Expires February 28, 2014

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this data collection is estimated to average 1.25 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting the form. This collection is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0015). **NOTE: Do not send your completed form to this address.**

This form must be completed for requests and must be completed and signed by a registered professional engineer or licensed land surveyor. **A DHS - FEMA National Flood Insurance Program (NFIP) Elevation Certificate may be submitted in lieu of this form for single structure requests.**

For requests to remove a structure on natural grade OR on engineered fill from the Special Flood Hazard Area (SFHA), submit the lowest adjacent grade (the lowest ground touching the structure), ***including an attached deck or garage***. For requests to remove an entire parcel of land from the SFHA, provide the lowest lot elevation; or, if the request involves an area described by metes and bounds, provide the lowest elevation within the metes and bounds description. All measurements are to be rounded to nearest tenth of a foot. In order to process your request, all information on this form must be completed ***in its entirety***. **Incomplete submissions will result in processing delays.**

1. NFIP Community Number: **540024** Property Name or Address: **218 Swisher Lane, West Union, WV 26456**

2. Are the elevations listed below based on ☐ ***existing*** or ☒ ***proposed*** conditions? (Check one)

3. For the existing or proposed structures listed below, what are the types of construction? (check all that apply)
   ☐ crawl space ☐ slab on grade ☐ basement/enclosure ☒ other (explain) **Fill pad to be constructed for equipment.**

4. Has DHS - FEMA identified this area as subject to land subsidence or uplift? (see instructions) ☐ Yes ☒ No
   If yes, what is the date of the current re-leveling? / (month/year)

5. What is the elevation datum? ☐ NGVD 29 ☒ NAVD 88 ☐ Other (explain)
   If any of the elevations listed below were computed using a datum different than the datum used for the effective Flood Insurance Rate Map (FIRM) (e.g., NGVD 29 or NAVD 88), what was the conversion factor?
   Local Elevation +/- ft. = FIRM Datum

6. Please provide the Latitude and Longitude of the most upstream edge of the ***structure*** (in decimal degrees to the nearest fifth decimal place):
   Indicate Datum: ☐ WGS84 ☒ NAD83 ☐ NAD27 Lat. 39.278000 Long. -80.684850 (Edge of Pad)
   Please provide the Latitude and Longitude of the most upstream edge of the ***property*** (in decimal degrees to the nearest fifth decimal place):
   Indicate Datum: ☐ WGS84 ☒ NAD83 ☐ NAD27 Lat. 39.278314 Long. , -80.685628

Federal Emergency Management Agency

Washington, D.C. 20472

February 20, 2019

THE HONORABLE GREGORY ROBINSON
PRESIDENT, COUNTY COMMISSION
DODDRIDGE COUNTY
105 COURT STREET, SUITE 1
WEST UNION, WV 26456

CASE NO.: 19-03-0400C
COMMUNITY: DODDRIDGE COUNTY, WEST VIRGINIA (UNINCORPORATED AREAS)
COMMUNITY NO.: 540024

DEAR MR. ROBINSON:

This is in reference to a request that the Federal Emergency Management Agency (FEMA) determine if the property described in the enclosed document is located within an identified Special Flood Hazard Area, the area that would be inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood), on the effective National Flood Insurance Program (NFIP) map. Using the information submitted and the effective NFIP map, our determination is shown on the attached Conditional Letter of Map Revision based on Fill (CLOMR-F) Comment Document. This comment document provides additional information regarding the effective NFIP map, the legal description of the property and our comments regarding this proposed project.

Additional documents are enclosed which provide information regarding the subject property and CLOMR-Fs. Please see the List of Enclosures below to determine which documents are enclosed. Other attachments specific to this request may be included as referenced in the Determination/Comment document. If you have any questions about this letter or any of the enclosures, please contact the FEMA Map Information eXchange (FMIX) toll free at (877) 336-2627 (877-FEMA MAP) or by letter addressed to the Federal Emergency Management Agency, Engineering Library, 3601 Eisenhower Ave Ste 500, Alexandria, VA 22304-6426.

Sincerely,

Luis V. Rodriguez, P.E., Director
Engineering and Modeling Division
Federal Insurance and Mitigation Administration

LIST OF ENCLOSURES:

CLOMR-F-DEN COMMENT DOCUMENT

Special Flood Hazard Area (SFHA) - The SFHA is an area that would be inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood).

ADDITIONAL CONSIDERATIONS (Please refer to the appropriate section on Attachment 1 for the additional considerations listed below.)

LEGAL PROPERTY DESCRIPTION
CONDITIONAL LOMR-F DETERMINATION

This document provides the Federal Emergency Management Agency's comment regarding a request for a Conditional Letter of Map Revision based on Fill for the property described above. Using the information submitted and the effective National Flood Insurance Program (NFIP) map, we have determined that the proposed described portion(s) of the property(ies) would be located in the SFHA, an area inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood) if built as proposed. Therefore, flood insurance is required for the property described above. If fill is placed on the subject property to raise its elevation above the base flood elevation after the effective date of the first NFIP map showing the property in the SFHA, then, for the subject property to be outside of the SFHA, it must be demonstrated that the subject property is reasonably safe from flooding in accordance with Part 65.5(a)(4) of our regulations. Further guidance on determining if the subject property is reasonably safe from flooding may be found in FEMA Technical Bulletin 10-01. A copy of this bulletin can be obtained by calling the FEMA Map Assistance Center toll free at (877) 336-2627 (877-FEMA MAP) or from our web site at http://www.fema.gov/mit/tb1001.pdf.

This comment document is based on the flood data presently available. The enclosed documents provide additional information regarding this request and information regarding your options for obtaining a Letter of Map Revision based on Fill. If you have any questions about this document, please contact the FEMA Map Information eXchange (FMIX) toll free at (877) 336-2627 (877-FEMA MAP) or by letter addressed to the Federal Emergency Management Agency, Engineering Library, 3601 Eisenhower Ave Ste 500, Alexandria, VA 22304-6426.

CONDITIONAL LETTER OF MAP REVISION BASED ON FILL COMMENT DOCUMENT

ATTACHMENT 1 (ADDITIONAL CONSIDERATIONS)

LEGAL PROPERTY DESCRIPTION (CONTINUED)

BEGINNING FOR REFERENCE at a capped rebar set on the southerly right of way line of U.S. Route 50, said rebar being on the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan, recorded in Instrument Number 291623 and property now or formerly D & M Powell, LLC, recorded in Deed Book Volume 304, Page 355; thence along a reference line, through property now or formerly The State of West Virginia, West Virginia Railroad Maintenance Authority, as recorded in Deed book Volume 216, Page 166, variable width and Lot E of the Revised Sherwood Plant Facilities Plan, South 74°02'04" East, 247.45' to a calculated point at the herein described 0.650 acre tract of land, being the TRUE PLACE OF BEGINNING; thence continuing through Lot E of the Revised Sherwood Plant Facilities Plan and along the revised line of Zone AE, 100 Year Floodplain, 0.650 acre tract of land, the following twelve (12) courses and distances, viz: South 67°59'24" East, 163.71' to a calculated point; thence South 57°32'46" East, 9.60' to a calculated point; thence South 67°49'43" East, 30.23' to a calculated point; thence South 23°57'11" West, 30.43' to a calculated point; thence South 13°13'16" West, 8.61' to a calculated point; thence South 24°41'16" West, 101 .65' to a calculated point; thence North 65°16'37" West, 114.15' to a calculated point; thence North 64°03'39" West, 40.25' to a calculated point; thence South 25°30'41" West, 14.18' to a calculated point; thence North 65°42'04" West, 43.92' to a calculated point; thence North 21°09'17" East, 25.10' to a calculated point; thence North 22°11'32" East, 121.42' to a calculated point at the TRUE PLACE OF BEGINNING.

CONDITIONAL LOMR-F DETERMINATION (This Additional Consideration applies to the preceding 1 Property.)

Comments regarding this conditional request are based on the flood data presently available. Our final determination will be made upon receipt of this Comment Document, certified as-built elevations and/or certified as-built survey. Since this request is for a Conditional Letter of Map Revision based on Fill, we will also require the applicable processing fee, and the "Community Acknowledgement" form. Please note that additional items may be required before a final as-built determination is issued.

This letter does not relieve Federal agencies of the need to comply with Executive Order 11988 on Floodplain Management in carrying out their responsibilities and providing Federally undertaken, financed, or assisted construction and improvements, or in their regulating or licensing activities.

This attachment provides additional information regarding this request. If you have any questions about this attachment, please contact the FEMA Map Information eXchange (FMIX) toll free at (877) 336-2627 (877-FEMA MAP) or by letter addressed to the Federal Emergency Management Agency, Engineering Library, 3601 Eisenhower Ave Ste 500, Alexandria, VA 22304-6426.

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this data collection is estimated to average 1.63 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting the form. This collection is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0015). **NOTE: Do not send your completed form to this address.**

This form may be completed by the property owner, property owner's agent, licensed land surveyor, or registered professional engineer to support a request for a Letter of Map Amendment (LOMA), Conditional Letter of Map Amendment (CLOMA), Letter of Map Revision Based on Fill (LOMR-F), or Conditional Letter of Map Revision Based on Fill (CLOMR-F) for existing or proposed, single or multiple lots/structures. In order to process your request, all information on this form must be completed ***in its entirety***, unless stated as optional. **Incomplete submissions will result in processing delays.** Please check the item below that describes your request:

☐ LOMA	A letter from DHS-FEMA stating that an existing structure or parcel of land that has not been elevated by fill (natural grade) would not be inundated by the base flood.
☐ CLOMA	A letter from DHS-FEMA stating that a proposed structure that is not to be elevated by fill (natural grade) would not be inundated by the base flood if built as proposed.
■ LOMR-F	A letter from DHS-FEMA stating that an **existing** structure or parcel of land that has been **elevated by fill** would not be inundated by the base flood.
☐ CLOMR-F	A letter from DHS-FEMA stating that a parcel of land or **proposed** structure that will be **elevated by fill** would not be inundated by the base flood if fill is placed on the parcel as proposed or the structure is built as proposed.

Fill is defined as material from any source (including the subject property) placed that raises the ground to or above the Base Flood Elevation (BFE). The common construction practice of removing unsuitable existing material (topsoil) and backfilling with select structural material is not considered the placement of fill if the practice does not alter the existing (natural grade) elevation, which is at or above the BFE. **Fill that is placed before the date of the first National Flood Insurance Program (NFIP) map showing the area in a Special Flood Hazard Area (SFHA) is considered natural grade.**

Has fill been placed on your property to raise ground that was previously below the BFE? ■ Yes ☐ No — If yes, when was fill placed? 03/15/2019 mm/dd/yyyy

Will fill be placed on your property to raise ground that is below the BFE? ☐ Yes* ☐ No — If yes, when will fill be placed? mm/dd/yyyy

* If yes, Endangered Species Act (ESA) compliance must be documented to FEMA prior to issuance of the CLOMR-F determination (please refer page 4 to the MT-1 Instructions).

1. Street Address of the Property (if request is for multiple structures or units, please attach additional sheet referencing each address and enter street names below):
   218 Swisher Lane, West Union, WV 26456

2. Legal description of Property (Lot, Block, Subdivision or abbreviated description from the Deed):
   All that certain 211.525 acres, being Lot E of the Revised Sherwood Plant Facilities Plan,situate in the Grant District, Doddridge County, WV, recorded in instrument #291623

3. Are you requesting that a flood zone determination be completed for (check one):
   - ☐ Structures on the property? What are the dates of construction? _____ (MM/YYYY)
   - ☒ A portion of land within the bounds of the property? (A certified metes and bounds description and map of the area to be removed, certified by a licensed land surveyor or registered professional engineer, are **required**. For the preferred format of metes and bounds descriptions, please refer to the MT-1 Form 1 Instructions.)
   - ☐ The entire legally recorded property?

4. Is this request for a (check one):
   - ☐ Single structure
   - ☒ Single lot
   - ☐ Multiple structures (How many structures are involved in your request? List the number: _____)
   - ☐ Multiple lots (How many lots are involved in your request? List the number: _____)

In addition to this form (MT-1 Form 1), please complete the checklist below. **ALL** requests must include one copy of the following:

- ☒ Copy of the effective FIRM panel on which the structure and/or property location has been accurately plotted (property inadvertently located in the NFIP regulatory floodway will require Section B of MT-1 Form 3)
- ☒ Copy of the Subdivision Plat Map for the property **(with recordation data and stamp of the Recorder's Office)**

OR

- ☐ Copy of the Property Deed **(with recordation data and stamp of the Recorder's Office)**, ***accompanied by*** a tax assessor's map or other certified map showing the surveyed location of the property relative to local streets and watercourses. The map should include at least one street intersection that is shown on the FIRM panel.
- ☒ Form 2 – Elevation Form. If the request is to remove the structure, and an Elevation Certificate has already been completed for this property, it may be submitted in lieu of Form 2. If the request is to remove the entire legally recorded property, or a portion thereof, the lowest lot elevation must be provided on Form 2.
- ☒ Please include a map scale and North arrow on all maps submitted.

For LOMR-Fs and CLOMR-Fs, the following must be submitted in addition to the items listed above:

- ☒ Form 3 – Community Acknowledgment Form

For CLOMR-Fs, the following must be submitted in addition to the items listed above:

- ☐ Documented ESA compliance, which may include a copy of an Incidental Take Permit, an Incidental Take Statement, a "not likely to adversely affect" determination from the National Marine Fisheries Service (NMFS) or the U.S. Fish and Wildlife Service (USFWS), or an official letter from NMFS or USFWS concurring that the project has "No Effect" on proposed or listed species or designated critical habitat. Please refer to the MT-1 instructions for additional information.

Please do *not* submit original documents. Please retain a copy of all submitted documents for your records.

DHS-FEMA encourages the submission of all required data in a digital format (e.g. scanned documents and images on Compact Disc [CD]). Digital submissions help to further DHS-FEMA's Digital Vision and also may facilitate the processing of your request.

Incomplete submissions will result in processing delays. For additional information regarding this form, including where to obtain the supporting documents listed above, please refer to the MT-1 Form Instructions located at http://www.fema.gov/plan/prevent/fhm/dl_mt-1.shtm.

Processing Fee (see instructions for appropriate mailing address; or visit http://www.fema.gov/fhm/frm_fees.shtm for the most current fee schedule)

Revised fee schedules are published periodically, but no more than once annually, as noted in the **Federal Register**. Please note: single/multiple lot(s)/structure(s) LOMAs are fee exempt. The current review and processing fees are listed below:

Check the fee that applies to your request:

- ☒ $325 (single lot/structure LOMR-F following a CLOMR-F)
- ☐ $425 (single lot/structure LOMR-F)
- ☐ $500 (single lot/structure CLOMA or CLOMR-F)
- ☐ $700 (multiple lot/structure LOMR-F following a CLOMR-F, or multiple lot/structure CLOMA)
- ☐ $800 (multiple lot/structure LOMR-F or CLOMR-F)

Please submit the Payment Information Form for remittance of applicable fees. Please make your check or money order payable to:
National Flood Insurance Program.

All documents submitted in support of this request are correct to the best of my knowledge. I understand that any false statement may be punishable by fine or imprisonment under Title 18 of the United States Code, Section 1001.

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this data collection is estimated to average 1.25 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting the form. This collection is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0015). **NOTE: Do not send your completed form to this address.**

This form must be completed for requests and must be completed and signed by a registered professional engineer or licensed land surveyor. **A DHS - FEMA National Flood Insurance Program (NFIP) Elevation Certificate may be submitted in lieu of this form for single structure requests.**

For requests to remove a structure on natural grade OR on engineered fill from the Special Flood Hazard Area (SFHA), submit the lowest adjacent grade (the lowest ground touching the structure), ***including an attached deck or garage***. For requests to remove an entire parcel of land from the SFHA, provide the lowest lot elevation; or, if the request involves an area described by metes and bounds, provide the lowest elevation within the metes and bounds description. All measurements are to be rounded to nearest tenth of a foot. In order to process your request, all information on this form must be completed ***in its entirety***. **Incomplete submissions will result in processing delays.**

1. NFIP Community Number: 540024 Property Name or Address: 218 Swisher Lane, West Union, WV
2. Are the elevations listed below based on ☒ ***existing*** or ☐ ***proposed*** conditions? (Check one)
3. For the existing or proposed structures listed below, what are the types of construction? (check all that apply)
   ☐ crawl space ☐ slab on grade ☐ basement/enclosure ☒ other (explain) Power Substation
4. Has DHS - FEMA identified this area as subject to land subsidence or uplift? (see instructions) ☐ Yes ☒ No
   If yes, what is the date of the current re-leveling? / (month/year)
5. What is the elevation datum? ☐ NGVD 29 ☒ NAVD 88 ☐ Other (explain)
   If any of the elevations listed below were computed using a datum different than the datum used for the effective Flood Insurance Rate Map (FIRM) (e.g., NGVD 29 or NAVD 88), what was the conversion factor?
   Local Elevation +/- ft. = FIRM Datum
6. Please provide the Latitude and Longitude of the most upstream edge of the ***structure*** (in decimal degrees to the nearest fifth decimal place):
   Indicate Datum: ☐ WGS84 ☒ NAD83 ☐ NAD27 Lat. 39.27888 Long. -80.68511
   Please provide the Latitude and Longitude of the most upstream edge of the ***property*** (in decimal degrees to the nearest fifth decimal place):
   Indicate Datum: ☐ WGS84 ☒ NAD83 ☐ NAD27 Lat. 39.27886 Long. -80.68241

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this data collection is estimated to average 1.38 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting the form. This collection is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0015). NOTE: Do not send your completed form to this address.

This form must be completed for requests involving the existing or proposed placement of fill (complete Section A) ***OR*** to provide acknowledgment of this request to remove a property from the SFHA which was previously located within the regulatory floodway (complete Section B).

This form must be completed and signed by the official responsible for floodplain management in the community. **The six digit NFIP community number and the subject property address must appear in the spaces provided below. Incomplete submissions will result in processing delays.** Please refer to the MT-1 instructions for additional information about this form.

Community Number: 540024 Property Name or Address: 218 Swisher Lane, West Union, WV 26456

A. REQUESTS INVOLVING THE PLACEMENT OF FILL

As the community official responsible for floodplain management, I hereby acknowledge that we have received and reviewed this Letter of Map Revision Based on Fill (LOMR-F) or Conditional LOMR-F request. Based upon the community's review, we find the completed or proposed project meets or is designed to meet all of the community floodplain management requirements, including the requirement that no fill be placed in the regulatory floodway, and that all necessary Federal, State, and local permits have been, or in the case of a Conditional LOMR-F, will be obtained. For Conditional LOMR-F requests, the applicant has or will document Endangered Species Act (ESA) compliance to FEMA prior to issuance of the Conditional LOMR-F determination. For LOMR-F requests, I acknowledge that compliance with Sections 9 and 10 of the ESA has been achieved independently of FEMA's process. Section 9 of the ESA prohibits anyone from "taking" or harming an endangered species. If an action might harm an endangered species, a permit is required from U.S. Fish and Wildlife Service or National Marine Fisheries Service under Section 10 of the ESA. For actions authorized, funded, or being carried out by Federal or State agencies, documentation from the agency showing its compliance with Section 7(a)(2) of the ESA will be submitted. In addition, we have determined that the land and any existing or proposed structures to be removed from the SFHA are or will be reasonably safe from flooding as defined in 44CFR 65.2(c), and that we have available upon request by DHS-FEMA, all analyses and documentation used to make this determination. For LOMR-F requests, we understand that this request is being forwarded to DHS-FEMA for a possible map revision.

B. PROPERTY LOCATED WITHIN THE REGULATORY FLOODWAY

As the community official responsible for floodplain management, I hereby acknowledge that we have received and reviewed this request for a LOMA. We understand that this request is being forwarded to DHS-FEMA to determine if this property has been inadvertently included in the regulatory floodway. We acknowledge that no fill on this property has been or will be placed within the designated regulatory floodway. We find that the completed or proposed project meets or is designed to meet all of the community floodplain management requirements.

QUITCLAIM DEED

KNOW ALL MEN BY THESE PRESENTS:

THAT, MARKWEST LIBERTY MIDSTREAM & RESOURCES, L.L.C., a Delaware limited liability company ("Grantor"), whose address is 1515 Arapahoe Street, Tower 1, Suite 1600, Denver, Colorado 80202, for valuable consideration paid, the receipt and sufficiency of which is hereby acknowledged, does hereby remise, release, and forever quitclaim unto **SHERWOOD MIDSTREAM HOLDINGS LLC**, a Delaware limited liability company ("Grantee"), whose address is 1515 Arapahoe Street, Tower 1, Suite 1600, Denver, Colorado 80202, the following described real property (the "Property") as further shown on Exhibit "A" and Exhibit "B" attached hereto and incorporated herein by reference, together with all of Grantor's right, title and interest in and to all rights, benefits, privileges, easements, tenements, hereditaments and appurtenances thereon or in any way appertaining thereto:

DESCRIPTION OF 211.525 ACRES

GRANT DISTRICT, COUNTY OF DODDRIDGE, STATE OF WEST VIRGINIA

All that certain 211.525 acres, being Lot E of the Revised Sherwood Plant Facilities Plan (to be recorded) located within the property of now or formerly MarkWest Liberty Midstream & Resources, L.L.C., recorded in Deed Book Volume 378, Page 516, located on Tax Parcel Sheet 19, Lot 32, situate in the Grant District, County of Doddridge, State of West Virginia, more particularly bounded and described as follows:

BEGINNING FOR REFERENCE at a point on an existing stone on a northerly corner of property now or formerly Howard J. Rivers, recorded in Deed Book Volume 249, Page 356, said stone also being at a south corner of Lot E of the Revised Sherwood Plant Facilities Plan (to be recorded), said Revised Sherwood Plant Facilities Plan being property now or formerly MarkWest Liberty Midstream & Resources, L.L.C., recorded in Deed Book Volume 378, Page 516; thence along the dividing line of property of now or formerly Howard J. Rivers and property herein described, the following four (4) courses and distances, viz: North 33°17'31" East, 264.13' to a capped rebar set; thence North 57°54'19" West, 102.11' to a capped rebar set; thence North 52°54'19" West, 145.20' to a capped rebar set; thence North 73°24'19" West, 225.37' to a capped rebar set at the southeast corner of property now or formerly Dennis H. Powell; thence along the dividing line of property of now or formerly Dennis H. Powell and property herein described, the following six (6) courses and distances, viz: North 15°49'45" East, 2304.02' to a capped rebar set; thence North 02°42'33" West, 647.27' to a capped rebar set; thence North 88°57'32" East, 57.52' to a capped rebar set; thence North 76°26'19" East, 311.96' to a capped rebar set; thence South 88°02'36" East, 122.42' to a capped rebar set; thence South 75°10'25" East, 131.40' to a capped steel pipe set at a north corner of Lot D of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot D of the Revised Sherwood Plant Facilities Plan and property herein described, the following three (3) courses and distances, viz: South 40°00'30" West, 289.34' to a capped steel pipe set; thence South 04°59'30" East, 53.74' to a capped steel pipe set; thence South 49°59'30" East, 112.00' to a capped steel pipe set at a northwest corner of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C of the Revised Sherwood Plant Facilities Plan and property herein described, the following three (3) courses and distances, viz: South 40°00'30" West, 551.11' to a capped steel pipe set; thence South 49°48'52" East, 232.76' to a capped steel pipe set; thence South 40°48'51" West, 519.56' to a capped steel pipe set at an

west corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B of the Revised Sherwood Plant Facilities Plan and property herein described, the following twelve (12) courses and distances, viz: South 39°47'23" West, 254.29' to a capped steel pipe set; thence South 49°38'56" East, 1356.83' to a capped steel pipe set; thence North 39°43'10" East, 502.99' to a capped steel pipe set; thence North 50°16'50" West, 302.85' to a capped steel pipe set; thence North 39°43'10" East, 894.00' to a capped steel pipe set; thence North 50°16'50" West, 218.55' to a capped steel pipe set; thence North 39°43'10" East, 457.75' to a capped steel pipe set;

thence North 49°51'12" West, 391.08' to a capped steel pipe set; thence South 40°56'23" West, 356.29' to a capped steel pipe set; thence South 46°50'52" East, 26.12' to a capped steel pipe set; thence South 39°43'10" West, 102.89' to a capped steel pipe set; thence South 50°16'50" East, 41.70' to a capped steel pipe set at a north corner of Lot A of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot A of the Revised Sherwood Plant Facilities Plan and property herein described, South 39°43'10" West, 452.34' to a capped steel pipe set at a northwest corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B of the Revised Sherwood Plant Facilities Plan and property herein described, South 40°42'41" West, 163.87' to a capped steel pipe set at a southeast corner of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C of the Revised Sherwood Plant Facilities Plan and property herein described, the following four (4) courses and distances, viz: North 49°56'03" West, 237.73' to a capped steel pipe set; thence North 40°00'30" East, 1014.01' to a capped steel pipe set; thence North 49°59'30" West, 298.16' to a capped steel pipe set; thence South 40°00'30" West, 112.00' to a capped steel pipe set at a east corner of Lot D of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot D of the Revised Sherwood Plant Facilities Plan and property herein described, North 49°59'30" West, 300.74' to a capped steel pipe set on the line of property now or formerly Dennis H. Powell; thence along the dividing line of property of now or formerly Dennis H. Powell and property herein described, the following three (3) courses and distances, viz: South 75°10'25" East, 51.30' to a capped rebar set; thence North 89°02'55" East, 192.57' to a capped rebar set; thence North 25°07'41" East, 537.92' to a capped rebar set on the southerly right of way line of The State of West Virginia, West Virginia Railroad Maintenance Authority, as recorded in Deed Book Volume 216, Page 166; thence along the southerly right of way line of The State of West Virginia, West Virginia Railroad Maintenance Authority the following six (6) courses and distances, viz: South 20°36'12" East, 77.00' to a capped rebar set; thence North 67°29'54" East, 34.97' to a capped rebar set; thence North 65°43'48" East, 111.00' to a capped rebar set; thence North 59°34'48" East, 111.00' to a capped rebar set; thence North 55°33'48" East, 40.27' to a capped rebar set; thence North 77°19'37" East, 743.13' to a capped rebar set at the northwest corner of property of now or formerly Michael E. Bonnell, as recorded in Deed Book Volume 140, Page 190; thence along the dividing line of property of now or formerly Michael E. Bonnell and property herein described, the following eleven (11) courses and distances, viz: South 14°30'56" East, 715.45' to a capped rebar set; thence South 34°26'09" East, 107.25' to a capped rebar set; thence South 24°26'09" East, 396.00' to a capped rebar set; thence South 16°26'09" East, 198.00' to a capped rebar set; thence South 05°33'51" West, 226.88' to a capped rebar set; thence South 06°56'09" East, 247.50' to a capped rebar set; thence South 11°33'51" West, 276.37' to a capped rebar set; thence South 05°03'51" West, 478.50' to a capped rebar set; thence South 04°26'09" East, 330.00' to a capped rebar set; thence South 03°33'51" West, 222.75' to a capped rebar set; thence South 09°26'09" East, 330.00' to a capped rebar set on the northerly line of property of now or formerly Mule Tracts, LLC; thence along the dividing line of property of now or formerly Mule Tracts, LLC and property herein described, the following twelve (12) courses and distances, viz: South 89°33'51" West, 148.50' to a capped rebar set; thence South 65°24'18" West, 141.35' to a capped rebar set; thence South 35°50'50" West, 189.75' to a capped rebar set; thence South 31°05'50" West, 165.00' to a capped rebar set; thence South 18°20'50" West, 181.50' to a capped rebar set; thence South 17°50'50" West, 148.50' to a capped rebar set; thence South 25°20'50" West, 148.50' to a capped rebar set; thence South 41°50'50" West, 107.25' to a capped rebar set; thence South 41°50'50" West, 152.63' to a capped rebar set; thence

South 33°50'50" West, 297.00' to a capped rebar set; thence South 55°50'50" West, 202.13' to a capped rebar set; thence South 21°39'10" East, 123.75' to a capped rebar set at a northeast corner of property of now or formerly Howard J. Rivers; thence along the dividing line of property of now or formerly Howard J. Rivers and property herein described, the following two (2) courses and distances, viz: South 49°50'50" West, 621.33' to a capped rebar set; thence North 45°57'17" West, 1837.63' to an existing stone at the **PLACE OF BEGINNING.**

Contains 9,214,015.33 Sq. Ft. or 211.525 Acres

DESCRIPTION OF ACCESS EASEMENT (Exhibit "B" attached)

GRANT DISTRICT, COUNTY OF DODDRIDGE, STATE OF WEST VIRGINIA

All that certain Access Easement within the Revised Sherwood Plant Facilities Plan (to be recorded), said Access Easement is located within the property of now or formerly MarkWest Liberty Midstream & Resources, L.L.C., recorded in Deed Book Volume 378, Page 516, located on Tax Parcel Sheet 19, Lot 32, situate in the Grant District, County of Doddridge, State of West Virginia, more particularly bounded and described as follows:

BEGINNING FOR REFERENCE at a capped rebar set on the southerly right of way line of U.S. Route 50, said rebar being on the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan (to be recorded) and property now or formerly Dennis H. Powell, recorded in Deed Book Volume 200, Page 532; thence along the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan and property now or formerly Dennis H. Powell, South 25°07'41" West, 357.07' to a point on the line of the Access Easement, being the **TRUE PLACE OF BEGINNING**; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following ten (10) courses and distances, viz: South 39°33'11" East, 454.78' to a point; thence by an arc of a circle deflecting to the left in a southeastwardly direction, having a radius of 975.00', an arc distance of 175.28' (chord bearing and distance, South 44°42'11" East, 175.04') to a point; thence South 49°51'12" East, 399.02' to a point; thence by an arc of a circle deflecting to the right in a southeastwardly direction, having a radius of 135.00', an arc distance of 154.93' (chord bearing and distance, South 16°58'35" East, 146.57') to a point; thence South 15°54'02" West, 613.15' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 425.00', an arc distance of 132.47' (chord bearing and distance, South 24°49'47" West, 131.93') to a point; thence South 33°45'32" West, 464.47' to a point; thence by an arc of a circle deflecting to the left in a southwestwardly direction, having a radius of 175.00', an arc distance of 71.95' (chord bearing and distance, South 21°58'51" West, 71.44') to a point; thence South 10°12'10" West, 112.18' to a point; thence North 79°47'50" West, 10.57' to a capped steel pipe set at a southeast corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 50°16'50" West, 45.32' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following two (2) courses and distances, viz: North 10°12'10" East, 71.37' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 145.00', an arc distance of 89.25' (chord bearing and distance, South 84°43'51" West, 87.85') to a point on an easterly line of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following two (2) courses and distances, viz: North 50°16'50" West, 160.24' to a point; thence North 39°43'10" East, 23.01' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following six (6) courses and distances, viz: South 56°32'29" East, 108.14' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 95.00', an arc distance of 145.18' (chord bearing and distance, North 77°32'16" East, 131.46') to a point; thence North 33°45'32" East, 411.69' to a

point; thence North 56°14'28" West, 36.00' to a point; thence by an arc of a circle deflecting to the left in a northwestwardly direction, having a radius of 125.00', an arc distance of 44.56' (chord bearing and distance, North 66°27'11" West, 44.32') to a point; thence North 76°39'54" West, 74.77' to a point on an easterly line of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 39°43'10" East, 55.81' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following eight (8) courses and distances, viz: South 76°39'54" East, 49.97' to a point; thence by an arc of a circle deflecting to the right in a southeastwardly direction, having a radius of 175.00', an arc distance of 62.38' (chord bearing and distance, South 66°27'11" East, 62.05') to a point; thence South 56°14'28" East, 36.00' to a point; thence North 33°45'32" East, 29.96' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 375.00', an arc distance of 116.88' (chord bearing and distance, North 24°49'47" East, 116.41') to a point; thence North 15°54'02" East, 613.15' to a point; thence by an arc of a circle deflecting to the left in a northwestwardly direction, having a radius of 85.00', an arc distance of 97.55' (chord bearing and distance, North 16°58'35" West, 92.28') to a point; thence North 49°51'12" West, 0.94' to a point to a capped steel pipe set at a northeast corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following four (4) courses and distances, viz: North 49°51'12" West, 391.08' to a PK nail set; thence South 40°56'23" West, 356.29' to a capped steel pipe set; thence South 46°50'52" East, 26.12' to a capped steel pipe set; thence South 39°43'10" West, 62.05' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following ten (10) courses and distances, viz: North 15°57'34" East, 67.04' to a point; thence by an arc of a circle deflecting to the right in a northeastwardly direction, having a radius of 525.00', an arc distance of 136.83' (chord bearing and distance, North 23°25'33" East, 136.44') to a point; thence South 40°09'15" West, 78.35' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 525.00', an arc distance of 85.75' (chord bearing and distance, South 44°50'00" West, 85.66') to a point; thence South 49°30'46" West, 98.45' to a point; thence by an arc of a circle deflecting to the left in a southwestwardly direction, having a radius of 475.00', an arc distance of 64.53' (chord bearing and distance, South 45°37'15" West, 64.48') to a point; thence South 41°43'44" West, 64.17' to a point; thence by an arc of a circle deflecting to the left in a southwestwardly direction, having a radius of 275.00', an arc distance of 105.18' (chord bearing and distance, South 30°46'17" West, 104.54') to a point; thence South 19°48'50" West, 7.83' to a point; thence South 50°16'50" East, 121.92' to a point on the northwesterly line of Lot A of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot A and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, South 39°43'10" West, 50.00' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following four (4) courses and distances, viz: North 50°16'50" West, 105.09' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 125.00', an arc distance of 51.39' (chord bearing and distance, South 39°32'34" West, 51.03') to a point; thence South 08°55'31" West, 162.59' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 225.00', an arc distance of 47.97' (chord bearing and distance, South 15°01'56" West, 47.87') to a point on the westerly line of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following two (2) courses and distances, viz: South 40°42'41" West, 65.59' to a capped steel pipe set; thence North 49°56'03" West, 37.25' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following three (3) courses and distances, viz: by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 175.00', an arc distance of 87.71' (chord bearing and distance, North 23°17'03" East, 86.80') to a point; thence North 08°55'31" East, 127.56' to a point; thence South 70°17'34" West, 217.42' to a point on the easterly line of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C and

Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 40°00'30" East, 99.15' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following eight (8) courses and distances, viz: North 70°17'34" East, 151.83' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 75.00', an arc distance of 66.08' (chord bearing and distance, North 45°03'12" East, 63.96') to a point; thence North 19°48'50" East, 43.28' to a point; thence by an arc of a circle deflecting to the right in a northeastwardly direction, having a radius of 325.00', an arc distance of 124.31' (chord bearing and distance, North 30°46'17" East, 123.55') to a point; thence North 41°43'44" East, 64.17' to a point; thence by an arc of a circle deflecting to the right in a northeastwardly direction, having a radius of 525.00', an arc distance of 71.32' (chord bearing and distance, North 45°37'15" East, 71.27') to a point; thence North 49°30'46" East, 31.78' to a point; thence North 49°59'30" West, 61.56' to a point on the easterly line of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 40°00'30" East, 50.00' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following nine (9) courses and distances, viz: South 49°59'30" East, 69.94' to a point; thence North 49°30'46" East, 15.97' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 475.00', an arc distance of 77.58' (chord bearing and distance, North 44°50'00" East, 77.50') to a point; thence North 40°09'15" East, 117.59' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 225.00', an arc distance of 313.01' (chord bearing and distance, North 00°18'02" East, 288.37') to a point; thence North 39°33'11" West, 229.45' to a point; thence South 25°07'41" West, 31.44' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 175.00', an arc distance of 195.23' (chord bearing and distance, South 57°05'18" West, 185.27') to a point; thence South 89°02'55" West, 63.87' to a point on the northeasterly line of Lot D of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot D and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 49°59'30" West, 76.27' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following four (4) courses and distances, viz: North 89°02'55" East, 121.47' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 125.00', an arc distance of 139.45' (chord bearing and distance, North 57°05'18" East, 132.33') to a point; thence North 25°07'41" East, 55.09' to a point; thence North 39°33'11" West, 55.31' to a point

on the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan and property now or formerly Dennis H. Powell; thence along the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan and property now or formerly Dennis H. Powell and along the Access Easement, North 25°07'41" East, 55.31' to a point at the **TRUE PLACE OF BEGINNING.**

Contains 253,923.67 Sq. Ft. or 5.829 Acres

Bearing basis is the West Virginia State Plane North Zone Grid, NAD 1983.

To have and to hold the above granted and bargained premises with the appurtenances thereunto belonging, unto the said **GRANTEE,** its successors and assigns forever.

PURSUANT to the requirement of W. Va. Code §11-22-6, the total consideration paid for this transaction is One Dollar and 00/100 ($1.00).

DESCRIPTION OF
0.393 ACRES TO BE REMOVED FROM
THE DHS-FEMA 100 YEAR FLOOD ZONE AE
GRANT DISTRICT, COUNTY OF DODDRIDGE,
STATE OF WEST VIRGINIA

All that certain 0.393 acre tract of land situate in the Grant District, County of Doddridge, State of West Virginia, being part of the 211.525 acre tract of land known as Lot E of the Revised Sherwood Plant Facilities Plan, recorded in Instrument Number 291623, said 0.393 acre tract of land is located within the property of now or formerly Sherwood Midstream Holdings, LLC, recorded in Deed Book Volume 380, Page 69, located on Tax Parcel Sheet 19, Lot 32, more particularly bounded and described as follows:

BEGINNING FOR REFERENCE at a capped rebar set on the southerly right of way line of U.S. Route 50, said rebar being on the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan, recorded in Instrument Number 291623 and property now or formerly D & M Powell, LLC, recorded in Deed Book Volume 304, Page 355;

thence along a reference line, through property now or formerly The State of West Virginia, West Virginia Railroad Maintenance Authority, as recorded in Deed Book Volume 216, Page 166, variable width and Lot E of the Revised Sherwood Plant Facilities Plan,
South 59°29'40" East, 293.72' to a corner of a fence at the herein described 0.393 acre tract of land, said point is the lowest elevation of the gravel pad (814.2'), being the **TRUE PLACE OF BEGINNING;**

thence continuing through Lot E of the Revised Sherwood Plant Facilities Plan and along the revised line of Zone AE, 100 Year Floodplain, 0.393 acre tract of land, said line being along a fence, the following eight (8) courses and distances, viz:

1. North 68°41'28" East, 67.77' to a point;
2. South 67°04'43" East, 101.78' to a point;
3. South 09°37'02" East, 45.25' to a point;
4. South 23°03'22" West, 66.87' to a point;
5. North 66°42'26" West, 144.09' to a point;
6. South 23°38'56" West, 15.39' to a point;
7. North 65°17'25" West, 30.70' to a point;
8. North 23°17'07" East, 71.25' to a point at the **TRUE PLACE OF BEGINNING.**

Bearings based on West Virginia State Plane North Grid, NAD 1983.

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this data collection is estimated to average 1.38 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting the form. This collection is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0015). NOTE: Do not send your completed form to this address.

This form must be completed for requests involving the existing or proposed placement of fill (complete Section A) ***OR*** to provide acknowledgment of this request to remove a property from the SFHA which was previously located within the regulatory floodway (complete Section B).

This form must be completed and signed by the official responsible for floodplain management in the community. **The six digit NFIP community number and the subject property address must appear in the spaces provided below. Incomplete submissions will result in processing delays.** Please refer to the MT-1 instructions for additional information about this form.

Community Number: 540024 Property Name or Address: 218 Swisher Lane, West Union, WV 26456

A. REQUESTS INVOLVING THE PLACEMENT OF FILL

As the community official responsible for floodplain management, I hereby acknowledge that we have received and reviewed this Letter of Map Revision Based on Fill (LOMR-F) or Conditional LOMR-F request. Based upon the community's review, we find the completed or proposed project meets or is designed to meet all of the community floodplain management requirements, including the requirement that no fill be placed in the regulatory floodway, and that all necessary Federal, State, and local permits have been, or in the case of a Conditional LOMR-F, will be obtained. For Conditional LOMR-F requests, the applicant has or will document Endangered Species Act (ESA) compliance to FEMA prior to issuance of the Conditional LOMR-F determination. For LOMR-F requests, I acknowledge that compliance with Sections 9 and 10 of the ESA has been achieved independently of FEMA's process. Section 9 of the ESA prohibits anyone from "taking" or harming an endangered species. If an action might harm an endangered species, a permit is required from U.S. Fish and Wildlife Service or National Marine Fisheries Service under Section 10 of the ESA. For actions authorized, funded, or being carried out by Federal or State agencies, documentation from the agency showing its compliance with Section 7(a)(2) of the ESA will be submitted. In addition, we have determined that the land and any existing or proposed structures to be removed from the SFHA are or will be reasonably safe from flooding as defined in 44CFR 65.2(c), and that we have available upon request by DHS-FEMA, all analyses and documentation used to make this determination. For LOMR-F requests, we understand that this request is being forwarded to DHS-FEMA for a possible map revision.

B. PROPERTY LOCATED WITHIN THE REGULATORY FLOODWAY

As the community official responsible for floodplain management, I hereby acknowledge that we have received and reviewed this request for a LOMA. We understand that this request is being forwarded to DHS-FEMA to determine if this property has been inadvertently included in the regulatory floodway. We acknowledge that no fill on this property has been or will be placed within the designated regulatory floodway. We find that the completed or proposed project meets or is designed to meet all of the community floodplain management requirements.

Mr. George Eidel
Doddridge County Floodplain Manager
105 Court Street, Suite #3
West Union, WV 26456

Dear Mr. Eidel:

DEC 17 18 1:51PM

Subject: Floodplain Development Permit and FEMA CLOMR-F Application
Commercial/Industrial Floodplain Development Permit
Buckeye Run Breaker Station, Doddridge County, West Virginia
CEC Project 185-068

On behalf of Monongahela Power Company, a FirstEnergy Company, Civil & Environmental Consultants, Inc. (CEC) is submitting a Commercial/Industrial Floodplain Development Permit and a FEMA Conditional Letter of Map Revision–Fill (CLOMR-F) Application associated with the Buckeye Run Breaker Station, located in Doddridge County, West Virginia.

Please find enclosed two (2) copies of the following information:

- Permit Application Fee in the amount of $25,000 (Construction costs approximately $18 million) to be submitted directly by Monongahela Power Company, a FirstEnergy Company, under separate cover;
- Hydraulic Study Report of Buckeye Creek;
- Doddridge County Floodplain Development Permit Application (Appendix–F in the above report);
- FEMA CLOMR-F – Application Fee: $600 to be submitted directly by Monongahela Power Company, a FirstEnergy Company, under separate cover to FEMA;
- FEMA – CLOMR-F – MT1 Application and Supporting Documents.

Should you have any questions or require additional information, do not hesitate to contact us at 412-429-2324.

Very truly yours,

CIVIL & ENVIRONMENTAL CONSULTANTS, INC.

George J. Haberman, P.E.
Senior Consultant

1.0 INTRODUCTION

1.1 BACKGROUND

Electrical Consultants, Inc. (ECI) has contracted Civil & Environmental Consultants, Inc. (CEC) to perform a flood study, on behalf of Monongahela Power Company (MonPower), a First Energy Company, as part of the construction of the proposed Buckeye Run Breaker Station and Transmission Line. MonPower is overseeing the construction of the breaker station, but MonPower will not own the station. The proposed breaker station site currently serves as a gravel parking area for an existing natural gas processing plant located approximately one-half-mile east of the intersection of U.S. Route 50 and County Route 20 along County Route 50/34 in Doddridge County, West Virginia. A site location map has been provided in Appendix A

1.2 PURPOSE

The purpose of this study is to provide a Hydraulic and Hydrologic (H&H) analysis of the existing 100-year floodplain of Buckeye Creek and the effect on the floodplain by the proposed breaker station grading, transmission line, and associated structures. The H&H analysis will be used to compare the existing and proposed 100-year floodplain water surface elevations (WSELs) of Buckeye Creek upstream and downstream of the proposed breaker station and utility poles associated with the transmission line. This comparison will show the theoretical impacts, if any, of the proposed breaker station along the study area of the tributary as it relates to the 100-year floodplain WSELs.

1.3 SCOPE OF SERVICES

CEC has performed this H&H analysis of the existing and proposed conditions along a portion of Buckeye Creek upstream and downstream of the proposed breaker station for the 100-year floodplain WSELs. The following scope of services was performed in order to achieve the above-stated purpose:

- Performance of hydraulic analyses utilizing the Hydrologic Engineering Center River Analysis System (HEC-RAS) program to perform a detailed backwater analysis of Buckeye Creek for the existing and proposed conditions during the 100-year, 24-hour storm event. The study included:
    - Development of an appropriate number of stream cross-sections for use in the HEC-RAS model;
    - Development of HEC-RAS proposed cross-sections utilizing the topographic base map previously prepared for the original study, updated to include the proposed grading and structures located within the study area.
    - Development of proposed floodplain 100-year water surface elevations

- Preparation of this hydraulic analysis report that summarizes our calculations and findings.

1.4 AUTHORIZATION

This study was performed as authorized by ECI on behalf of Mon Power.

1.5 STANDARD OF CARE

The services provided by CEC were conducted in a manner consistent with the level of care and skill ordinarily exercised by members of the civil engineering profession practicing contemporaneously under similar conditions in the locality of the project. No warranty, express or implied, is made.

1.6 NECESSARY PERMITS FROM GOVERNMENT AGENCIES

As a part of this floodplain permit submission, MonPower is required to obtain a WVDEP NPDES Permit prior to initiating construction. This permit approval will be forwarded to Doddridge County under separate cover upon receipt from the WVDEP.

2.0 HYDROLOGIC ANALYSIS

2.1 METHODOLOGY

The Federal Emergency Management Agency (FEMA) conducted a Flood Insurance Study (FIS) for Doddridge County, West Virginia, October 4, 2011. According to this study, Buckeye Creek discharges 5,150 cubic feet per second (cfs) at its upstream confluence with Long Run during the 100-year, 24-hour storm event. The FEMA FIS is included in Appendix B.

In order to maintain conditions similar to the FIS, the discharge of 5,150 cfs and the known water surface elevation of 811 were used during the hydraulic analysis, as described in Section 4. The FEMA Flood Insurance Rate Map is provided in Appendix B.

3.0 HYDRAULIC ANALYSIS

The U.S. Army Corps of Engineers HEC-RAS computer software was utilized to analyze the hydraulic capacity and project water surface elevations (wsels) along buckeye creek during the 100-year, 24-hour design storm evaluations. The Buckeye Creek study area boundary extended from approximately 2,460 feet downstream to approximately 1,045 feet upstream of the previously permitted bridge location. A map of the cross section locations utilized for the hydraulic analysis is located in Appendix D.

3.1 EXISTING CONDITIONS

A HEC-RAS model for the existing conditions was created using survey information collected by CEC, DEM data, and the FEMA FIS for Doddridge County, WV dated October 4, 2011.

An existing bridge at Station 26+25.35, between cross-sections R and S, was previously permitted to be removed and replaced by the new bridge for the neighboring natural gas processing plant. For conservative design purposes, the existing bridge is included in the existing conditions model; however it was removed on November 13, 2013.

Topography was collected for the stream and overbanks between stations 25+54.54 (Section T) and 0+00 (Section NN) during the survey conducted in 2014. This topography is more accurate and current than the existing DEM topography available for the area, so it was used to supplement the DEM topography in the existing flood study model. The HEC-RAS input and output data for the existing conditions model is provided in Appendix C. The map in Appendix D also shows the estimated lateral extent of the floodplain resulting from the 100-year, 24-hour design storm.

Included in Appendix E is the HEC-RAS summary table for the estimated water surface elevations in Buckeye Creek resulting from the 100-year, 24-hour design storm at each analyzed cross-section based on the existing conditions.

3.2 PROPOSED CONDITIONS

The HEC-RAS model for the proposed conditions was developed by revising the existing conditions Buckeye Creek cross-sections to include the current neighboring natural gas processing plant and the proposed breaker station grading, transmission line, and associated structures. The elevations of the substation grading and structures are shown on the map in Appendix D. The proposed improvements include equipment and proposed grading to elevate the breaker station, as well as utility poles for the proposed transmission line. The proposed grading change is located between cross-sections I (31+04.54) and O (28+04.54) and the proposed utility poles are shown on the map in Appendix D.

The HEC-RAS input and output data for the proposed conditions model have been provided in Appendix C. The HEC-RAS summary table for proposed conditions for each cross section is summarized in the hydraulic calculations in Appendix E. In addition, a summary table for the comparison of the 100-year existing and proposed water surface elevations is located at the end of Appendix E.

4.0 CONCLUSIONS

The following conclusions are presented based on the results of engineering analyses using the HEC-RAS model.

4.1 EXISTING CONDITIONS

The existing conditions, as previously described, were evaluated to estimate the WSEL near the proposed breaker station and associated structures. The water surface elevation at Station 26+03.43 (Section S), one cross section downstream of the existing bridge, is 811.11 feet, based on the HEC-RAS existing conditions model. Appendix E contains a summary table of the HEC-RAS results. Also provided are graphical results of the HEC-RAS analysis for the 100-year design storm at numerous sections along Buckeye Creek. Based on these analyses, the following conclusions were developed:

- The 100-year, 24-hour design storm will not overtop the existing bridge at Station 26+25.35; and
- The 100-year, 24-hour design storm will inundate approximately 53 acres, as shown in Drawing SP01 in Appendix D.

4.2 PROPOSED CONDITIONS

The proposed HEC-RAS model was setup to analyze the proposed breaker station, transmission line, and associated structures. The water surface elevation at Station 26+03.43 (Section S), two cross sections upstream of the neighboring natural gas processing plant bridge, is 813.43 feet. Appendix E contains a summary table of the HEC-RAS results for Buckeye Creek considering the proposed substation. Also provided are graphical results of the HEC-RAS analysis for the 100-

year design storm at numerous sections along Buckeye Creek. The section locations are shown in drawing SP01 in Appendix D.

The increase in WSEL between existing and proposed conditions at Station 28+54.58 (Section N) is 0.51 feet. Station 28+54.58 (Section N) is the location of the furthest downstream cross section to be impacted by the proposed breaker station grading. The largest increase in WSEL between existing and proposed conditions is at Station 32+04.54 (Section G) and is 0.83 feet. Station 32+04.54 (Section G) is the cross section immediately upstream of the proposed substation and shows that the backwater effects of the proposed structures and grading will not significantly impact the 100-year floodplain. Additionally, the increase in WSEL at the neighboring natural gas processing plant bridge will not overtop the bridge, as was shown in previous analyses.

Based on these analyses, the following conclusions were developed:

- The 100-year, 24-hour design storm will not overtop the constructed bridge at Station 24+60.04;
- The 100-year, 24-hour design storm will inundate approximately 34 acres as shown on Drawing SP01 in Appendix D.
- The 100-year, 24-hour design storm will increase the flood elevation 0.83 feet at Station 32+04.54 (Section G), one section upstream of the proposed breaker station and within the subject property.
- The water surface elevation increase at Station 35+04.54 (Section A), approximately 315 feet downstream from the subject property line, is 0.43 feet.

4.3 SUMMARY

The hydraulic analysis was prepared to provide a comparison between the post-development floodplain conditions along Buckeye Creek and the existing conditions. The proposed breaker station and associated structures will not increase the WSEL at the constructed bridge located approximately 200ft downstream of the proposed improvements. The WSEL at the cross section immediately upstream of the proposed substation will increase by 0.83 feet over the existing

conditions. The WSEL increase at Station 35+04.54 (Section A), approximately 315 feet downstream from the subject property line, is 0.43 feet. The proposed breaker station and associated structures should not adversely impact the flooding threat to life, property, or the environment of properties upstream of the subject property.

NOTICE TO
FLOOD INSURANCE STUDY USERS

Communities participating in the National Flood Insurance Program have established repositories of flood hazard data for floodplain management and flood insurance purposes. This Flood Insurance Study (FIS) report may not contain all data available within the Community Map Repository. Please contact the Community Map Repository for any additional data.

The Federal Emergency Management Agency (FEMA) may revise and republish part or all of this FIS report at any time. In addition, FEMA may revise part of this FIS report by the Letter of Map Revision process, which does not involve republication or redistribution of the FIS report. Therefore, users should consult with community officials and check the Community Map Repository to obtain the most current FIS report components.

FLOOD INSURANCE STUDY
DODDRIDGE COUNTY, WEST VIRGINIA
AND INCORPORATED AREAS

1.0 INTRODUCTION

1.1 Purpose of Study

This countywide format Flood Insurance Study investigates the existence and severity of flood hazards in the geographic area of Doddridge County, West Virginia, including the Town of West Union and the unincorporated areas of the county (hereinafter referred to collectively as Doddridge County); and aids in the administration of the National Flood Insurance Act of 1968 and the Flood Disaster Protection Act of 1973. This study has developed flood-risk data for various areas of the community that will be used to establish actuarial flood insurance rates and to assist the community in its efforts to promote sound floodplain management. Minimum floodplain management requirements for participation in the National Flood Insurance Program (NFIP) are set forth in the Code of Federal Regulations at 44 CFR, 60.3.

In some states or communities, floodplain management criteria or regulations may exist that are more restrictive or comprehensive than the minimum Federal requirements. In such cases, the more restrictive criteria take precedence and the State or other jurisdictional agency will be able to explain them.

1.2 Authority and Acknowledgments

The sources of authority for this Flood Insurance Study are the National Flood Insurance Act of 1968 and the Flood Disaster Protection Act of 1973.

The hydrologic and hydraulic analyses in this study were prepared by the U.S. Geological Survey (USGS) for the Federal Emergency Management Agency (FEMA) under Inter-Agency Agreement No. EMW-87-E- 2512. Within the Town of West Union, the work for this study was completed in May 1988; within the unincorporated areas of the county, the work for this study was completed in June 1988.

This digital conversion was prepared by the USACE, Huntington District, for FEMA, under Inter-Agency Agreement No. HSFE03-06-X-0023.

Base map information shown on the FIRM was provided by West Virginia Statewide Addressing and Mapping Board (SAMB). Imagery was captured at a scale of 1:24,000 in the Spring of 2003 for the purpose of producing natural color digital orthophotos at a two-foot pixel resolution.

The projection used in the preparation of this map is Universal Transverse Mercator (UTM) Zone 17, and the horizontal datum used is North American Datum of 1983 (NAD 83), GRS1980 spheroid. Corner coordinates shown on the FIRM are in latitude and longitude referenced to UTM, NAD 1983. Differences in the datum, spheroid, projection, or UTM zones used in the production of FIRMs for adjacent counties may

result in slight positional differences in map features at the county boundaries. These differences do not affect the accuracy of the information shown on the FIRM.

1.3 Coordination

On January 17, 1985, an initial Consultation and Coordination Officer's (CCO) meeting was held with representatives of FEMA, the county, and the USGS (the study contractor) to determine the streams to be studied by detailed methods. The Huntington District of the U. S. Army Corps of Engineers (USACE) and the Soil Conservation Service (SCS) were contacted for information pertinent to this study.

On April 18, 1990, a final CCO meeting was held with representatives of FEMA, the county, and the study contractor to review the results of the study. The final CCO meeting for the unincorporated areas of Doddridge County also served as the final CCO meeting for this countywide study, and was open to representatives from all communities within the county that were covered by this countywide study.

For this countywide FIS, the final CCO meeting was held on April 29, 2010, and attended by representatives of the Town of West Union and Doddridge County, West Virginia. All problems raised at that meeting have been addressed.

2.0 AREA STUDIED

2.1 Scope of Study

This FIS covers the geographic area of Doddridge County, West Virginia, including communities listed in Section 1.1.

Table 1, "Areas Studied by Detailed Methods" lists the streams studied by detailed methods.

Table 1 – Areas Studied by Detailed Methods

Stream	Limits of Detailed Study
Middle Island Creek	From the downstream county boundary to the confluence of Meathouse Fork and Buckeye Creek
Buckeye Creek	From the confluence with Middle Island Creek to a point approximately 240 feet upstream of the confluence of Long Run, and from the confluence of Greenbrier Creek to the confluence of Traugh Fork
Meathouse Fork	From the confluence with Middle Island Creek to County Highway 56, and from a point approximately 1,600 feet downstream of County Highway 25-13 to the confluence of Laurel Run and Big Isaac Creek
McElroy Creek	From the confluence of Flint Run to the confluence of Big Battle Run

Table 1 – Areas Studied by Detailed Methods - continued

Stream	Limits of Detailed Study
Wilhelm Run	From the confluence with Arnold Creek to a point approximately 1.2 miles upstream
Long Run	From the confluence with Buckeye Creek to a point approximately 2.4 miles upstream
Toms Fork	From the confluence with Meathouse Fork to the confluence of Little Toms Fork
Greenbrier Creek	From the confluence with Buckeye Creek to a point approximately 1.9 miles upstream
Big Isaac Creek	From the confluence with Meathouse Fork to the confluence of Little Isaac Creek
Laurel Run	From the confluence with Meathouse Fork to a point approximately 0.9 mile upstream of the confluence with Meathouse Fork

The areas studied by detailed methods were selected with priority given to all known flood hazard areas and areas of projected development and proposed construction through January 1990.

All or portions of the following streams were studied by approximate methods: Broad Run, Arnold Creek, Slaughter Run, Flint Run, Riggins Run, Robinson Fork, Big Battle Run, Skelton Run, Talkington Fork, Long Run, Bluestone Creek, Cove Creek, Indian Fork, Nutter Fork, Jockey Camp Run, Morgans Run, Buckeye Creek, Buffalo Calf Creek, Meathouse Fork, Little Toms Fork, Lick Run, Big Isaac Creek, Middle Fork, Dotson Run, Cabin Run, Leason Creek, Right Fork, Left Fork, Elk Lick Run, Pike Fork, Little Battle Run, Piggin Run, Brushy Fork, Rock Run, Wolfpen Run, Englands Run, Jockeycamp Run, Douglascamp Run, Traugh Fork, Bonnet Fork, the South Fork Hughes River, and Sycamore Fork. Approximate analyses were used to study those areas having a low development potential or minimal flood hazards. The scope and methods of study were proposed to, and agreed upon by, FEMA and Doddridge County.

No Letters of Map Revision (LOMRs) were incorporated for the October 4, 2011, revision.

2.2 Community Description

Doddridge County is located in northern West Virginia. It is bordered by the unincorporated areas of Wetzel and Tyler Counties to the north; the unincorporated areas of Ritchie County to the west; the unincorporated areas of Harrison County to the east; and the unincorporated areas of Gilmer and Lewis Counties to the south. The total land

area contained within the county is approximately 321.6 square miles. In 2000, the population of the county was 7,491 (Reference 1).

The county seat is located in the Town of West Union. The total land area of the town is approximately 0.32 square miles, and the population was 806 in 2000 (Reference 1).

The climate of Doddridge County is temperate with a seasonal variation in temperature. The county is located in a region termed humid continental: humid because of the evenly spaced precipitation, and continental because of the yearly range in temperature. Mean annual precipitation of the county is approximately 45 inches. The average monthly temperatures in degrees Fahrenheit range from the mid-30's in winter to the low 70's in summer (Reference 2).

2.3 Principal Flood Problems

The principal flood problems of Doddridge County are the overflows of Middle Island Creek, Buckeye Creek, and Meathouse Fork. The history of flooding in the county indicates that flooding can occur at any time of the year. Large frontal storms or decaying tropical storms produce the worst flooding on the larger streams, while high intensity thunderstorms produce severe flooding on smaller drainage areas. Major floods have occurred in the county in 1875, 1950, 1963, and 1985.

The mountainous topography of the county is conducive to rapid rises on streams and also to fast runoff best described as flash flooding. This condition has been aggravated by human activities such as timbering in the county.

2.4 Flood Protection Measures

No major structural flood protection measures exist or are planned for the county.

3.0 ENGINEERING METHODS

For the flooding sources studied by detailed methods in the community, standard hydrologic and hydraulic study methods were used to determine the flood hazard data required for this study. Flood events of a magnitude that are expected to be equaled or exceeded once on the average during any 10-, 2-, 1-, or 500-year period (recurrence interval) have been selected as having special significance for floodplain management and for flood insurance rates. These events, commonly termed the 10-, 2-, 1-, and 500-year floods, have a 10-, 2-, 1-, and 0.2-percent-annual-chance, respectively, of being equaled or exceeded during any year. Although the recurrence interval represents the long-term, average period between floods of a specific magnitude, rare floods could occur at short intervals or even within the same year. The risk of experiencing a rare flood increases when periods greater than 1 year are considered. For example, the risk of having a flood that equals or exceeds the 1-percent-annual-chance (100-year) flood in any 50-year period is approximately 40 percent (4 in 10); for any 90-year period, the risk increases to approximately 60 percent (6 in 10). The analyses reported herein reflect flooding potentials based on conditions existing in the community at the time of completion of this study. Maps and flood elevations will be amended periodically to reflect future changes.

3.1 Hydrologic Analyses

Hydrologic analyses were carried out to establish the peak discharge-frequency relationships for each flooding source studied in detail affecting the county.

Discharge-frequency curves were developed on a regional basis that applies to West Virginia (References 3 and 4). For the streams studied by detailed methods, 1-percent-annual-chance flood elevations were determined through discharge-frequency relations and the Manning equation. Within the Town of West Union, flood elevations were determined through streamflow-station data relationships and the Manning's equation.

Peak discharge-drainage area relationships for each stream studied by detailed methods are presented in Table 2, "Summary of Discharges".

Table 2 – Summary of Discharges

FLOODING SOURCE AND LOCATION	DRAINAGE AREA (SQ. MILES)	PEAK DISCHARGE (CFS) 1-PERCENT-ANNUAL- CHANCE
MIDDLE ISLAND CREEK		
Upstream of Doddridge-Tyler County boundary	134.78	15,200
Approximately 0.1 mile downstream of confluence of Piggin Run	120.06	13,080
BUCKEYE CREEK		
At confluence with Middle Island Creek	38.62	7,350
Downstream of confluence of Long Run	22.62	5,150
Upstream of confluence of Greenbrier Creek	9.41	3,050
Downstream of confluence of Traugh Fork	1.52	1,310
MEATHOUSE FORK		
At confluence with Middle Island Creek	66.84	9,600
Downstream of confluence of Toms Fork	50.47	8,200
Downstream of confluence of Brushy Fork	29.87	6,050
Downstream of confluence of Laurel Run and Big Isaac Creek	3.76	2,230
MCELROY CREEK		
Upstream of confluence of Flint Run	61.95	9,250
Upstream of confluence of Rigging Run	51.23	8,300
Downstream of confluence of Talkington Fork	39.18	7,100
Downstream of confluence of Robinson Fork and Big Battle Run	20.75	4,900

Table 2 – Summary of Discharges

FLOODING SOURCE AND LOCATION	DRAINAGE AREA (SQ. MILES)	PEAK DISCHARGE (CFS) 1-PERCENT-ANNUAL- CHANCE
WILHELM RUN		
At confluence with Arnold Creek	3.29	2,070
Approximately 1.2 miles upstream of confluence with Arnold Creek	2.07	1,570
LONG RUN		
At confluence with Buckeye Creek	4.44	2,460
Approximately 2.4 miles upstream of confluence with Buckeye Creek	1.85	1,470
TOMS FORK		
At confluence with Meathouse Fork	15.27	4,100
Downstream of confluence of Little Toms Fork	12.58	3,650
GREENBRIER CREEK		
At confluence with Buckeye Creek	2.80	1,880
Approximately 1.9 miles upstream of confluence with Buckeye Creek	1.09	1,080
BIG ISAAC CREEK		
At confluence with Meathouse Fork	1.79	1,450
LAUREL RUN		
At confluence with Meathouse Fork	1.97	1,530
Upstream of confluence of Big Isaac Creek	1.57	1,340

3.2 Hydraulic Analyses

Analyses of the hydraulic characteristics of flooding from the sources studied were carried out to provide estimates of the elevations of floods of the selected recurrence intervals.

Locations of selected cross sections used in the hydraulic analyses are shown on the Flood Profiles (Exhibit 1) and the FIRM (Exhibit 2) where applicable.

Water-surface elevations of floods of the selected recurrence intervals were computed

using the USACE HEC-2 step-backwater computer program, and the results were published in a special flood hazard information report (References 5 and 6). Flood profiles were drawn showing computed water-surface elevations for floods of the selected recurrence intervals.

Channel roughness factors (Manning's "n") used in the hydraulic computations were assigned on the basis of field surveys of the stream and floodplain areas. For Middle Island Creek, channel "n" values range from 0.040 to 0.045 and overbank "n" values range from 0.050 to 0.070. For Buckeye Creek and Meathouse Fork, channel "n" values range from 0.055 to 0.080.

The hydraulic analyses for this study were based on unobstructed flow. The flood elevations shown on the profiles are thus considered valid only if hydraulic structures remain unobstructed, operate properly, and do not fail.

Qualifying benchmarks within a given jurisdiction that are catalogued by the National Geodetic Survey (NGS) and entered into the National Spatial Reference System (NSRS) as First or Second Order Vertical and have a vertical stability classification of A, B or C are shown and labeled on the FIRM with their 6-character NSRS Permanent Identifier.

Benchmarks catalogued by the NGS and entered into the NSRS vary widely in vertical stability classification. NSRS vertical stability classifications are as follows:

- Stability A: Monuments of the most reliable nature, expected to hold position/elevation (e.g. mounted in bedrock)
- Stability B: Monuments which generally hold their position/elevation (e.g. concrete bridge abutment)
- Stability C: Monuments which may be affected by surface ground movements (e.g. concrete monument below frost line)
- Stability D: Mark of questionable or unknown vertical stability (e.g. concrete monument above frost line, or steel witness post)

In addition to NSRS benchmarks, the FIRM may also show vertical control monuments established by a local jurisdiction; these monuments will be shown on the FIRM with the appropriate designations. Local monuments will only be placed on the FIRM if the community has requested that they be included, and if the monuments meet the aforementioned NSRS inclusion criteria.

To obtain current elevation, description, and/or location information for benchmarks shown on the FIRM for this jurisdiction, please contact the Information Services Branch of the NGS at (301) 713-3242, or visit their Web site at www.ngs.noaa.gov.

It is important to note that temporary vertical monuments are often established during the preparation of a flood hazard analysis for the purpose of establishing local vertical control. Although these monuments are not shown on the FIRM, they may be found in the Technical Support Data Notebook associated with the FIS report and FIRM for this community. Interested individuals may contact FEMA to access these data.

3.3 Vertical Datum

All elevations used in the original Doddridge county FIS reports were referenced to the National Geodetic Vertical Datum of 1929 (NGVD29), formerly referred to as Sea Level Datum of 1929. All flood elevations shown in this FIS report and on the FIRM are referenced to North American Vertical Datum of 1988 (NAVD88). Structure and ground elevations in the community must, therefore, be referenced to NAVD88. Elevation factors used to convert the NGVD29 elevation data of the previous Braxton county FIS reports to NAVD88 are summarized below. Elevation reference marks used in this study are shown on the maps.

The data points used to determine the conversion are listed in Table 3, "Vertical Datum Conversion Values".

Table 3 – Vertical Datum Conversion Values

USGS 7.5-Minute Quadrangle Name	Corner	Latitude (Decimal Degrees)	Longitude (Decimal Degrees)	Conversion from NGVD29 to NAVD88 (foot)
Shirley	SE	39.375	80.750	-0.522
Center Point	SE	39.375	80.625	-0.515
Folsom	SE	39.375	80.500	-0.525
Pennsboro	SE	39.250	80.875	-0.554
West Union	SE	39.250	80.750	-0.515
Smithburg	SE	39.250	80.625	-0.502
Oxford	SE	39.125	80.750	-0.531
New Milton	SE	39.125	80.625	-0.522
			AVERAGE	**-0.500 foot**

All flood elevations shown in this FIS report and on the FIRM are referenced to NAVD88. A conversion factor of -.500 feet was applied to the NGVD29 elevations in Doddridge County to convert to NAVD88. Structure and ground elevations in the county must, therefore, be referenced to NAVD88. It is important to note that adjacent communities and counties may be referenced to NGVD29. This may result in differences in Base Flood Elevations (BFEs) across the community and county boundaries.

For more information on NAVD88, see the FEMA publication entitled "Converting the National Flood Insurance Program to the North American Vertical Datum of 1988" (FEMA, June 1992), or contact the National Geodetic Survey Information Services, NOAA, N/NGS12, National Geodetic Survey, SSMC-3, #9202, 1315 East-West Highway, Silver Spring, MD 20910-3282 (Internet address http://www.ngs.noaa.gov).

4.0 FLOODPLAIN MANAGEMENT APPLICATIONS

The NFIP encourages State and local governments to adopt sound floodplain management programs. Therefore, each FIS provides 1-percent-annual-chance (100-year) flood elevations and

delineations of the 1- and 0.2-percent-annual-chance (500-year) floodplain boundaries and 1-percent-annual-chance floodway to assist communities in developing floodplain management measures. This information is presented on the FIRM and in many components of the FIS report, including Flood Profiles and Floodway Data Table. Users should reference the data presented in the FIS report as well as additional information that may be available at the local map repository before making flood elevation and/or floodplain boundary determinations.

4.1 Floodplain Boundaries

To provide a national standard without regional discrimination, the 1-percent-annual-chance flood has been adopted by FEMA as the base flood for floodplain management purposes. For the streams studied in detail, the 1-percent-annual-chance floodplain boundaries have been delineated using the flood elevations determined at each cross section. Between cross sections, the boundaries were interpolated using topographic maps at a scale of 1:24,000 with a contour interval of 20 feet (Reference 7).

For the streams studied by approximate methods, the boundaries of the 1-percent-annual-chance floodplain were delineated using the Flood Hazard Boundary Map (FHBM) for the Town of West Union and the FIS for the Unincorporated Areas of Doddridge County (References 8 and 9).

The 1-percent-annual-chance floodplain boundaries are shown on the FIRM (Exhibit 2). On this map, the 1-percent-annual-chance floodplain boundary corresponds to the boundary of the areas of special flood hazards (Zones A and AE). Small areas within the floodplain boundaries may lie above the flood elevations but cannot be shown due to limitations of the map scale and/or lack of detailed topographic data.

4.2 Floodways

Encroachment on floodplains, such as structures and fill, reduces flood-carrying capacity, increases flood heights and velocities, and increases flood hazards in areas beyond the encroachment itself. One aspect of floodplain management involves balancing the economic gain from floodplain development against the resulting increase in flood hazard. For purposes of the NFIP, a floodway is used as a tool to assist local communities in this aspect of floodplain management. Under this concept, the area of the 1-percent-annual-chance floodplain is divided into a floodway and a floodway fringe. The floodway is the channel of a stream, plus any adjacent floodplain areas, that must be kept free of encroachment so that the 1-percent-annual-chance flood can be carried without substantial increases in flood heights. Minimum federal standards limit such increases to 1.0 foot, provided that hazardous velocities are not produced.

The area between the floodway and 1-percent-annual-chance floodplain boundaries is termed the floodway fringe. The floodway fringe encompasses the portion of the floodplain that could be completely obstructed without increasing the water-surface elevation of the 1-percent-annual-chance flood by more than 1.0 foot at any point. Typical relationships between the floodway and the floodway fringe and their significance to floodplain development are shown in Figure 1, "Floodway Schematic".

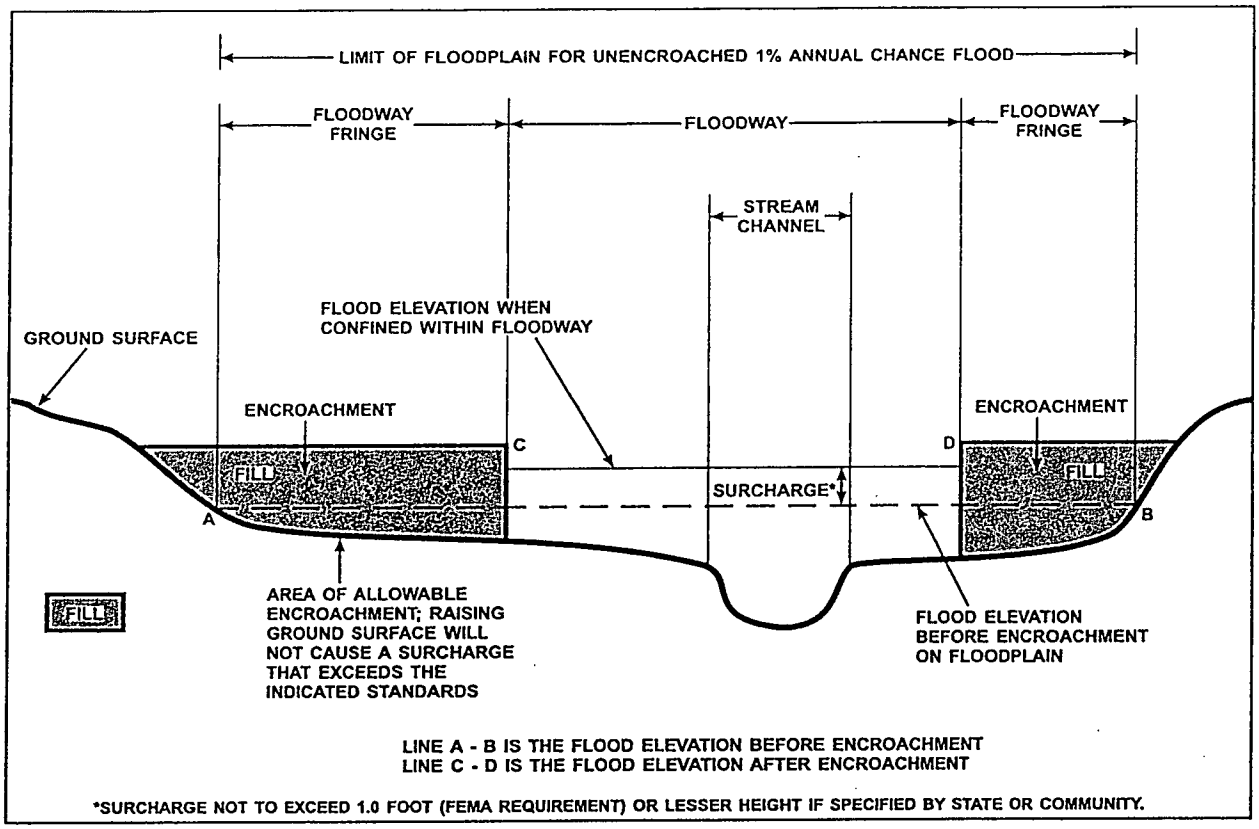

Figure 1 - Floodway Schematic

No floodways were calculated as part of this study.

5.0 INSURANCE APPLICATIONS

For flood insurance rating purposes, flood insurance zone designations are assigned to a community based on the results of the engineering analyses. These zones are as follows:

Zone A

Zone A is the flood insurance risk zone that corresponds to the 1-percent-annual-chance floodplains that are determined in the FIS by approximate methods. Because detailed hydraulic analyses are not performed for such areas, no (1-percent-annual-chance) BFEs or base flood depths are shown within this zone.

Zone AE

Zone AE is the flood insurance risk zone that corresponds to the 1-percent-annual-chance floodplains that are determined in the FIS by detailed methods. In most instances, whole-foot BFEs derived from the detailed hydraulic analyses are shown at selected intervals within this zone.

Zone AH

Zone AH is the flood insurance risk zone that corresponds to the areas of 1-percent-annual-chance shallow flooding (usually areas of ponding) where average depths are between 1 and 3 feet. Whole-foot BFEs derived from the detailed hydraulic analyses are shown at selected intervals within this zone.

Zone AO

Zone AO is the flood insurance risk zone that corresponds to the areas of 1-percent-annual-chance shallow flooding (usually sheet flow on sloping terrain) where average depths are between 1 and 3 feet. Average whole-foot base flood depths derived from the detailed hydraulic analyses are shown within this zone.

Zone AR

Zone AR is the flood insurance risk zone that corresponds to an area of special flood hazard formerly protected from the 1-percent-annual-chance flood event by a flood-control system that was subsequently decertified. Zone AR indicates that the former flood-control system is being restored to provide protection from the 1-percent-annual-chance or greater flood event.

Zone A99

Zone A99 is the flood insurance risk zone that corresponds to areas of the 1-percent-annual-chance floodplain that will be protected by a Federal flood protection system where construction has reached specified statutory milestones. No BFEs or depths are shown within this zone.

Zone V

Zone V is the flood insurance risk zone that corresponds to the 1-percent-annual-chance coastal floodplains that have additional hazards associated with storm waves. Because approximate hydraulic analyses are performed for such areas, no BFEs are shown within this zone.

Zone VE

Zone VE is the flood insurance risk zone that corresponds to the 1-percent-annual-chance coastal floodplains that have additional hazards associated with storm waves. Whole-foot BFEs derived from the detailed hydraulic analyses are shown at selected intervals within this zone.

Zone X

Zone X is the flood insurance risk zone that corresponds to areas outside the 0.2-percent-annual-chance floodplain, areas within the 0.2-percent-annual-chance floodplain, areas of 1-percent-annual-chance flooding where average depths are less than 1-foot, areas of 1-percent-annual-chance flooding where the contributing drainage area is less than 1 square mile, and areas protected from the 1-percent-annual-chance flood by levees. No BFEs or base flood depths are shown within this zone.

Zone X (Future Base Flood)

Zone X (Future Base Flood) is the flood insurance risk zone that corresponds to the 1-percent-annual-chance floodplains that are determined based on future-conditions hydrology. No BFEs or base flood depths are shown within this zone.

Zone D

Zone D is the flood insurance risk zone that corresponds to unstudied areas where flood hazards are undetermined, but possible.

6.0 FLOOD INSURANCE RATE MAP

The FIRM is designed for flood insurance and floodplain management applications.

For flood insurance applications, the map designates flood insurance rate zones as described in Section 5.0 and, in the 1-percent-annual-chance floodplains that were studied by detailed methods, shows selected whole-foot base flood elevations or average depths. Insurance agents use the zones and base flood elevations in conjunction with information on structures and their contents to assign premium rates for flood insurance policies.

For floodplain management applications, the map shows by tints, screens, and symbols, the 1- and 0.2-percent-annual-chance floodplain. The locations of selected cross sections used in the hydraulic analyses are shown where applicable.

The current FIRM presents flooding information for the entire geographic area of Doddridge County. Previously, separate FHBMs and/or FIRMs were prepared for each incorporated community with identified flood hazard areas and the unincorporated areas of the County. Historical map dates relating to pre-countywide maps prepared for each community are presented in Table 4, "Community Map History".

COMMUNITY NAME	INITIAL NFIP MAP DATE	FLOOD HAZARD BOUNDARY MAP REVISIONS DATE	INITIAL FIRM DATE	FIRM REVISIONS DATE
West Union, Town of	March 29, 1974	NONE	March 18, 1991	
Doddridge County (Unincorporated Areas)	November 8, 1974	June 3, 1977	March 18, 1991

COMMUNITY MAP HISTORY

7.0 OTHER STUDIES

Flood Insurance Studies have been prepared for the unincorporated areas of Tyler, Ritchie and Harrison Counties, and for Lewis County and Incorporated Areas (References 10, 11, 12 and 13). The results of this study are in exact agreement with the results of those studies.

A FIS is currently being prepared for Gilmer County and Incorporated Areas (Reference 14). The results of that study will be in exact agreement with the results of this study.

Because it is based on more up-to-date analyses, this study supersedes the Flood Hazard Boundary Map for the Town of West Union and the FIS for the Unincorporated Areas of Doddridge County (References 8 and 9).

8.0 LOCATION OF DATA

Information concerning the pertinent data used in preparation of this study can be obtained by contacting Federal Insurance and Mitigation Division, FEMA Region III, One Independence Mall, Sixth Floor, 615 Chestnut Street, Philadelphia, PA 19106-4404.

Water surface calculation tolerance	= 0.01
Critical depth calculation tolerance	= 0.01
Maximum number of iterations	= 20
Maximum difference tolerance	= 0.3
Flow tolerance factor	= 0.001

Computation Options
Critical depth computed only where necessary
Conveyance Calculation Method: At breaks in n values only
Friction Slope Method: Average Conveyance
Computational Flow Regime: Subcritical Flow

****

****

Warning: The velocity head has changed by more than 0.5 ft (0.15 m). This may indicate the need for additional cross sections.
Warning: The conveyance ratio (upstream conveyance divided by downstream conveyance) is less than 0.7 or greater than 1.4.
This may indicate the need for additional cross sections.

Note:    The downstream water surface is above the minimum elevation required for
orifice flow.  The orifice flow equation was
         used for pressure flow.
Note:    Multiple critical depths were found at this location.  The critical depth
with the lowest, valid, water surface was used.
Note:    For the cross section inside the bridge at the upstream end, the water
surface and energy have been projected from
         the upstream cross section.  The selected bridge modeling method does not
compute answers inside the bridge.
Note:    Multiple critical depths were found at this location.  The critical depth
with the lowest, valid, water surface was used.
Note:    For the cross section inside the bridge at the downstream end, the water
surface and energy have been projected from
         the downstream cross section.  The selected bridge modeling method does not
compute answers inside the bridge.

****

Warning: Divided flow computed for this cross-section.
Warning: The velocity head has changed by more than 0.5 ft (0.15 m). This may indicate the need for additional cross sections.
Warning: The conveyance ratio (upstream conveyance divided by downstream conveyance) is less than 0.7 or greater than 1.4.
This may indicate the need for additional cross sections.
Note: Multiple critical depths were found at this location. The critical depth with the lowest, valid, energy was used.

PROPOSED

PROJECT DATA
Project Title: 110-811_Sherwood FB HH
Project File : 110-811_SherwoFBHH.prj
Run Date and Time: 12/10/2018 11:20:16 AM

Project in English units

Project Description:
Electrical Consultants, Inc.
CEC #185-068
3521 Gabel Road
Billings, MT 59102
(On Behalf of Mon Power)

Existing - March 2014
Proposed - November 2018

Buckeye Run
Breaker Station - Flood Study
Construction in a Floodway Study for Approval of final grading.

FEMA Zones A, AE, and X from the Doddridge County West Virginia FIS Study shown on FEMA FIRM Panel # 54017C0080 B, effective October 4, 2011.

CEC Engineering Team:
Principal: Rick Celender, C.E.T., CPESC, CPSWQ
Project Manager: Andy Celender

Hydraulic Modelers: Pat Hessenius
Reviewers: Andy Celender, George Haberman, P.E.

Model Creation:
Existing (Pre-project): CEC Created Model File, "110-811_Sherwood FB HH," Plan File, "110-811_Existing 01-23-2014."
Proposed (Post-project): CEC Created Model File, "110-811_Sherwood FB HH," Plan File, "110-811_Proposed 11-12-2018."
Geometry file created in HEC-RAS.
Steady flow file created from Doddridge County FIS, October 4, 2011.

Data Sources:
Geometry -
Surface created from West Virginia Statewide Addressing and Mapping Board DEM blended with field topo survey of the bridge, existing access road from County Route 50/34, various locations along the reach, existing topography provided by ECI, and proposed grading provided by ECI.
Flow - Total Buckeye Creek 100-year
flow = 5,150 CFS.
Downstream Boundary - Known Water Surface Elevation = 811.
Approximate stream distance of 3,504 feet on profile.

PLAN DATA

Plan Title: 185-068_Proposed_11-12-2018-No_Poles
Plan File : p:\2018\185-068\-Calculations\Flood Study\110-811_SherwoFBHH.p01

Geometry Title: 110-811_Proposed 11-12-2018-No-Poles
Geometry File : p:\2018\185-068\-Calculations\Flood Study\110-811_SherwoFBHH.g06

Flow Title : 110-811_100Year
Flow File : p:\2018\185-068\-Calculations\Flood Study\110-811_SherwoFBHH.f01

Plan Summary Information:

Number of:	Cross Sections	= 41	Multiple Openings	=	0
	Culverts	= 0	Inline Structures	=	0
	Bridges	= 1	Lateral Structures	=	0

Computational Information

Water surface calculation tolerance	= 0.01
Critical depth calculation tolerance	= 0.01
Maximum number of iterations	= 20
Maximum difference tolerance	= 0.3

Flow tolerance factor = 0.001

Computation Options
Critical depth computed only where necessary
Conveyance Calculation Method: At breaks in n values only
Friction Slope Method: Average Conveyance
Computational Flow Regime: Subcritical Flow

FLOW DATA

Flow Title: 110-811_100Year
Flow File : p:\2018\185-068\-Calculations\Flood Study\110-811_SherwoFBHH.f01

Upstream Embankment side slope              =       0 horiz. to 1.0 vertical
Downstream Embankment side slope            =       0 horiz. to 1.0 vertical
Maximum allowable submergence for weir flow =     .98
Elevation at which weir flow begins         =
Energy head used in spillway design         =
Spillway height used in design              =
Weir crest shape                            = Broad Crested

Number of Bridge Coefficient Sets =  1

Low Flow Methods and Data
       Energy
Selected Low Flow Methods = Highest Energy Answer

High Flow Method
       Pressure and Weir flow
           Submerged Inlet Cd          =
           Submerged Inlet + Outlet Cd =      .8
           Max Low Cord                =

Additional Bridge Parameters
       Add Friction component to Momentum
       Do not add Weight component to Momentum
       Class B flow critical depth computations use critical depth
           inside the bridge at the upstream end
       Criteria to check for pressure flow = Upstream energy grade line

ERRORS WARNINGS AND NOTES
Errors Warnings and Notes for Plan : Prop_2018_No_Poles

River: Buckeye Creek Reach: Buckeye Creek RS: 3404.54 Profile: 100-Year
  Warning:Divided flow computed for this cross-section.
River: Buckeye Creek Reach: Buckeye Creek RS: 3104.54 Profile: 100-Year
  Warning:Divided flow computed for this cross-section.
River: Buckeye Creek Reach: Buckeye Creek RS: 2804.54 Profile: 100-Year
  Warning:Divided flow computed for this cross-section.
River: Buckeye Creek Reach: Buckeye Creek RS: 2754.54 Profile: 100-Year
  Warning:Divided flow computed for this cross-section.

River: Buckeye Creek Reach: Buckeye Creek RS: 2554.54 Profile: 100-Year
Warning:The velocity head has changed by more than 0.5 ft (0.15 m). This may indicate the need for additional cross sections.
Warning:The conveyance ratio (upstream conveyance divided by downstream conveyance) is less than 0.7 or greater than 1.4.
This may indicate the need for additional cross sections.
River: Buckeye Creek Reach: Buckeye Creek RS: 2460.04 Profile: 100-Year
Note: The downstream water surface is above the minimum elevation required for orifice flow. The orifice flow equation was
used for pressure flow.
River: Buckeye Creek Reach: Buckeye Creek RS: 2460.04 Profile: 100-Year Upstream
Note: For the cross section inside the bridge at the upstream end, the water surface and energy have been projected from
the upstream cross section. The selected bridge modeling method does not compute answers inside the bridge.
River: Buckeye Creek Reach: Buckeye Creek RS: 2460.04 Profile: 100-Year Downstream
Note: Multiple critical depths were found at this location. The critical depth with the lowest, valid, water surface was
used.
Note: For the cross section inside the bridge at the downstream end, the water surface and energy have been projected from
the downstream cross section. The selected bridge modeling method does not compute answers inside the bridge.
River: Buckeye Creek Reach: Buckeye Creek RS: 2417.85 Profile: 100-Year
Warning:Divided flow computed for this cross-section.
Warning:The velocity head has changed by more than 0.5 ft (0.15 m). This may indicate the need for additional cross sections.
Warning:The conveyance ratio (upstream conveyance divided by downstream conveyance) is less than 0.7 or greater than 1.4.
This may indicate the need for additional cross sections.
Note: Multiple critical depths were found at this location. The critical depth with the lowest, valid, water surface was
used.
River: Buckeye Creek Reach: Buckeye Creek RS: 1804 Profile: 100-Year
Warning:The conveyance ratio (upstream conveyance divided by downstream conveyance) is less than 0.7 or greater than 1.4.
This may indicate the need for additional cross sections.
Note: Multiple critical depths were found at this location. The critical depth with the lowest, valid, energy was used.
River: Buckeye Creek Reach: Buckeye Creek RS: 109.26 Profile: 100-Year
Warning:The conveyance ratio (upstream conveyance divided by downstream conveyance) is less than 0.7 or greater than 1.4.
This may indicate the need for additional cross sections.

APPENDIX F

DODDRIDGE COUNTY FLOODPLAIN PERMITS

Permit# 18-537

Project Name: _____

Permittees Name: _____

DEC 17 18 1:52PM

Doddridge County, WV

Floodplain Development Permit Application

This document is to be used for projects that impact/potentially impact the FEMA---designated floodplain and/or floodway of Doddridge County, WV pursuant to the rules and regulations established by all applicable Federal, State and local laws and ordinances, including the Doddridge County Floodplain Ordinance.

SECTION 1: GENERAL PROVISIONS (APPLICANT TO READ AND SIGN)

1. No work may start until a permit is issued.
2. The permit may be revoked if any false statements are made herein.
3. If revoked, all work must cease until permit is re-issued.
4. The permit will expire if no work is commenced within six months of issuance.
5. Applicant is hereby informed that other permits may be required to fulfill local, state, and federal requirements.
6. Applicant hereby gives consent to the Floodplain Administrator/Manager or his/her representative to make inspections to verify compliance.
7. I THE APPLICANT CERTIFY THAT ALL STATEMENTS HEREIN AND IN ATTACHMENTS TO THIS APPLICATION ARE, TO THE BEST OF MY KNOWLEDGE, TRUE AND ACCURATE.

APPLICANT'S SIGNATURE _____

Project Narrative:

Describe in detail the proposed development including project name/title, type of development, estimated start and completion timeline, and its potential impact on the floodplain. Use additional copies of this page as needed.

Project Narrative:

Electrical Consultants, Inc. (ECI) has contracted Civil & Environmental Consultants, Inc. (CEC) to perform a flood study, on behalf of Monongahela Power Company (MonPower), a FirstEnergy Company, as part of the construction of the proposed Buckeye Run Breaker Station and associated transmission line. MonPower is overseeing the construction of the breaker station, but MonPower will not own the station. The proposed breaker station site currently serves as a gravel parking area for an existing natural gas processing plant located approximately one-half-mile east of the intersection of U.S. Route 50 and County Route 20 along County Route 50/34 in Doddridge County, West Virginia.

The work proposes placing fill and equipment in the floodplain in order to construct the proposed breaker station. Construction is anticipated to begin 2/25/19 and be completed by 12/1/19. The proposed improvements are not anticipated to have a major impact on the floodplain.

Proposed Development:

Please check all elements of the proposed project that apply.

DESCRIPTION OF WORK (CHECK ALL APPLICABLE BOXES)

A. STRUCTURAL DEVELOPMENT

	ACTIVITY		STRUCTURAL TYPE
[X]	New Structure	[]	Residential (1 – 4 Family)
[]	Addition	[]	Residential (more than 4 Family)
[]	Alteration	[X]	Non-residential (floodproofing)
[]	Relocation	[]	Combined Use (res. & com.)
[]	Demolition	[]	Replacement
[]	Manufactured/Mobil Home		

B. OTHER DEVELOPLMENT ACTIVITIES:

[X] Fill [] Mining [] Drilling [] Pipelining
[] Grading
[] Excavation (except for STRUCTURAL DEVELOPMENT checked above)
[] Watercourse Alteration (including dredging and channel modification)
[] Drainage Improvements (including culvert work)
[] Road, Street, or Bridge Construction
[] Subdivision (including new expansion)
[] Individual Water or Sewer System
[] Other (please specify)

Doddridge County Commercial/Industrial
Floodplain Development Permit Application

Development Site/Property Information:

Please provide physical description of the site/property, along with pertinent ownership (surface and mineral rights) data as applicable. Attach appropriate maps from the WV Flood Tool showing location of proposed development. Use additional copies of this page if development spans multiple property boundaries. Designate each property by number (i.e. Property 1 of 1, Property 2 of 7, etc.)

Property Designation: 1 of 1

QUITCLAIM DEED

KNOW ALL MEN BY THESE PRESENTS:

THAT, MARKWEST LIBERTY MIDSTREAM & RESOURCES, L.L.C., a Delaware limited liability company ("Grantor"), whose address is 1515 Arapahoe Street, Tower 1, Suite 1600, Denver, Colorado 80202, for valuable consideration paid, the receipt and sufficiency of which is hereby acknowledged, does hereby remise, release, and forever quitclaim unto **SHERWOOD MIDSTREAM HOLDINGS LLC**, a Delaware limited liability company ("Grantee"), whose address is 1515 Arapahoe Street, Tower 1, Suite 1600, Denver, Colorado 80202, the following described real property (the "Property") as further shown on Exhibit "A" and Exhibit "B" attached hereto and incorporated herein by reference, together with all of Grantor's right, title and interest in and to all rights, benefits, privileges, easements, tenements, hereditaments and appurtenances thereon or in any way appertaining thereto:

DESCRIPTION OF 211.525 ACRES

GRANT DISTRICT, COUNTY OF DODDRIDGE, STATE OF WEST VIRGINIA

All that certain 211.525 acres, being Lot E of the Revised Sherwood Plant Facilities Plan (to be recorded) located within the property of now or formerly MarkWest Liberty Midstream & Resources, L.L.C., recorded in Deed Book Volume 378, Page 516, located on Tax Parcel Sheet 19, Lot 32, situate in the Grant District, County of Doddridge, State of West Virginia, more particularly bounded and described as follows:

BEGINNING FOR REFERENCE at a point on an existing stone on a northerly corner of property now or formerly Howard J. Rivers, recorded in Deed Book Volume 249, Page 356, said stone also being at a south corner of Lot E of the Revised Sherwood Plant Facilities Plan (to be recorded), said Revised Sherwood Plant Facilities Plan being property now or formerly MarkWest Liberty Midstream & Resources, L.L.C., recorded in Deed Book Volume 378, Page 516; thence along the dividing line of property of now or formerly Howard J. Rivers and property herein described, the following four (4) courses and distances, viz: North 33°17'31" East, 264.13' to a capped rebar set; thence North 57°54'19" West, 102.11' to a capped rebar set; thence North 52°54'19" West, 145.20' to a capped rebar set; thence North 73°24'19" West, 225.37' to a capped rebar set at the southeast corner of property now or formerly Dennis H. Powell; thence along the dividing line of property of now or formerly Dennis H. Powell and property herein described, the following six (6) courses and distances, viz: North 15°49'45" East, 2304.02' to a capped rebar set; thence North 02°42'33" West, 647.27' to a capped rebar set; thence North 88°57'32" East, 57.52' to a capped rebar set; thence North 76°26'19" East, 311.96' to a capped rebar set; thence South 88°02'36" East, 122.42' to a capped rebar set; thence South 75°10'25" East, 131.40' to a capped steel pipe set at a north corner of Lot D of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot D of the Revised Sherwood Plant Facilities Plan and property herein described, the following three (3) courses and distances, viz: South 40°00'30" West, 289.34' to a capped steel pipe set; thence South 04°59'30" East, 53.74' to a capped steel pipe set; thence South 49°59'30" East, 112.00' to a capped steel pipe set at a northwest corner of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C of the Revised Sherwood Plant Facilities Plan and property herein described, the following three (3) courses and distances, viz: South 40°00'30" West, 551.11' to a capped steel pipe set; thence South 49°48'52" East, 232.76' to a capped steel pipe set; thence South 40°48'51" West, 519.56' to a capped steel pipe set at an

west corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B of the Revised Sherwood Plant Facilities Plan and property herein described, the following twelve (12) courses and distances, viz: South 39°47'23" West, 254.29' to a capped steel pipe set; thence South 49°38'56" East, 1356.83' to a capped steel pipe set; thence North 39°43'10" East, 502.99' to a capped steel pipe set; thence North 50°16'50" West, 302.85' to a capped steel pipe set; thence North 39°43'10" East, 894.00' to a capped steel pipe set; thence North 50°16'50" West, 218.55' to a capped steel pipe set; thence North 39°43'10" East, 457.75' to a capped steel pipe set;

thence North 49°51'12" West, 391.08' to a capped steel pipe set; thence South 40°56'23" West, 356.29' to a capped steel pipe set; thence South 46°50'52" East, 26.12' to a capped steel pipe set; thence South 39°43'10" West, 102.89' to a capped steel pipe set; thence South 50°16'50" East, 41.70' to a capped steel pipe set at a north corner of Lot A of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot A of the Revised Sherwood Plant Facilities Plan and property herein described, South 39°43'10" West, 452.34' to a capped steel pipe set at a northwest corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B of the Revised Sherwood Plant Facilities Plan and property herein described, South 40°42'41" West, 163.87' to a capped steel pipe set at a southeast corner of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C of the Revised Sherwood Plant Facilities Plan and property herein described, the following four (4) courses and distances, viz: North 49°56'03" West, 237.73' to a capped steel pipe set; thence North 40°00'30" East, 1014.01' to a capped steel pipe set; thence North 49°59'30" West, 298.16' to a capped steel pipe set; thence South 40°00'30" West, 112.00' to a capped steel pipe set at a east corner of Lot D of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot D of the Revised Sherwood Plant Facilities Plan and property herein described, North 49°59'30" West, 300.74' to a capped steel pipe set on the line of property now or formerly Dennis H. Powell; thence along the dividing line of property of now or formerly Dennis H. Powell and property herein described, the following three (3) courses and distances, viz: South 75°10'25" East, 51.30' to a capped rebar set; thence North 89°02'55" East, 192.57' to a capped rebar set; thence North 25°07'41" East, 537.92' to a capped rebar set on the southerly right of way line of The State of West Virginia, West Virginia Railroad Maintenance Authority, as recorded in Deed Book Volume 216, Page 166; thence along the southerly right of way line of The State of West Virginia, West Virginia Railroad Maintenance Authority the following six (6) courses and distances, viz: South 20°36'12" East, 77.00' to a capped rebar set; thence North 67°29'54" East, 34.97' to a capped rebar set; thence North 65°43'48" East, 111.00' to a capped rebar set; thence North 59°34'48" East, 111.00' to a capped rebar set; thence North 55°33'48" East, 40.27' to a capped rebar set; thence North 77°19'37" East, 743.13' to a capped rebar set at the northwest corner of property of now or formerly Michael E. Bonnell, as recorded in Deed Book Volume 140, Page 190; thence along the dividing line of property of now or formerly Michael E. Bonnell and property herein described, the following eleven (11) courses and distances, viz: South 14°30'56" East, 715.45' to a capped rebar set; thence South 34°26'09" East, 107.25' to a capped rebar set; thence South 24°26'09" East, 396.00' to a capped rebar set; thence South 16°26'09" East, 198.00' to a capped rebar set; thence South 05°33'51" West, 226.88' to a capped rebar set; thence South 06°56'09" East, 247.50' to a capped rebar set; thence South 11°33'51" West, 276.37' to a capped rebar set; thence South 05°03'51" West, 478.50' to a capped rebar set; thence South 04°26'09" East, 330.00' to a capped rebar set; thence South 03°33'51" West, 222.75' to a capped rebar set; thence South 09°26'09" East, 330.00' to a capped rebar set on the northerly line of property of now or formerly Mule Tracts, LLC; thence along the dividing line of property of now or formerly Mule Tracts, LLC and property herein described, the following twelve (12) courses and distances, viz: South 89°33'51" West, 148.50' to a capped rebar set; thence South 65°24'18" West, 141.35' to a capped rebar set; thence South 35°50'50" West, 189.75' to a capped rebar set; thence South 31°05'50" West, 165.00' to a capped rebar set; thence South 18°20'50" West, 181.50' to a capped rebar set; thence South 17°50'50" West, 148.50' to a capped rebar set; thence South 25°20'50" West, 148.50' to a capped rebar set; thence South 41°50'50" West, 107.25' to a capped rebar set; thence South 41°50'50" West, 152.63' to a capped rebar set; thence

South 33°50'50" West, 297.00' to a capped rebar set; thence South 55°50'50" West, 202.13' to a capped rebar set; thence South 21°39'10" East, 123.75' to a capped rebar set at a northeast corner of property of now or formerly Howard J. Rivers; thence along the dividing line of property of now or formerly Howard J. Rivers and property herein described, the following two (2) courses and distances, viz: South 49°50'50" West, 621.33' to a capped rebar set; thence North 45°57'17" West, 1837.63' to an existing stone at the **PLACE OF BEGINNING.**

Contains 9,214,015.33 Sq. Ft. or 211.525 Acres

DESCRIPTION OF ACCESS EASEMENT (Exhibit "B" attached)

GRANT DISTRICT, COUNTY OF DODDRIDGE, STATE OF WEST VIRGINIA

All that certain Access Easement within the Revised Sherwood Plant Facilities Plan (to be recorded), said Access Easement is located within the property of now or formerly MarkWest Liberty Midstream & Resources, L.L.C., recorded in Deed Book Volume 378, Page 516, located on Tax Parcel Sheet 19, Lot 32, situate in the Grant District, County of Doddridge, State of West Virginia, more particularly bounded and described as follows:

BEGINNING FOR REFERENCE at a capped rebar set on the southerly right of way line of U.S. Route 50, said rebar being on the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan (to be recorded) and property now or formerly Dennis H. Powell, recorded in Deed Book Volume 200, Page 532; thence along the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan and property now or formerly Dennis H. Powell, South 25°07'41" West, 357.07' to a point on the line of the Access Easement, being the **TRUE PLACE OF BEGINNING;** thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following ten (10) courses and distances, viz: South 39°33'11" East, 454.78' to a point; thence by an arc of a circle deflecting to the left in a southeastwardly direction, having a radius of 975.00', an arc distance of 175.28' (chord bearing and distance, South 44°42'11" East, 175.04') to a point; thence South 49°51'12" East, 399.02' to a point; thence by an arc of a circle deflecting to the right in a southeastwardly direction, having a radius of 135.00', an arc distance of 154.93' (chord bearing and distance, South 16°58'35" East, 146.57') to a point; thence South 15°54'02" West, 613.15' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 425.00', an arc distance of 132.47' (chord bearing and distance, South 24°49'47" West, 131.93') to a point; thence South 33°45'32" West, 464.47' to a point; thence by an arc of a circle deflecting to the left in a southwestwardly direction, having a radius of 175.00', an arc distance of 71.95' (chord bearing and distance, South 21°58'51" West, 71.44') to a point; thence South 10°12'10" West, 112.18' to a point; thence North 79°47'50" West, 10.57' to a capped steel pipe set at a southeast corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 50°16'50" West, 45.32' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following two (2) courses and distances, viz: North 10°12'10" East, 71.37' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 145.00', an arc distance of 89.25' (chord bearing and distance, South 84°43'51" West, 87.85') to a point on an easterly line of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following two (2) courses and distances, viz: North 50°16'50" West, 160.24' to a point; thence North 39°43'10" East, 23.01' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following six (6) courses and distances, viz: South 56°32'29" East, 108.14' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 95.00', an arc distance of 145.18' (chord bearing and distance, North 77°32'16" East, 131.46') to a point; thence North 33°45'32" East, 411.69' to a

point; thence North 56°14'28" West, 36.00' to a point; thence by an arc of a circle deflecting to the left in a northwestwardly direction, having a radius of 125.00', an arc distance of 44.56' (chord bearing and distance, North 66°27'11" West, 44.32') to a point; thence North 76°39'54" West, 74.77' to a point on an easterly line of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 39°43'10" East, 55.81' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following eight (8) courses and distances, viz: South 76°39'54" East, 49.97' to a point; thence by an arc of a circle deflecting to the right in a southeastwardly direction, having a radius of 175.00', an arc distance of 62.38' (chord bearing and distance, South 66°27'11" East, 62.05') to a point; thence South 56°14'28" East, 36.00' to a point; thence North 33°45'32" East, 29.96' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 375.00', an arc distance of 116.88' (chord bearing and distance, North 24°49'47" East, 116.41') to a point; thence North 15°54'02" East, 613.15' to a point; thence by an arc of a circle deflecting to the left in a northwestwardly direction, having a radius of 85.00', an arc distance of 97.55' (chord bearing and distance, North 16°58'35" West, 92.28') to a point; thence North 49°51'12" West, 0.94' to a point to a capped steel pipe set at a northeast corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following four (4) courses and distances, viz: North 49°51'12" West, 391.08' to a PK nail set; thence South 40°56'23" West, 356.29' to a capped steel pipe set; thence South 46°50'52" East, 26.12' to a capped steel pipe set; thence South 39°43'10" West, 62.05' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following ten (10) courses and distances, viz: North 15°57'34" East, 67.04' to a point; thence by an arc of a circle deflecting to the right in a northeastwardly direction, having a radius of 525.00', an arc distance of 136.83' (chord bearing and distance, North 23°25'33" East, 136.44') to a point; thence South 40°09'15" West, 78.35' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 525.00', an arc distance of 85.75' (chord bearing and distance, South 44°50'00" West, 85.66') to a point; thence South 49°30'46" West, 98.45' to a point; thence by an arc of a circle deflecting to the left in a southwestwardly direction, having a radius of 475.00', an arc distance of 64.53' (chord bearing and distance, South 45°37'15" West, 64.48') to a point; thence South 41°43'44" West, 64.17' to a point; thence by an arc of a circle deflecting to the left in a southwestwardly direction, having a radius of 275.00', an arc distance of 105.18' (chord bearing and distance, South 30°46'17" West, 104.54') to a point; thence South 19°48'50" West, 7.83' to a point; thence South 50°16'50" East, 121.92' to a point on the northwesterly line of Lot A of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot A and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, South 39°43'10" West, 50.00' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following four (4) courses and distances, viz: North 50°16'50" West, 105.09' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 125.00', an arc distance of 51.39' (chord bearing and distance, South 39°32'34" West, 51.03') to a point; thence South 08°55'31" West, 162.59' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 225.00', an arc distance of 47.97' (chord bearing and distance, South 15°01'56" West, 47.87') to a point on the westerly line of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following two (2) courses and distances, viz: South 40°42'41" West, 65.59' to a capped steel pipe set; thence North 49°56'03" West, 37.25' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following three (3) courses and distances, viz: by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 175.00', an arc distance of 87.71' (chord bearing and distance, North 23°17'03" East, 86.80') to a point; thence North 08°55'31" East, 127.56' to a point; thence South 70°17'34" West, 217.42' to a point on the easterly line of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C and

Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 40°00'30" East, 99.15' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following eight (8) courses and distances, viz: North 70°17'34" East, 151.83' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 75.00', an arc distance of 66.08' (chord bearing and distance, North 45°03'12" East, 63.96') to a point; thence North 19°48'50" East, 43.28' to a point; thence by an arc of a circle deflecting to the right in a northeastwardly direction, having a radius of 325.00', an arc distance of 124.31' (chord bearing and distance, North 30°46'17" East, 123.55') to a point; thence North 41°43'44" East, 64.17' to a point; thence by an arc of a circle deflecting to the right in a northeastwardly direction, having a radius of 525.00', an arc distance of 71.32' (chord bearing and distance, North 45°37'15" East, 71.27') to a point; thence North 49°30'46" East, 31.78' to a point; thence North 49°59'30" West, 61.56' to a point on the easterly line of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 40°00'30" East, 50.00' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following nine (9) courses and distances, viz: South 49°59'30" East, 69.94' to a point; thence North 49°30'46" East, 15.97' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 475.00', an arc distance of 77.58' (chord bearing and distance, North 44°50'00" East, 77.50') to a point; thence North 40°09'15" East, 117.59' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 225.00', an arc distance of 313.01' (chord bearing and distance, North 00°18'02" East, 288.37') to a point; thence North 39°33'11" West, 229.45' to a point; thence South 25°07'41" West, 31.44' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 175.00', an arc distance of 195.23' (chord bearing and distance, South 57°05'18" West, 185.27') to a point; thence South 89°02'55" West, 63.87' to a point on the northeasterly line of Lot D of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot D and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 49°59'30" West, 76.27' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following four (4) courses and distances, viz: North 89°02'55" East, 121.47' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 125.00', an arc distance of 139.45' (chord bearing and distance, North 57°05'18" East, 132.33') to a point; thence North 25°07'41" East, 55.09' to a point; thence North 39°33'11" West, 55.31' to a point

on the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan and property now or formerly Dennis H. Powell; thence along the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan and property now or formerly Dennis H. Powell and along the Access Easement, North 25°07'41" East, 55.31' to a point at the **TRUE PLACE OF BEGINNING.**

Contains 253,923.67 Sq. Ft. or 5.829 Acres

Bearing basis is the West Virginia State Plane North Zone Grid, NAD 1983.

To have and to hold the above granted and bargained premises with the appurtenances thereunto belonging, unto the said **GRANTEE,** its successors and assigns forever.

PURSUANT to the requirement of W. Va. Code §11-22-6, the total consideration paid for this transaction is One Dollar and 00/100 ($1.00).

Site Plan

A Site Plan is an accurate and detailed map of the proposed development for this project. It shows the size, shape, location and special features of the project property, and the size and location of any development planned to the property, especially as that development will impact the floodplain and/or floodway. Site plans show what currently exists on the project property, and any changes or improvements you are proposing to make. **A certified and licensed engineering firm should complete site plans.**

A SITE PLAN MUST CONTAIN THE FOLLOWING INFORMATION:

1. Legal description of the parcel, north arrow and scale
2. All property lines and their dimensions
3. Names of adjacent roads, location of driveways
4. Location of sloughs, tributaries, streams, rivers, wetlands, ponds, and lakes, with setbacks indicated, and including FEMA floodplain data based on most updated FIRM.
5. Location, size, shape of all buildings, existing and proposed, with elevation of lowest floor indicated.
6. Location and dimensions of existing or proposed on-site sewage systems.
7. Location of all propane tanks, fuel tanks or other liquid storage tanks whether above ground or below ground level.
8. Location and dimensions of any proposed pipeline placement(s) into floodplain/floodway.
9. Location and dimensions of any roadway development into floodplain/floodway. *(Includes initial development access roads)*
10. Location and dimensions of any bridge and/or culvert development into floodplain/floodway.
11. Location and dimensions of any storage yard or facility into the floodplain/floodway.
12. Location of any existing utilities and/or proposed utility placement and/or displacement.
13. Location, dimensions and depth of any existing or proposed fill on site.
14. A survey showing the **existing ground elevations** of at least location on the building site. **ELEVATION NOTE**: All vertical datum will reference either NGVD 29 or NAVD 88. Assumed datum will not be acceptable unless the property is located in an area where vertical datum has not been published. For those areas where vertical datum has not been established, a site plan with contours, elevations using assumed datum, high water marks and existing water levels of sloughs, rivers, lakes or streams and proposed lowest floor elevation.

Applicant

Please read print name, sign and date below:

- I certify that I am authorized to submit this application for the primary project developer.
- I certify that the information included in this application is to the best of my knowledge true and complete.
- I certify that all required Federal, State, and local permits required by law and/or ordinance for the above described development of this project have will be properly attained, are current and valid, and must be presented prior to a Doddridge County Floodplain Permit being issued.
- I understand that if in the course of the development project additional permits become required that were not needed during the initial proposal, the primary developer must notify the Doddridge County Floodplain Manager within 48 hours of such need, and that a "Stop Work" order may be issued for all project work directly impacting the floodplain or floodway, until such time the required additional permits are acquired.
- I understand that once the floodplain permit is submitted, the application will be entered into official public record at the next regularly scheduled Doddridge County Commission meeting after the date of submittal.
- I understand that from the date of submittal of the fully completed permit application, the Doddridge County Floodplain Manager has ninety (90) days to make a determination to either grant or deny said permit application. During this approval period, the Doddridge County Floodplain Manager may, at his or her discretion, conduct a review and/or additional study of provided documentation by means of an independent engineering firm. All costs associated with said review and/or study must be reimbursed to the County before issuance of approved permit.
- I understand that during the approval period, the Doddridge County Floodplain Manager of designee may at his or her discretion conduct site visits and document conditions of proposed development pursuant to the permit application.
- I understand that once the Floodplain Permit is granted, the permit will be entered into official public record. Appeals to the permit may be made no later than twenty (20) days after said issuance. If a valid appeal is submitted, as determined by the Doddridge County Floodplain Manager, a "Stop Work" order will be issued for all project development directly involving the floodplain or floodway. A public hearing by the Doddridge County Appeals Board will be scheduled no less than ten (10) days after the next regularly scheduled Doddridge County Commission meeting.
- I understand that all decisions of the Doddridge County Appeals Board shall be final.
- **I understand issuance of a Floodplain Permit authorizes me to proceed with construction as proposed.**
- In signing this application, the primary developer hereby grants the Doddridge County Floodplain Manager or designee the right to enter onto the above---described location to inspect the development work proposed, in progress, and/or completed.
- I understand that if I do not follow exactly the site---plan submitted and approved by this permit that a "Stop Work" order may be issued by the Doddridge County Floodplain Manager and that I must stop all construction immediately until discrepancies of actual work vs. proposed work is resolved.

PROPERTY INFORMATION FORM

O.M.B. NO. 1660-0015
Expires February 28, 2014

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this data collection is estimated to average 1.63 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting the form. This collection is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0015). **NOTE: Do not send your completed form to this address.**

This form may be completed by the property owner, property owner's agent, licensed land surveyor, or registered professional engineer to support a request for a Letter of Map Amendment (LOMA), Conditional Letter of Map Amendment (CLOMA), Letter of Map Revision Based on Fill (LOMR-F), or Conditional Letter of Map Revision Based on Fill (CLOMR-F) for existing or proposed, single or multiple lots/structures. In order to process your request, all information on this form must be completed ***in its entirety***, unless stated as optional. **Incomplete submissions will result in processing delays.** Please check the item below that describes your request:

☐ LOMA	A letter from DHS-FEMA stating that an existing structure or parcel of land that has not been elevated by fill (natural grade) would not be inundated by the base flood.
☐ CLOMA	A letter from DHS-FEMA stating that a proposed structure that is not to be elevated by fill (natural grade) would not be inundated by the base flood if built as proposed.
☐ LOMR-F	A letter from DHS-FEMA stating that an **existing** structure or parcel of land that has been **elevated by fill** would not be inundated by the base flood.
☒ CLOMR-F	A letter from DHS-FEMA stating that a parcel of land or **proposed** structure that will be **elevated by fill** would not be inundated by the base flood if fill is placed on the parcel as proposed or the structure is built as proposed.

Fill is defined as material from any source (including the subject property) placed that raises the ground to or above the Base Flood Elevation (BFE). The common construction practice of removing unsuitable existing material (topsoil) and backfilling with select structural material is not considered the placement of fill if the practice does not alter the existing (natural grade) elevation, which is at or above the BFE. **Fill that is placed before the date of the first National Flood Insurance Program (NFIP) map showing the area in a Special Flood Hazard Area (SFHA) is considered natural grade.**

Has fill been placed on your property to raise ground that was previously below the BFE? ☐ Yes ☒ No If yes, when was fill placed? / month/year

Will fill be placed on your property to raise ground that is below the BFE? ☒ Yes* ☐ No If yes, when will fill be placed? **03/2019** month/year

* If yes, Endangered Species Act (ESA) compliance must be documented to FEMA prior to issuance of the CLOMR-F determination (please refer page 4 to the MT-1 instructions).

1. Street Address of the Property (if request is for multiple structures or units, please attach additional sheet referencing each address and enter street names below): **218 Swisher Lane, West Union, WV 26456**

2. Legal description of Property (Lot, Block, Subdivision or abbreviated description from the Deed): **All that certain 211.525 acres, being Lot E of the Revised Sherwood Plant Facilities Plan, situated in the Grant District, Doddridge County, WV, Deed Book Volume 406, Page 133.**

3. Are you requesting that a flood zone determination be completed for (check one):

   ☐ Structures on the property? What are the dates of construction? _____ (MM/YYYY)
   ☒ A portion of land within the bounds of the property? (A certified metes and bounds description and map of the area to be removed, certified by a licensed land surveyor or registered professional engineer, are **required**. For the preferred format of metes and bounds descriptions, please refer to the MT-1 Form 1 Instructions.**) Note: A certified metes and bounds description and map of the area to be removed will be provided upon completion of fill placement/pad construction.**
   ☐ The entire legally recorded property?

4. Is this request for a (check one):

   ☐ Single structure
   ☒ Single lot
   ☐ Multiple structures (How many structures are involved in your request? List the number: 2
   ☐ Multiple lots (How many lots are involved in your request? List the number: _____)

In addition to this form (MT-1 Form 1), please complete the checklist below. **ALL** requests must include one copy of the following:

☒ Copy of the effective FIRM panel on which the structure and/or property location has been accurately plotted (property inadvertently located in the NFIP regulatory floodway will require Section B of MT-1 Form 3)

☒ Copy of the Subdivision Plat Map for the property **(with recordation data and stamp of the Recorder's Office)**

OR

☐ Copy of the Property Deed **(with recordation data and stamp of the Recorder's Office)**, ***accompanied by*** a tax assessor's map or other certified map showing the surveyed location of the property relative to local streets and watercourses. The map should include at least one street intersection that is shown on the FIRM panel.

☒ Form 2 – Elevation Form. If the request is to remove the structure, and an Elevation Certificate has already been completed for this property, it may be submitted in lieu of Form 2. If the request is to remove the entire legally recorded property, or a portion thereof, the lowest lot elevation must be provided on Form 2.

☒ Please include a map scale and North arrow on all maps submitted.

For LOMR-Fs and CLOMR-Fs, the following must be submitted in addition to the items listed above:

☒ Form 3 – Community Acknowledgment Form

For CLOMR-Fs, the following must be submitted in addition to the items listed above:

☒ Documented ESA compliance, which may include a copy of an Incidental Take Permit, an Incidental Take Statement, a "not likely to adversely affect" determination from the National Marine Fisheries Service (NMFS) or the U.S. Fish and Wildlife Service (USFWS), or an official letter from NMFS or USFWS concurring that the project has "No Effect" on proposed or listed species or designated critical habitat. Please refer to the MT-1 instructions for additional information.

Please do *not* submit original documents. Please retain a copy of all submitted documents for your records.

DHS-FEMA encourages the submission of all required data in a digital format (e.g. scanned documents and images on Compact Disc [CD]). Digital submissions help to further DHS-FEMA's Digital Vision and also may facilitate the processing of your request.

Incomplete submissions will result in processing delays. For additional information regarding this form, including where to obtain the supporting documents listed above, please refer to the MT-1 Form Instructions located at http://www.fema.gov/plan/prevent/fhm/dl_mt-1.shtm.

Processing Fee (see instructions for appropriate mailing address; or visit http://www.fema.gov/fhm/frm_fees.shtm **for** the most current fee schedule)

Revised fee schedules are published periodically, but no more than once annually, as noted in the **Federal Register**. Please note: single/multiple lot(s)/structure(s) LOMAs are fee exempt. The current review and processing fees are listed below:

Check the fee that applies to your request:

☐ $325 (single lot/structure LOMR-F following a CLOMR-F)

☐ $425 (single lot/structure LOMR-F)

☒ ~~$500~~ **$600*** (single lot/structure CLOMA or CLOMR-F) ***Note: Fee updated based upon current FEMA Website data.**

☐ $700 (multiple lot/structure LOMR-F following a CLOMR-F, or multiple lot/structure CLOMA)

☐ $800 (multiple lot/structure LOMR-F or CLOMR-F)

Please submit the Payment Information Form for remittance of applicable fees. Please make your check or money order payable to:
National Flood Insurance Program.

All documents submitted in support of this request are correct to the best of my knowledge. I understand that any false statement may be punishable by fine or imprisonment under Title 18 of the United States Code, Section 1001.

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this data collection is estimated to average 1.25 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting the form. This collection is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0015). **NOTE: Do not send your completed form to this address.**

This form must be completed for requests and must be completed and signed by a registered professional engineer or licensed land surveyor. **A DHS - FEMA National Flood Insurance Program (NFIP) Elevation Certificate may be submitted in lieu of this form for single structure requests.**

For requests to remove a structure on natural grade OR on engineered fill from the Special Flood Hazard Area (SFHA), submit the lowest adjacent grade (the lowest ground touching the structure), ***including an attached deck or garage***. For requests to remove an entire parcel of land from the SFHA, provide the lowest lot elevation; or, if the request involves an area described by metes and bounds, provide the lowest elevation within the metes and bounds description. All measurements are to be rounded to nearest tenth of a foot. In order to process your request, all information on this form must be completed ***in its entirety***. **Incomplete submissions will result in processing delays.**

1. NFIP Community Number: **540024** Property Name or Address: **218 Swisher Lane, West Union, WV 26456**

2. Are the elevations listed below based on ☐ ***existing*** or ☒ ***proposed*** conditions? (Check one)

3. For the existing or proposed structures listed below, what are the types of construction? (check all that apply)
   ☐ crawl space ☐ slab on grade ☐ basement/enclosure ☒ other (explain) **Fill pad to be constructed for equipment.**

4. Has DHS - FEMA identified this area as subject to land subsidence or uplift? (see instructions) ☐ Yes ☒ No
   If yes, what is the date of the current re-leveling? / (month/year)

5. What is the elevation datum? ☐ NGVD 29 ☒ NAVD 88 ☐ Other (explain)
   If any of the elevations listed below were computed using a datum different than the datum used for the effective Flood Insurance Rate Map (FIRM) (e.g., NGVD 29 or NAVD 88), what was the conversion factor?
   Local Elevation +/- ft. = FIRM Datum

6. Please provide the Latitude and Longitude of the most upstream edge of the ***structure*** (in decimal degrees to the nearest fifth decimal place):
   Indicate Datum: ☐ WGS84 ☒ NAD83 ☐ NAD27 Lat. 39.278000 Long. -80.684850 (Edge of Pad)
   Please provide the Latitude and Longitude of the most upstream edge of the ***property*** (in decimal degrees to the nearest fifth decimal place):
   Indicate Datum: ☐ WGS84 ☒ NAD83 ☐ NAD27 Lat. 39.278314 Long. , -80.685628

Expires February 28, 2014

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this data collection is estimated to average 1.38 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting the form. This collection is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0015). NOTE: Do not send your completed form to this address.

This form must be completed for requests involving the existing or proposed placement of fill (complete Section A) ***OR*** to provide acknowledgment of this request to remove a property from the SFHA which was previously located within the regulatory floodway (complete Section B).

This form must be completed and signed by the official responsible for floodplain management in the community. **The six digit NFIP community number and the subject property address must appear in the spaces provided below. Incomplete submissions will result in processing delays.** Please refer to the MT-1 instructions for additional information about this form.

Community Number: **540024** Property Name or Address: **218 Swisher Lane, West Union, WV 26456**

A. REQUESTS INVOLVING THE PLACEMENT OF FILL

As the community official responsible for floodplain management, I hereby acknowledge that we have received and reviewed this Letter of Map Revision Based on Fill (LOMR-F) or Conditional LOMR-F request. Based upon the community's review, we find the completed or proposed project meets or is designed to meet all of the community floodplain management requirements, including the requirement that no fill be placed in the regulatory floodway, and that all necessary Federal, State, and local permits have been, or in the case of a Conditional LOMR-F, will be obtained. For Conditional LOMR-F requests, the applicant has or will document Endangered Species Act (ESA) compliance to FEMA prior to issuance of the Conditional LOMR-F determination. For LOMR-F requests, I acknowledge that compliance with Sections 9 and 10 of the ESA has been achieved independently of FEMA's process. Section 9 of the ESA prohibits anyone from "taking" or harming an endangered species. If an action might harm an endangered species, a permit is required from U.S. Fish and Wildlife Service or National Marine Fisheries Service under Section 10 of the ESA. For actions authorized, funded, or being carried out by Federal or State agencies, documentation from the agency showing its compliance with tion 7(a)(2) of the ESA will be submitted. In addition, we have determined that the land and any existing or proposed structures to be removed om the SFHA are or will be reasonably safe from flooding as defined in 44CFR 65.2(c), and that we have available upon request by DHS-FEMA, all analyses and documentation used to make this determination. For LOMR-F requests, we understand that this request is being forwarded to DHS-FEMA for a possible map revision.

B. PROPERTY LOCATED WITHIN THE REGULATORY FLOODWAY

As the community official responsible for floodplain management, I hereby acknowledge that we have received and reviewed this request for a LOMA. We understand that this request is being forwarded to DHS-FEMA to determine if this property has been inadvertently included in the regulatory floodway. We acknowledge that no fill on this property has been or will be placed within the designated regulatory floodway. We find that the completed or proposed project meets or is designed to meet all of the community floodplain management requirements.

QUITCLAIM DEED

KNOW ALL MEN BY THESE PRESENTS:

THAT, MARKWEST LIBERTY MIDSTREAM & RESOURCES, L.L.C., a Delaware limited liability company ("Grantor"), whose address is 1515 Arapahoe Street, Tower 1, Suite 1600, Denver, Colorado 80202, for valuable consideration paid, the receipt and sufficiency of which is hereby acknowledged, does hereby remise, release, and forever quitclaim unto **SHERWOOD MIDSTREAM HOLDINGS LLC**, a Delaware limited liability company ("Grantee"), whose address is 1515 Arapahoe Street, Tower 1, Suite 1600, Denver, Colorado 80202, the following described real property (the "Property") as further shown on Exhibit "A" and Exhibit "B" attached hereto and incorporated herein by reference, together with all of Grantor's right, title and interest in and to all rights, benefits, privileges, easements, tenements, hereditaments and appurtenances thereon or in any way appertaining thereto:

DESCRIPTION OF 211.525 ACRES

GRANT DISTRICT, COUNTY OF DODDRIDGE, STATE OF WEST VIRGINIA

All that certain 211.525 acres, being Lot E of the Revised Sherwood Plant Facilities Plan (to be recorded) located within the property of now or formerly MarkWest Liberty Midstream & Resources, L.L.C., recorded in Deed Book Volume 378, Page 516, located on Tax Parcel Sheet 19, Lot 32, situate in the Grant District, County of Doddridge, State of West Virginia, more particularly bounded and described as follows:

BEGINNING FOR REFERENCE at a point on an existing stone on a northerly corner of property now or formerly Howard J. Rivers, recorded in Deed Book Volume 249, Page 356, said stone also being at a south corner of Lot E of the Revised Sherwood Plant Facilities Plan (to be recorded), said Revised Sherwood Plant Facilities Plan being property now or formerly MarkWest Liberty Midstream & Resources, L.L.C., recorded in Deed Book Volume 378, Page 516; thence along the dividing line of property of now or formerly Howard J. Rivers and property herein described, the following four (4) courses and distances, viz: North 33°17'31" East, 264.13' to a capped rebar set; thence North 57°54'19" West, 102.11' to a capped rebar set; thence North 52°54'19" West, 145.20' to a capped rebar set; thence North 73°24'19" West, 225.37' to a capped rebar set at the southeast corner of property now or formerly Dennis H. Powell; thence along the dividing line of property of now or formerly Dennis H. Powell and property herein described, the following six (6) courses and distances, viz: North 15°49'45" East, 2304.02' to a capped rebar set; thence North 02°42'33" West, 647.27' to a capped rebar set; thence North 88°57'32" East, 57.52' to a capped rebar set; thence North 76°26'19" East, 311.96' to a capped rebar set; thence South 88°02'36" East, 122.42' to a capped rebar set; thence South 75°10'25" East, 131.40' to a capped steel pipe set at a north corner of Lot D of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot D of the Revised Sherwood Plant Facilities Plan and property herein described, the following three (3) courses and distances, viz: South 40°00'30" West, 289.34' to a capped steel pipe set; thence South 04°59'30" East, 53.74' to a capped steel pipe set; thence South 49°59'30" East, 112.00' to a capped steel pipe set at a northwest corner of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C of the Revised Sherwood Plant Facilities Plan and property herein described, the following three (3) courses and distances, viz: South 40°00'30" West, 551.11' to a capped steel pipe set; thence South 49°48'52" East, 232.76' to a capped steel pipe set; thence South 40°48'51" West, 519.56' to a capped steel pipe set at an

west corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B of the Revised Sherwood Plant Facilities Plan and property herein described, the following twelve (12) courses and distances, viz: South 39°47'23" West, 254.29' to a capped steel pipe set; thence South 49°38'56" East, 1356.83' to a capped steel pipe set; thence North 39°43'10" East, 502.99' to a capped steel pipe set; thence North 50°16'50" West, 302.85' to a capped steel pipe set; thence North 39°43'10" East, 894.00' to a capped steel pipe set; thence North 50°16'50" West, 218.55' to a capped steel pipe set; thence North 39°43'10" East, 457.75' to a capped steel pipe set;

thence North 49°51'12" West, 391.08' to a capped steel pipe set; thence South 40°56'23" West, 356.29' to a capped steel pipe set; thence South 46°50'52" East, 26.12' to a capped steel pipe set; thence South 39°43'10" West, 102.89' to a capped steel pipe set; thence South 50°16'50" East, 41.70' to a capped steel pipe set at a north corner of Lot A of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot A of the Revised Sherwood Plant Facilities Plan and property herein described, South 39°43'10" West, 452.34' to a capped steel pipe set at a northwest corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B of the Revised Sherwood Plant Facilities Plan and property herein described, South 40°42'41" West, 163.87' to a capped steel pipe set at a southeast corner of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C of the Revised Sherwood Plant Facilities Plan and property herein described, the following four (4) courses and distances, viz: North 49°56'03" West, 237.73' to a capped steel pipe set; thence North 40°00'30" East, 1014.01' to a capped steel pipe set; thence North 49°59'30" West, 298.16' to a capped steel pipe set; thence South 40°00'30" West, 112.00' to a capped steel pipe set at a east corner of Lot D of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot D of the Revised Sherwood Plant Facilities Plan and property herein described, North 49°59'30" West, 300.74' to a capped steel pipe set on the line of property now or formerly Dennis H. Powell; thence along the dividing line of property of now or formerly Dennis H. Powell and property herein described, the following three (3) courses and distances, viz: South 75°10'25" East, 51.30' to a capped rebar set; thence North 89°02'55" East, 192.57' to a capped rebar set; thence North 25°07'41" East, 537.92' to a capped rebar set on the southerly right of way line of The State of West Virginia, West Virginia Railroad Maintenance Authority, as recorded in Deed Book Volume 216, Page 166; thence along the southerly right of way line of The State of West Virginia, West Virginia Railroad Maintenance Authority the following six (6) courses and distances, viz: South 20°36'12" East, 77.00' to a capped rebar set; thence North 67°29'54" East, 34.97' to a capped rebar set; thence North 65°43'48" East, 111.00' to a capped rebar set; thence North 59°34'48" East, 111.00' to a capped rebar set; thence North 55°33'48" East, 40.27' to a capped rebar set; thence North 77°19'37" East, 743.13' to a capped rebar set at the northwest corner of property of now or formerly Michael E. Bonnell, as recorded in Deed Book Volume 140, Page 190; thence along the dividing line of property of now or formerly Michael E. Bonnell and property herein described, the following eleven (11) courses and distances, viz: South 14°30'56" East, 715.45' to a capped rebar set; thence South 34°26'09" East, 107.25' to a capped rebar set; thence South 24°26'09" East, 396.00' to a capped rebar set; thence South 16°26'09" East, 198.00' to a capped rebar set; thence South 05°33'51" West, 226.88' to a capped rebar set; thence South 06°56'09" East, 247.50' to a capped rebar set; thence South 11°33'51" West, 276.37' to a capped rebar set; thence South 05°03'51" West, 478.50' to a capped rebar set; thence South 04°26'09" East, 330.00' to a capped rebar set; thence South 03°33'51" West, 222.75' to a capped rebar set; thence South 09°26'09" East, 330.00' to a capped rebar set on the northerly line of property of now or formerly Mule Tracts, LLC; thence along the dividing line of property of now or formerly Mule Tracts, LLC and property herein described, the following twelve (12) courses and distances, viz: South 89°33'51" West, 148.50' to a capped rebar set; thence South 65°24'18" West, 141.35' to a capped rebar set; thence South 35°50'50" West, 189.75' to a capped rebar set; thence South 31°05'50" West, 165.00' to a capped rebar set; thence South 18°20'50" West, 181.50' to a capped rebar set; thence South 17°50'50" West, 148.50' to a capped rebar set; thence South 25°20'50" West, 148.50' to a capped rebar set; thence South 41°50'50" West, 107.25' to a capped rebar set; thence South 41°50'50" West, 152.63' to a capped rebar set; thence

South 33°50'50" West, 297.00' to a capped rebar set; thence South 55°50'50" West, 202.13' to a capped rebar set; thence South 21°39'10" East, 123.75' to a capped rebar set at a northeast corner of property of now or formerly Howard J. Rivers; thence along the dividing line of property of now or formerly Howard J. Rivers and property herein described, the following two (2) courses and distances, viz: South 49°50'50" West, 621.33' to a capped rebar set; thence North 45°57'17" West, 1837.63' to an existing stone at the **PLACE OF BEGINNING.**

Contains 9,214,015.33 Sq. Ft. or 211.525 Acres

DESCRIPTION OF ACCESS EASEMENT (Exhibit "B" attached)

GRANT DISTRICT, COUNTY OF DODDRIDGE, STATE OF WEST VIRGINIA

All that certain Access Easement within the Revised Sherwood Plant Facilities Plan (to be recorded), said Access Easement is located within the property of now or formerly MarkWest Liberty Midstream & Resources, L.L.C., recorded in Deed Book Volume 378, Page 516, located on Tax Parcel Sheet 19, Lot 32, situate in the Grant District, County of Doddridge, State of West Virginia, more particularly bounded and described as follows:

BEGINNING FOR REFERENCE at a capped rebar set on the southerly right of way line of U.S. Route 50, said rebar being on the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan (to be recorded) and property now or formerly Dennis H. Powell, recorded in Deed Book Volume 200, Page 532; thence along the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan and property now or formerly Dennis H. Powell, South 25°07'41" West, 357.07' to a point on the line of the Access Easement, being the **TRUE PLACE OF BEGINNING**; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following ten (10) courses and distances, viz: South 39°33'11" East, 454.78' to a point; thence by an arc of a circle deflecting to the left in a southeastwardly direction, having a radius of 975.00', an arc distance of 175.28' (chord bearing and distance, South 44°42'11" East, 175.04') to a point; thence South 49°51'12" East, 399.02' to a point; thence by an arc of a circle deflecting to the right in a southeastwardly direction, having a radius of 135.00', an arc distance of 154.93' (chord bearing and distance, South 16°58'35" East, 146.57') to a point; thence South 15°54'02" West, 613.15' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 425.00', an arc distance of 132.47' (chord bearing and distance, South 24°49'47" West, 131.93') to a point; thence South 33°45'32" West, 464.47' to a point; thence by an arc of a circle deflecting to the left in a southwestwardly direction, having a radius of 175.00', an arc distance of 71.95' (chord bearing and distance, South 21°58'51" West, 71.44') to a point; thence South 10°12'10" West, 112.18' to a point; thence North 79°47'50" West, 10.57' to a capped steel pipe set at a southeast corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 50°16'50" West, 45.32' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following two (2) courses and distances, viz: North 10°12'10" East, 71.37' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 145.00', an arc distance of 89.25' (chord bearing and distance, South 84°43'51" West, 87.85') to a point on an easterly line of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following two (2) courses and distances, viz: North 50°16'50" West, 160.24' to a point; thence North 39°43'10" East, 23.01' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following six (6) courses and distances, viz: South 56°32'29" East, 108.14' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 95.00', an arc distance of 145.18' (chord bearing and distance, North 77°32'16" East, 131.46') to a point; thence North 33°45'32" East, 411.69' to a

point; thence North 56°14'28" West, 36.00' to a point; thence by an arc of a circle deflecting to the left in a northwestwardly direction, having a radius of 125.00', an arc distance of 44.56' (chord bearing and distance, North 66°27'11" West, 44.32') to a point; thence North 76°39'54" West, 74.77' to a point on an easterly line of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 39°43'10" East, 55.81' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following eight (8) courses and distances, viz: South 76°39'54" East, 49.97' to a point; thence by an arc of a circle deflecting to the right in a southeastwardly direction, having a radius of 175.00', an arc distance of 62.38' (chord bearing and distance, South 66°27'11" East, 62.05') to a point; thence South 56°14'28" East, 36.00' to a point; thence North 33°45'32" East, 29.96' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 375.00', an arc distance of 116.88' (chord bearing and distance, North 24°49'47" East, 116.41') to a point; thence North 15°54'02" East, 613.15' to a point; thence by an arc of a circle deflecting to the left in a northwestwardly direction, having a radius of 85.00', an arc distance of 97.55' (chord bearing and distance, North 16°58'35" West, 92.28') to a point; thence North 49°51'12" West, 0.94' to a point to a capped steel pipe set at a northeast corner of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following four (4) courses and distances, viz: North 49°51'12" West, 391.08' to a PK nail set; thence South 40°56'23" West, 356.29' to a capped steel pipe set; thence South 46°50'52" East, 26.12' to a capped steel pipe set; thence South 39°43'10" West, 62.05' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following ten (10) courses and distances, viz: North 15°57'34" East, 67.04' to a point; thence by an arc of a circle deflecting to the right in a northeastwardly direction, having a radius of 525.00', an arc distance of 136.83' (chord bearing and distance, North 23°25'33" East, 136.44') to a point; thence South 40°09'15" West, 78.35' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 525.00', an arc distance of 85.75' (chord bearing and distance, South 44°50'00" West, 85.66') to a point; thence South 49°30'46" West, 98.45' to a point; thence by an arc of a circle deflecting to the left in a southwestwardly direction, having a radius of 475.00', an arc distance of 64.53' (chord bearing and distance, South 45°37'15" West, 64.48') to a point; thence South 41°43'44" West, 64.17' to a point; thence by an arc of a circle deflecting to the left in a southwestwardly direction, having a radius of 275.00', an arc distance of 105.18' (chord bearing and distance, South 30°46'17" West, 104.54') to a point; thence South 19°48'50" West, 7.83' to a point; thence South 50°16'50" East, 121.92' to a point on the northwesterly line of Lot A of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot A and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, South 39°43'10" West, 50.00' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following four (4) courses and distances, viz: North 50°16'50" West, 105.09' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 125.00', an arc distance of 51.39' (chord bearing and distance, South 39°32'34" West, 51.03') to a point; thence South 08°55'31" West, 162.59' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 225.00', an arc distance of 47.97' (chord bearing and distance, South 15°01'56" West, 47.87') to a point on the westerly line of Lot B of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot B and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following two (2) courses and distances, viz: South 40°42'41" West, 65.59' to a capped steel pipe set; thence North 49°56'03" West, 37.25' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following three (3) courses and distances, viz: by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 175.00', an arc distance of 87.71' (chord bearing and distance, North 23°17'03" East, 86.80') to a point; thence North 08°55'31" East, 127.56' to a point; thence South 70°17'34" West, 217.42' to a point on the easterly line of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C and

Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 40°00'30" East, 99.15' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following eight (8) courses and distances, viz: North 70°17'34" East, 151.83' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 75.00', an arc distance of 66.08' (chord bearing and distance, North 45°03'12" East, 63.96') to a point; thence North 19°48'50" East, 43.28' to a point; thence by an arc of a circle deflecting to the right in a northeastwardly direction, having a radius of 325.00', an arc distance of 124.31' (chord bearing and distance, North 30°46'17" East, 123.55') to a point; thence North 41°43'44" East, 64.17' to a point; thence by an arc of a circle deflecting to the right in a northeastwardly direction, having a radius of 525.00', an arc distance of 71.32' (chord bearing and distance, North 45°37'15" East, 71.27') to a point; thence North 49°30'46" East, 31.78' to a point; thence North 49°59'30" West, 61.56' to a point on the easterly line of Lot C of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot C and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 40°00'30" East, 50.00' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following nine (9) courses and distances, viz: South 49°59'30" East, 69.94' to a point; thence North 49°30'46" East, 15.97' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 475.00', an arc distance of 77.58' (chord bearing and distance, North 44°50'00" East, 77.50') to a point; thence North 40°09'15" East, 117.59' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 225.00', an arc distance of 313.01' (chord bearing and distance, North 00°18'02" East, 288.37') to a point; thence North 39°33'11" West, 229.45' to a point; thence South 25°07'41" West, 31.44' to a point; thence by an arc of a circle deflecting to the right in a southwestwardly direction, having a radius of 175.00', an arc distance of 195.23' (chord bearing and distance, South 57°05'18" West, 185.27') to a point; thence South 89°02'55" West, 63.87' to a point on the northeasterly line of Lot D of the Revised Sherwood Plant Facilities Plan; thence along the dividing line of Lot D and Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, North 49°59'30" West, 76.27' to a point; thence through Lot E of the Revised Sherwood Plant Facilities Plan and along the Access Easement, the following four (4) courses and distances, viz: North 89°02'55" East, 121.47' to a point; thence by an arc of a circle deflecting to the left in a northeastwardly direction, having a radius of 125.00', an arc distance of 139.45' (chord bearing and distance, North 57°05'18" East, 132.33') to a point; thence North 25°07'41" East, 55.09' to a point; thence North 39°33'11" West, 55.31' to a point

on the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan and property now or formerly Dennis H. Powell; thence along the dividing line of Lot E of the Revised Sherwood Plant Facilities Plan and property now or formerly Dennis H. Powell and along the Access Easement, North 25°07'41" East, 55.31' to a point at the **TRUE PLACE OF BEGINNING.**

Contains 253,923.67 Sq. Ft. or 5.829 Acres

Bearing basis is the West Virginia State Plane North Zone Grid, NAD 1983.

To have and to hold the above granted and bargained premises with the appurtenances thereunto belonging, unto the said **GRANTEE**, its successors and assigns forever.

PURSUANT to the requirement of W. Va. Code §11-22-6, the total consideration paid for this transaction is One Dollar and 00/100 ($1.00).

ENDANGERED SPECIES ACT CONSULTATION SUMMARY
Monongahela Power Company, a FirstEnergy Company
Proposed Buckeye Run Breaker Station
Tax Parcel No. 19-32 -- 218 Swisher Lane, West Union, WV

Civil & Environmental Consultants, Inc. (CEC) understands that Monongahela Power Company, a FirstEnergy Company, is required to document compliance with the Endangered Species Act (ESA) as part of the Conditional Letters of Map Amendment (CLOMA) application related to their proposed Buckeye Run Breaker Station Project. This project will be located on Tax Parcel 19-32, the site of the existing Sherwood Gas Processing Plant.

The proposed project will be located within areas for which ESA clearance was previously obtained to comply with federal permits for the above referenced existing gas processing plant. The U.S. Fish and Wildlife Service (USFWS) has performed multiple reviews of the project area since 2012 to determine potential impacts of the project on rare, threatened, or endangered (RTE) species or their habitats protected by the ESA.

Based on these consultations, it was determined that the project is: 1) within the range of and providing potential summer foraging and roosting habitat for the Indiana bat (*Myotis sodalis*) listed under the ESA as endangered, and 2) within a 2.5-mile buffer zone for a known maternity roost of the northern long-eared (NLE) bat (*Myotis septentrionalis*) listed as threatened. The project area was not identified as habitat for other federally listed species under the ESA, although coordination with the West Virginia Division of Natural Resources was performed to protect freshwater mussels as required by state rules when instream work was necessary.

USFWS considers all forested area containing potential roosts, i.e. live trees and/or snags ≥5 inches diameter at breast height (dbh) with exfoliating bark, cracks, crevices, and/or hollows, to be potentially suitable as summer roosting and foraging habitat (April 1 to November 14) for the Indiana bat. NLE bat habitat includes forested areas ≥3 inches diameter at breast height (dbh) as well as human-made structures, such as buildings, barns, bridges, and bat houses.

The portion of the proposed project pertaining to the CLOMA (existing gravel parking lot) is non-forested and does not contain human-made structures, and is therefore not considered to be habitat for the Indiana or NLE bats. Previous construction work at the site that affected forested areas complied with ESA requirements as part of federal Clean Water Act Section 404 permits (LRH-2011-753-OHR, LRH-2012-537-OHR, LRH-2014-528-OHR). Specifically, these permits stipulate that USFWS-recommended conservation measures including minimizing tree clearing and wintertime tree-cutting between November 15 and March 31 must be performed.

Prior to 2013, tree clearing conducted during multiple phases of construction of the Sherwood Plant did not exceed 17 acres and therefore USFWS made a "no effect determinations" as documented by letters dated April 22 and August 8, 2013. Later in 2013, unanticipated further expansion of the plant resulted in cumulative tree clearing exceeding 17 acres, as documented by information submitted to CEC on November 11, 2013. As a result, USFWS determined that "the project may affect, but is not likely to adversely affect, any federally listed threatened and endangered species," as documented by the January 16, 2014, letter. In order to avoid direct impacts to Indiana bat, USFWS recommended that any further forest clearing proposed for this project be completed seasonally when bats are in hibernation (November 15 to March 31) bats. The project complied with this recommendation. Since then, the NLE bat was listed under ESA as threatened in 2015, and the project is now located within a 2.5-mile buffer zone for the NLE bat.

Monongahela Power Company, a FirstEnergy Company, proposes to construct a breaker station adjacent to the plant. No additional tree clearing or stream or wetland impacts are required for completion of this project. No potential habitat for the Indiana or NLE bat are known to the proposed work area. Therefore no impacts to RTE species or their habitats are anticipated. In addition, the proposed action does not have the potential for a "Take" of threatened and endangered species present in Doddridge County as a result of the project.

This summary is based on our current understanding of the project and correspondence between USFWS, Monongahela Power Company, a FirstEnergy Company.

Jonathan R. Farrell, MS, PWS
CEC Project Manager
