Doddridge County Floodplain Permits

(Week of July 31, 2023)

Please take notice that on the (28th) of (July), 2023, (Antero Resources) filed an application for a Floodplain Permit (#23-635) to develop land located at or about (Meathouse Fork Road @ Brushy Fork Road); Coordinates: 39.208981, -80.675009. The Application is on file with the Floodplain Manager of the County and may be inspected or copied during regular business hours in accordance with WV Code Chapter 29B Freedom of Information, Article 1 Public Records and county policy and procedures. Any interested persons who desire to comment shall present the same in writing by (date) (20 calendar days after the announcement at the regularly scheduled Doddridge County Commission Meeting) delivered to the Floodplain Manager of the County at 105 Court Street, Suite #3, West Union, WV 26456. **This project is for road improvements to Brushy Fork**

A handwritten signature in blue ink, appearing to read "George C. Eidel", is written over the printed name.

GEORGE C. EIDEL, CFM

Doddridge County Floodplain Manager

August 24, 2023

Doddridge County Commission
Attn: George Eidel, Doddridge County Floodplain Manager
118 East Court Street, Room 102
West Union, WV 26456

Dear Mr. Eidel:

Subject: Floodplain Development Permit
Antero Resources Corporation
Brushy Fork Road Improvements
Doddridge County, West Virginia
CEC Project 181-734

Civil & Environmental Consultants, Inc. (CEC) is pleased to evaluate the potential floodplain impacts for the above referenced project on behalf of Antero Resources Corporation (Antero), 535 White Oaks Boulevard, Bridgeport, WV 26330. Antero is proposing to improve the Doddridge County Route 56 (Brushy Fork Road) by ditch cleaning, paving, shoulder restoration, box culvert installation and minor roadway grading. A portion of project site is located within a Zone A Flood Zone as designated on FEMA's Flood Map 54017C0235C with an effective date of October 4, 2011. Approximately 900 feet of roadway section lies within the flood hazard area out of total 3.2 miles of roadway section undergoing maintenance works.

The proposed maintenance work includes minor road grading, shoulder stabilization, box culvert installation and roadside ditch cleaning. The work does not involve any earthwork fill placement in the floodplain. The soil nail wall is being installed in a manner such that the original ground surface is maintained so the floodplain of Brushy Fork will be unaffected. The minor road grading will not change the original ground surface or contours. With the proposed maintenance work, no change in floodplain storage of Brushy Fork is expected and there will be no impact on the base flood elevations of Brushy Fork. Since the maintenance work will not change the original ground, no hydraulic analysis was performed. Potential sediment runoff from construction will be controlled via best management practices and erosion and sediment control measures.

CEC is including the Federal Emergency Management Agency mapped flood hazard area, as shown on the mapping in Attachment A, the WV Flood Tool Map, an exhibit showing the cross

George Eidel, Doddridge County Floodplain Manager

CEC Project 181-734

section of the soil nail wall, and the Site Plans are included as Attachments B, C, and D respectively.

Your time and effort in reviewing this floodplain development permit application is appreciated. Please feel free to contact Patrick Carpenter at 304-933-3119 or via e-mail at pcarpenter@cecinc.com if you have questions or need additional information.

Sincerely,

CIVIL & ENVIRONMENTAL CONSULTANTS, INC.

Floodplain Development Permit Application

This document is to be used for projects that impact/potentially impact the FEMA---designated floodplain and/or floodway of Doddridge County, WV pursuant to the rules and regulations established by all applicable Federal, State and local laws and ordinances, including the Doddridge County Floodplain Ordinance.

SECTION 1: GENERAL PROVISIONS (APPLICANT TO READ AND SIGN)

1. No work may start until a permit is issued.
2. The permit may be revoked if any false statements are made herein.
3. If revoked, all work must cease until permit is re-issued.
4. The permit will expire if no work is commenced within six months of issuance.
5. Applicant is hereby informed that other permits may be required to fulfill local, state, and federal requirements.
6. Applicant hereby gives consent to the Floodplain Administrator/Manager or his/her representative to make inspections to verify compliance.
7. I THE APPLICANT CERTIFY THAT ALL STATEMENTS HEREIN AND IN ATTACHMENTS TO THIS APPLICATION ARE, TO THE BEST OF MY KNOWLEDGE, TRUE AND ACCURATE.

APPLICANT'S SIGNATURE John M. Angiulli

Doddridge County Commercial/Industrial
Floodplain Development Permit Application

Project Narrative:

Describe in detail the proposed development including project name/title, type of development, estimated start and completion timeline, and its potential impact on the floodplain. Use additional copies of this page as needed.

Project Narrative:

Antero is proposing to maintain the Doddridge County Route 56 (Brushy Fork Road) by ditch cleaning, shoulder restoration, box culvert installation and minor roadway grading. No other construction work is proposed. The maintenance work starts 100 feet south of the intersection of Brushy Fork Road and Doddridge County Route 25 (Meathouse Fork Road) and continues along Brushy Fork Road for approximately 3.2 miles.

A portion of the project is located within Federal Emergency Management Agency mapped flood hazard area, as shown on the mapping in Attachment A. The approximate length along the road which lies within the flood hazard area is 900 feet. The location of the soil nail wall is within the Zone A Flood Hazard Area. The construction of the soil nail wall will not affect the hydraulic capacity of the adjacent Brushy Fork floodplain, thereby incurring no impacts to the base flood elevations of Brushy Fork.

Federal Emergency Management Agency mapped flood hazard area, as shown on the mapping in Attachment A, the WV Flood Tool Map, an exhibit showing the cross section of the soil nail wall, and the Site Plans are included as Attachments B, C, and D respectively.

Site Plan

A Site Plan is an accurate and detailed map of the proposed development for this project. It shows the size, shape, location and special features of the project property, and the size and location of any development planned to the property, especially as that development will impact the floodplain and/or floodway. Site plans show what currently exists on the project property, and any changes or improvements you are proposing to make. **A certified and licensed engineering firm should complete site plans.**

A SITE PLAN MUST CONTAIN THE FOLLOWING INFORMATION:

1. Legal description of the parcel, north arrow and scale
2. All property lines and their dimensions
3. Names of adjacent roads, location of driveways
4. Location of sloughs, tributaries, streams, rivers, wetlands, ponds, and lakes, with setbacks indicated, and including FEMA floodplain data based on most updated FIRM.
5. Location, size, shape of all buildings, existing and proposed, with elevation of lowest floor indicated.
6. Location and dimensions of existing or proposed on-site sewage systems.
7. Location of all propane tanks, fuel tanks or other liquid storage tanks whether above ground or below ground level.
8. Location and dimensions of any proposed pipeline placement(s) into floodplain/floodway.
9. Location and dimensions of any roadway development into floodplain/floodway. *(Includes initial development access roads)*
10. Location and dimensions of any bridge and/or culvert development into floodplain/floodway.
11. Location and dimensions of any storage yard or facility into the floodplain/floodway.
12. Location of any existing utilities and/or proposed utility placement and/or displacement.
13. Location, dimensions and depth of any existing or proposed fill onsite.
14. A survey showing the **existing ground elevations** of at least location on the building site. **ELEVATION NOTE:** All vertical datum will reference either NGVD 29 or NAVD 88. Assumed datum will not be acceptable unless the property is located in an area where vertical datum has not been published. For those areas where vertical datum has not been established, a site plan with contours, elevations using assumed datum, high water marks and existing water levels of sloughs, rivers, lakes or streams and proposed lowest floor elevation.

Applicant

Please read print name, sign and date below:

- I certify that I am authorized to submit this application for the primary project developer.
- I certify that the information included in this application is to the best of my knowledge true and complete.
- I certify that all required Federal, State, and local permits required by law and/or ordinance for the above described development of this project have will be properly attained, are current and valid, and must be presented prior to a Doddridge County Floodplain Permit being issued.
- I understand that if in the course of the development project additional permits become required that were not needed during the initial proposal, the primary developer must notify the Doddridge County Floodplain Manager within 48 hours of such need, and that a "Stop Work" order may be issued for all project work directly impacting the floodplain or floodway, until such time the required additional permits are acquired.
- I understand that once the floodplain permit is submitted, the application will be entered into official public record at the next regularly scheduled Doddridge County Commission meeting after the date of submittal.
- I understand that from the date of submittal of the fully completed permit application, the Doddridge County Floodplain Manager has ninety (90) days to make a determination to either grant or deny said permit application. During this approval period, the Doddridge County Floodplain Manager may, at his or her discretion, conduct a review and/or additional study of provided documentation by means of an independent engineering firm. All costs associated with said review and/or study must be reimbursed to the County before issuance of approved permit.
- I understand that during the approval period, the Doddridge County Floodplain Manager of designee may at his or her discretion conduct site visits and document conditions of proposed development pursuant to the permit application.
- I understand that once the Floodplain Permit is granted, the permit will be entered into official public record. Appeals to the permit may be made no later than twenty (20) days after said issuance. If a valid appeal is submitted, as determined by the Doddridge County Floodplain Manager, a "Stop Work" order will be issued for all project development directly involving the floodplain or floodway. A public hearing by the Doddridge County Appeals Board will be scheduled no less than ten (10) days after the next regularly scheduled Doddridge County Commission meeting.
- I understand that all decisions of the Doddridge County Appeals Board shall be final.
- **I understand issuance of a Floodplain Permit authorizes me to proceed with construction as proposed.**
- In signing this application, the primary developer hereby grants the Doddridge County Floodplain Manager or designee the right to enter onto the above---described location to inspect the development work proposed, in progress, and/or completed.
- I understand that if I do not follow exactly the site---plan submitted and approved by this permit that a "Stop Work" order may be issued by the Doddridge County Floodplain Manager and that I must stop all construction immediately until discrepancies of actual work vs. proposed work is resolved.

Meathouse Fork Road Staging Area Maintenance

2 messages

John Angiulli <jangiulli@anteroresources.com>
To: George Eidel <doddridgecountyfpm@gmail.com>

Fri, Jul 28, 2023 at 12:39 PM

George,

As discussed, in order to accommodate trucks turning off Meathouse Fork Road (CR 25) onto the bridge on Brushy Fork Road (CR 56) we need to do some minor maintenance and cleanout/cut into the bank of the existing staging area slightly so that the trucks can make the turn onto the bridge. The existing staging area is within the mapped floodplain. The trucks will be transporting a CON/SPAN bridge to be installed at our Haught Well Pad. They will be arriving as early as Monday, so we are respectfully requesting immediate authorization to perform the maintenance work. The attached design sheet shows the area where the proposed maintenance work will occur. I have attached a draft floodplain permit application. Please note the floodplain permit application includes additional maintenance work on Brushy Fork Road. We will follow up with a formal permit application and fee. This request only involves the proposed maintenance at the existing staging area on Meathouse Fork Road. Our engineer has reviewed this project and determined that the proposed maintenance will not change the base flood elevations/floodplain storage. No fill placement in the floodplain is proposed.

Thanks,

John M. Angiulli

John,

Thanks for sending this application to me so quickly, I will need a few things before we move forward. I will need the first and last pages of the permit application signed by whoever is authorizing this, email me the two pages. I will also need a

hard copy sent. Have all of the primary land owners and adjacent landowners been notified of the work and the need to get it done as soon as possible? We will send out notices but by then the work will already be done or close to it so I will need to make sure the community knows about the project.

George

John,

Also, the coordinates you have on the paperwork go to an area on Morgan's Run off of Route 50. Can you get me better coordinates for where the work is being done on Brushy Fork and Meathouse fork?
