Dear Sir or Ma'am,

You are receiving this letter because you have been identified as a land surface and/or mineral rights owner for property or adjacent property related to the proposed development project identified by the following page.

No action is required of you. This letter is simply to inform you of the proposed development.

If you would like to comment on this proposed project, or would like additional information, you may contact the Doddridge County Floodplain Manager at the above address.

Respectfully yours,

Doddridge County Floodplain Manager
304-873-2631 or 304-873-1343

FLOODPLAIN DEVELOPMENT PERMIT APPLICATION

SECTION 1: GENERAL PROVISIONS (APPLICANT TO READ AND SIGN)

1. No work may start until a permit is issued.
2. The permit may be revoked if any false statements are made herein.
3. If revoked, all work must cease until permit is re-issued.
4. Development shall not be used or occupied until a Certificate of Compliance is issued.
5. The permit will expire if no work is commenced within six months of issuance.
6. Applicant is hereby informed that other permits may be required to fulfill local, state, and federal requirements.
7. Applicant hereby gives consent to the Floodplain Administrator/Manager or his/her representative to make inspections to verify compliance.
8. **I THE APPLICANT CERTIFY THAT ALL STATEMENTS HEREIN AND IN ATTACHMENTS TO THIS APPLICATION ARE, TO THE BEST OF MY KNOWLEDGE, TRUE AND ACCURATE.**

APPLICANT'S SIGNATURE Vicki D. Hood

DATE 12/2/2015

SIGNATURE: Vicki D. Hood DATE: 12/2/15

After completing SECTION 2, APPLICANT should submit form and fees to Clerk of Doddridge County Court or his/her representative for review.

SECTION 3: FLOODPLAIN DETERMINATION (to be completed by Floodplain Administrator/Manager or his/her representative)

THE PROPOSED DEVELOPMENT:

THE PROPOSED DEVELOPMENT IS LOCATED ON:

FIRM Panel: _____

Dated: _____

Is **NOT** located in a Specific Flood Hazard Area (Notify applicant that the application review is complete and **NO FLOODPLAIN DEVELOPMENT PERMIT IS REQUIRED**).

Is located in Special Flood Hazard Area.

FIRM zone designation _____

100-Year flood elevation is _____ NGVD .

Stream name _____

Profile # _____

Unavailable

The proposed development is located in a floodway.

See section 4 for additional instructions.

SIGNED _____

DATE _____

SECTION 4: ADDITIONAL INFORMATION REQUIRED FOR DEVELOPMENT IN SPECIAL FLOOD HAZARD AREA (To be completed by Floodplain Administrator/Manager or his/her representative)

The applicant must submit the documents checked below before the application can be processed.

- A plan showing the location of all existing structures, water bodies, adjacent roads and proposed development.
- Development plans, drawn to scale, and specifications, including where applicable: details for anchoring structures, storage tanks, proposed elevation of lowest floor, (including basement or crawl space), types of water resistant materials used below the first floor, details of flood proofing of utilities located below the first floor and details of enclosures below the first floor. Also _____

- Subdivision or other development plans (If the subdivision or development exceeds 10 lots or 2 acres, whichever is the lesser, the applicant must provide 100-year flood elevations if they are not otherwise available).
- Plans showing the extent of watercourse relocation and/or landform alterations.
- Top of new fill elevation _____ Ft. NGVD.
For floodproofing structures applicant must attach certification from registered engineer or architect.
- Certification from a registered engineer that the proposed activity in a regulatory floodway will not result in any increase in the height of the 100-year flood. A copy of all data and calculations supporting this finding must also be submitted.
- Manufactured homes located in a Flood Hazard Area must have a West Virginia Contractor's License and a Manufactured Home Installation License as required by the Federal Emergency Management Agency (FEMA).
- Other: _____

SECTION 5: PERMIT DETERMINATION (To be completed by Floodplain Administrator/Manager or his/her representative)

I have determined that the proposed activity **(type is or is not)** in conformance with provisions of the Floodplain Ordinance adopted by the County Commission of Doddridge County on May 21, 2013. The permit is issued subject to the conditions attached to and made part of this permit.

SIGNED _____ DATE _____

If the Floodplain Administrator/Manager found that the above was not in conformance with the provisions of the Doddridge County Floodplain Ordinance and/or denied that application, the applicant may appeal.

APPEALS: Appealed to the County Commission of Doddridge County? Yes

No

Hearing

Date: _____

County Commission Decision - Approved Yes No

CONDITIONS: _____

SECTION 6: AS-BUILT ELEVATIONS (To be submitted by APPLICANT before Certificate of Compliance is issued).

The following information must be provided for project structures. This section must be completed by a registered professional engineer or a licensed land surveyor (or attach a certification to this application).

COMPLETE 1 OR 2 BELOW:

1. Actual (As-Built) Elevation of the top of the lowest floor (including basement or crawl space is _____ FT. NGVD.
2. Actual (As Built) elevation of floodproofing is _____ FT. NGVD.

Note: Any work performed prior to submittal of the above information is at risk of the applicant.

SECTION 7: COMPLIANCE ACTION (To be completed by the Floodplain Administrator/Manager or his/her representative).

The Floodplain Administrator/Manager or his/her representative will complete this section as applicable based on inspection of the project to ensure compliance with the Doddridge County Floodplain Ordinance.

INSPECTIONS:

SECTION 2: STRUCTURE OF WORK ADDENDUM

B. OTHER DEVELOPMENT ACTIVITIES

The scope of the project is removal of an outdated existing cable and replacing it with 3 – 1.5" HDPE conduits with a new cable placed in one conduit. The placement of 3 ducts allows for future maintenance with minimal ground disturbance. All conduit placed is on an existing utility private easement. Trench/Plow method will be used where applicable and directional bore method used for sensitive areas (i.e. wetlands, water crossings). Directional bore will be the preferred method for any water crossings as it typically does not disturb the water body due to the rig setting up beyond the environmental buffer zone and horizontally drilling many feet beneath the ground and the water body floor. The trench/plow method consists of pulling the old cable out of the ground, excavating the same trench, placing the conduits within the same trench and covering up the trench again. It is not anticipated that any water body will need to be disturbed via trench/plow method, thus no disturbance to the water flow or level. Terraces and trench plugs will be utilized as necessary for erosion control during trench/plow. Silt fence and wattles will be utilized during directional bore setup for catching any spoil from machine. A vac truck will be in the vicinity of the project for any hazard control.

Ms. Beram,

I've forwarded your pictures and concerns to Jamie Tallman of the Environmental Enforcement Office. He oversees Doddridge Co. pipeline construction and also deals in stormwater issues. From the looks of the pictures this is not directly related to an Oil and Gas well so my office would have no jurisdiction here. I've CC'd Jamie on this response as well if you need to contact him directly.

Good Morning,

By now you no doubt have seen the pictures and the complaint by one of our residents here in Doddridge County. This is on Rock Run Rd. I will be going out there today to find out exactly what is going on. We have no floodplain permits but it is not certain that this property is in the floodplain. This may be a case of just needing to bring equipment over a ditch to do some work, by the pictures it looks like they cleared the ditch area some to ensure nothing will get blocked.

Good Afternoon,

I went out to the location and confirmed it is in the floodplain, no workers were present to find out what company is working on the line. The work is being done on a right of way, you can see it in the picture. I will monitor this situation and check with the workers to find out who is in charge. I will keep you up on what I find out.

Mr. Mills,

The photos below were taken on Rock Run Rd. Doddridge County WV. There appears to be a timber bridge sort of over and in the creek. The bridge is NOT wrapped to prevent sedimentation from going into the creek.

The location is approximately 0.2 miles from where Rock Run & Smithton Rd. intersect. This is close to the Rock Run EQT water withdrawal site, It is also approximately 1/2 mile upstream from the West Union Water Treatment Plant.

Mr. Eidel,

It may also be in a FEMA recognized flood plain area. If so, do they have a flood plain permit? No signage appears to be present. I believe that they would also require a permit from the USACE for the bridge.

Can some one please check this out...If further clarification on the location is needed, please get in touch.

Thank you,
Mirijana Beram

Hi James,

Just received back to back calls from a Gary Boggs and a Glen Thompson from Michaels Communications. This is the company contracting out for the work on Rock Run. I was told that you had contacted them (how you found out who was doing the work, I would like to know) they in turn called my office. As far as we know here no floodplain permit has ever been submitted. They referred me to a Mike Burch of SDT Engineering who they said was the point of contact for all of the permits. I will be out of the office tomorrow, the Assistant Floodplain Manager will be her, she is aware of the situation and can answer any questions that may arise her name is Catee Slater, 304-873-2631 I will be able to get my emails through my phone and can send out if needed.

Thank You,

George
