Floodplain Manager, a "Stop Work" order will be issued for all project development directly involving the floodplain or floodway. A public hearing by the Doddridge County Appeals Board will be scheduled no less than ten (10) days after the next regularly scheduled Doddridge County Commission meeting.
- I understand that all decisions of the Doddridge County Appeals Board shall be final.
- **I understand issuance of a Floodplain Permit authorizes me to proceed with construction as proposed. A Certificate of Compliance is required upon substantial completion of the project.**
- In signing this application, the primary developer hereby grants the Doddridge County Floodplain Manager or designee the right to enter onto the above-described location to inspect the development work proposed, in progress, and/or completed.
- I understand that if I do not follow exactly the site-plan submitted and approved by this permit that a "Stop Work" order may be issued by the Doddridge County Floodplain Manager and that I must stop all construction immediately until discrepancies of actual work vs. proposed work is resolved.

Mr. Wriston,

I just left you a message on your voicemail, to update you on the status of the low water crossing on WV23, south of Center Point.

First, I am a little concerned that I was alerted that action will be taken, and that we need to contact you about this, when we have never been contacted by anyone in Doddridge County regarding the newest communication.

We will be pulling the bridge out completely, but we are waiting on the approval from the floodplain permit we submitted to you last November, as well as approval from WVDNR. This particular stream has endangered mussels, and will need a mussel survey completed. If mussels are located, then they will need relocated. However, the timeframe to complete this process is May 1st thru October 1st. We are on hold until then. We have contact Janet Clayton from the WVDNR, who will not approve late or early disturbance.

To confirm with you, we have all plans in place, and will be completing them, as soon as we have permission from you and WVDNR.

Thanks,

Mr. Wriston,

Attached is the copy of the floodplain permit that I scanned from last fall. It will be going in the mail and heading your way with a new check. Please keep in mind when we submitted it before, our plan was to remove in December. We found out after the fact that the stream was a mussel stream, and we would not be able to complete until a survey was completed, so the start and completion dates have been delayed.

Thanks

Shane

Shane,

Good morning, I believe it is your company that was working on the damaged bridge off of Route 23 at McElroy Creek. I was approached by one of our commissioners to see what the status is on it. Any help would be great.

Thanks,

George

Shane,

Good morning, I believe it is your company that was working on the damaged bridge off of Route 23 at McElroy Creek. I was approached by one of our commissioners to see what the status is on it. Any help would be great.

Thanks,

George

George,

We plan on starting it in the next two weeks, as soon as we are done with our Tyler County Rig Move.

Thanks,

-Shane

Shane,

Was there a permit application on this project. If so do you remember what the number was or when it was done

Shane,

In looking at this we may have to do an extension on the permit for 90 days. If it goes past the 90 days it will have to be redone.

George

George,

We will have it done by the permit end date, we are ordered by the EPA to do so. I will let you know if anything changes regarding this project

Thanks,

-Shane
